Judging from the advance sale of seats, indications point that a crowded house will welcome the twenty-fourth edition of Charles H. Yale's "Everlasting Devil's Auction" at the Grand on Monday night. New and bright scenery, handsome costumes, magnificent scenic eff cis, and a cast capable of properly presenting the different parts to which they are assigned, are some of the reasons why C. H. Yale's "Everlast-

ing Devil's Auction' should draw a crowded house. A brand new company of most carefully selected artists headed by that clever comedian. George N. Topack, includes Leonie Pam, Marie Elmer, Sadie Stephens, Helen Gilmore, Edna West, Les Trois Casinos, wonderful Casinos, wonderful musical gro-tesques; Ranzetta and BeLair, the greatest of comedy acrobats, Frau-lein Prager and the Imperial Troupe of Dancers. As usual, the "Devil's. Auction" will be filled with all that is unique, bright, odd, unusual and new.

The new Transformation is entitled "Amor," (Love) and is claimed to be one of the handsomest, if not the handsomest mise-en-scene ever pre-

Queen of the Convicts" is the title of the new four set melo-drama, bas ed upon the tragic fate of Queen Draga of Servia, which Theodore Kremer has written for Selma Her-man, the well known emotional actress, who is starred under the direction of P. H. Sullivan. The play is built around the incidents of the Servian Revolution, in which Queen Draga and her husbund, the King, lost their lives, having been stabbed and thrown out of the throne room by a band of revolutionists. In order to obtain local color, Mr. Kremor actually went to Belgrade, the seen of the tragedy, mixing in with some of the revolutionists, and obtaining valuable information as well as a number of arms used in the uprising. The play gives Miss Herman an opress, who is starred under the direct

## Ashamed of her Skin

Now proud of the complexion "Fruit-a-tives" gave her.

Bad complexions are all too common among women. The skin becomes sallow-pimples and blotches break out. Then women try lotions and creams and "beautifiers" which really injure the Skin. They never think of constipation and bad digestion - sick kidneys or torpid liver-as the CAUSE. torpid liver—as the CAUSE.

"I was a martyr to that distressing complaint a chronic constipation—and had a characteristic constitution—and had a characteristic constitution of the extreme and the summer the cycs. Last May, I was advised middle the truits—tives. Before I had finished the truits—tives. Before I had considered the truits—tives when I have continued to improve and now my complexion is as clear as when I was a young girl. To all persons suffering from constipation and indigestion, and particularly those with bad complexions, I would strongly advise them to try. Florence Jam'son, Masson. P.Q.

strike right at the root of the trouble. The skin helps to dispose of the waste of the body. When the bowels don't move regularly - when the kidneys are clogged\_the blood carries the poisons, which the bowels and kidneys won't pass off, to the skin. The pores of the skin become clogged with this poison and the complexion becomes grey or sallow or irritated and inflammed—and pimples and blotches are the natural result of the poisoned blood. "Fruit-a-tives" correct

faulty digestion and make the bowels move regularly. They act directly on the kidneysand open the millions of tiny pores of the skin by stimulating and strengthening the glands. This insures all the waste of the system being removed as nature intended. It insures pure, rich bloodand who ever heard of a bad complexion where the blood was rich and pure?

"Fruit-a-tives" cost soc. a box—and are worth \$50. to any woman who values her complexion. If your druggist has none, we will send them on receipt of price—sec. a box or 6 boxes for \$2.50.

ortunity to display her ability as an otress and also a chance to wear actress and also a chance to wear magnificent gowns.

Mr. Kremer claims this to be his very best work, having spent more than two years in building around, the play. He has a reputation as a lightning dramatist, it being said that he wrote "The Fatal Wedding," the most successful melo-drama on the atage for the past fifteen years, on only five days' notice.

#### NEW BOOKS & MAGAZINES

A GOOD START FOR 1906. Volume X. of The Four-Track News starts off with the January number offering its readers an unusual Table of Contents, full of interesting and entertaining articles, all of which are of real value and contain much in-Iormation that it would require years of research to find elsewhere.

The Four-Track News is one dollar a year, or ten cents a copy, and can be had of George H. Daniels, Publisher, 57 East 42nd Street, New York, or at any news-stand.

THE LIBERALS IN ENGLAND.

Collier's for January 6, 1996, says:
The New Government in Eugland is
expected to win at the next general
election, to make a bad record, and
be defeated, along the lines of the
prophecy made by Mr. Chamberlain
when he first brought protection forward. He counted on hard times in
his scheme, and the victory of the
protection idea in Great Britain must
wait for worse trade conditions than
prevail at present. Then, very likely, there will be some experiment
or other with the tariff. The present Cabinet is united on this fiscal
issue only, and as they are in the
position of defending the present arrangement it gives them no striking
program. On other questions of the
day they are a patchwork of divided thought. Home rule is a danger
ground. On foreign policies their
ideas are not one. On labor questions and social legislation they are
many species of conviction. Probably they will amend the education
act, a step which may not be much
fought. Before the Liberals can become a great force in England again
they must become the heraids of some
radical change, probably in conjunction with the labor party. The present administration is expected by the
radicals to be one of transition and
education, and they are especially
cheered by the presence of John
Burns in the Cabinet and the favorable outlook for the presence of a
large humber of labor members in
the Parliament.

Most women believe that if they were rich their chief object in life would be the care of the poor.

We always feel that we could do o much better than the other fellow oes with his big income.

"The blood is the life." Science has "The blood is the life." Science has never gone beyond that simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers the purch disease. The brain is also it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. No one can be well balanced in mind and body whose blood is impure. No one can have a wholesome and pure life unless the blood is pure. Foul blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. When the blood is pure, body and brain are alike healthy, and life becomes a daily happiness.
