ADVERTISEMENTS Inserted at very Lowest Rates. E. WOODWORTH, Manager.

Sackville Bred Horses Abroad.

Many horses and ponies in the past few years have left our vast grazing lands for homes of luxury, but perhaps not of ease. Among them "Sleepy Tom," who not only made a name for himself in New Brunswick and Nova Scotia, both on the flat and over hurdles, but also in the United States, winning several races last year with the heavy imports of 170 lbs up and in short helf. post of 170 lbs. up, and in about half an hour he went out with our well known horseman on his back, Mr. Karney carrying 130 lbs. and beat such a good horse as "Electrician" for a place at the Country Club Races, Brookline, Mass. last autumn, but it was here too that "Mollie Darling" made her maiden bow to the public, which Mr. Karney pur-chased from Mr. Geo. Campbell last

August along with a bay mare bred by Mr. Main, Upper Sackville. "Molly" after ten weeks training ran second to the thoroughbred mare "Lancaster Tis" and "Mermaid" both fourteen hands and one inch high, while "Molly" was only thirteen hands three inches and a quarter,

while "Molly" was only thirteen hands three finches and a quarter, giving seven pounds in weight for the quarter of an inch, and this to such well bred ones. The Boston Herald said at the time it was a wonderful performance for a green mare.

The Main mare turned out one of the finest and gamest mares in the hunting field for her inches they had ever seen, only two Irish bred horses and herself going over a most difficult jump, a drain four feet wide, a stone wall, and post and two rails. The veteran Mr. Paul Woods, who was riding her this speaks volumes, as he served the days of his youth with such men as the Marquis of Waterford and Mr. Dante in the south of Ireland.

When talking with Mr. Karney some time ago, he said he was convinced that, "Mollie" was the best pony in America and the fastest, I and hor seed and pool to the message of the convicts have been as the marging of the convicts have been as good education and be prepared for future usefulness and happiness, and become good temperance work large in the market hard sepace for the sin-cursed people. But the mission of Christ to the world the emission of Christ to the world the convicts, dense ignorance as to the mission of Christ to the world and to the message of God's good news for the sin-cursed people. But the mission of Christ to the world and to the message of God's good news for the sin-cursed people. But the mission of Christ to the world the chief the mission of Christ to the world the convicts, dense as the mission of Christ to the world the convicts, dense as the mission of Christ to the world on the mission of Christ to the world the convicts, dense and the sale of the distribution of the brounds the convicts have been and to excessive from the mission of Christ to the world on the mission of Christ to the world on

beating "Electrician. Wanderer, after a careful study of his pedigree, ranks in breeding second to no living horse. He is by "Planet" out of a dam by Imp. "Scythian" who was by "Orlando" by "Touchstene" so it can easily be understood why he transmitted so many good qualities to his stock when the very best blood of the English and American race horse tingled through his veins. It is almost a, pity "Wanderer's" name had ever been changed, as he is entered in the stud book as "Nepturus." and is full brother to "Donnybrook" who it is said ran a full brown upon the nelly rocks.

say anything against the man who like its force-ince cast-from is to come after you. A minister who didn't bear this in mind was asked by his parishioners what kind of a man his successor was. 'Ob, brother—is a good man, but—' mile was broken. A mineter song. A three-ince cast-from each of the long continued we we weather the farmers of New Hampshire have been compelled to replant corn which has rooted in the brother—is a good man, but—' mile was broken. But what? If there's anything wrong that is just what we want to know. that is just what we want to know.
