## Chinese Protest Against Favoritism to Japanese.

## Roosevelt Holds Consultation on 'Frisco Situation.

San Francisco, Feb. 8.—With the reopening of the fight over the anti-Japanese bills in the Lower House of the California Legislature to-day it is expected that the struggle this week will be even more intense than it was last week when it was terminated by the dramatic appeal of Speaker Walter Stanton for delay.

The latest contribution in the controversy which has two nations by the ears is the preparation by the local Chinese of a statement complaining that President Roosevelt is discriminating against their countrymen in favor of the Japanese. The memorial drawn by representatives of the Six Companies, which is the Chinese benevolent association of California, makes a comparison of the governmental treatment of the Chinese and Japanese and the claim is raised that the latter are clearly favored by the authorities in Washington. Attorney O. P. Stidger, who drew up the Six Companies' telegram to President Roosevelt, says that it contains a strong protest against the President's exerting his power to prevent the segregation of Japanese children in the public schools, while he makes no complaint against the common practice of excluding Chinese from the white schools.

Kikuo Kiyoo, the correspondent of the Asahi, of Tokyo, announces that two parties of Japanese royalty planning to visit the United States, this year will cut California from their itinerary. Included in the parties will be the Prince and Princess Nashimoto and Prince and Princess Kunyoshi. The members of both parties are middle aged and this will be their first trip away from Japan.

WASHINGTON, Feb. 8.—President Roosevelt summoned Senator Flint and Rep. Kahn to the White House to-day and with Secretary of State Bacon and Asst. Secy. O'Loughlin, another conference was held on the Japanese situation in California. Another statement or radical action is expected to-morrow.

Only ticket holders will be accommodated with seats. They will enter by way of the basement door on Park street, before 10.30. After the mass His Grace will hold a reception in the vestry.

## DIED IN WEST.

## Mr. James Vallance Contracted Pneumonia on Journey.

Mr. James Vallance, contractor, Picton street, this city, died at the residence of his son, in Vernon, B. C., on Friday night last. He left here about two weeks ago, in company with his daughter, Miss Bessie Vallance, for an extended visit with his son and two daughters, who reside in British Columbia. He contracted a chill on the journey and was taken ill with pneumonia on the day of his arrival in Vernon. His body is expected to arrive here towards the end of the week.

Mr. Vallance was born in Toronto nearly seventy-five years ago, when it was then known as "Little York." He lived practically his life in Hamilton. He was an elder in St. Paul's Church, and for 54 years sang with the choir of that church. His wife predeceased him two years. He is survived by two sons and four daughters. He was a man of sterling integrity and unobtrusive character, and will be much missed by those in his own circle.

Mr. Vallance was a brother of Messrs. William and George Vallance, of Wood, Vallance & Co.

## FELL DEAD.

## Ambrose Lewis Received a Sudden Call This Morning.

Ambrose Lewis, a colored man, died very suddenly this morning at his home, 106 Cannon street west. He was stricken with heart failure while in the hall of his house, and fell to the floor unconscious. Medical aid was summoned, but the unfortunate man had passed away before anything could be done. While working on a north end branch about two months ago he fell from his ladder and injured his chest, and had to be taken to the City Hospital. He had never quite recovered from this accident, and it is thought that it was partly responsible for his death. He was 45 years of age and is survived by a wife only.

## MERRY WIDOW

## Got Beller of a Mix-Up on John Street.

On Saturday evening there was a hot mix-up between two ladies on John street south. One was wearing a Merry Widow hat with a brim that rooted in the sidewalk. The other was walking in the opposite direction with a hat that had only about a foot wide and it was garnished with two ostrich plumes about two feet long. They were black and very valuable. When the ladies met they allowed considerable leeway, but that availed the one with the little hat, for the big one reached her and disarranged her lid. She made a dive for the wearer of the Merry Widow, but this variety of hat is known as a protection when it is slanted down, being a good enough shield to ward off any onslaughts. The girl with the Merry Widow managed to pull her enemy's hat off and tear out the feathers, and they were scattered on the road, while the other girl satisfied herself with making several dints in the brim of the Merry Widow. The fight cooled down when she started to gather, and the contestants disappeared. The police closed the final act by finding the small hat and the two plumes, and the owner can get them at No. 3 Station.

## Killed in Fight

Alexandra, La., Feb. 8.—Henry and Bud Barrington, father and son, fought Robert and Charles Weatherford, brothers, last Saturday with pistols over a dog, and both Barringtons were killed, and both Weatherfords were mortally wounded. The tragedy grew out of the killing of Robert Weatherford's dog by Bud Barrington Friday.

## METALLIC ROOFING.

## The Long Fight With the Union Now Amicably Settled.

Toronto, Ont., Feb. 8.—The long fight between the Metallic Roofing Co. and the Toronto Union of Sheet Metal Workers is at an end, an amicable settlement having been arrived at by the parties. The details are not known, but one important article of the settlement is the removal of the product of the roofing company from the unfair list of the sheet metal workers. Following the strike of its sheet metal workers some time ago, the roofing company obtained an injunction restraining the Union from boycotting the product of its factories, and subsequently in a suit against the Union for damages got a verdict for \$7,000.

This aroused labor men all over the Dominion and in response to an appeal from the Trades and Labor Congress of Canada for funds to fight the decision, money was liberally donated. The case was carried first to the divisional court, and then to the Court of Appeal, both courts sustaining the judgment, but the Privy Council, on the case, being laid before it, ordered a new trial. The adoption of conciliatory methods, however, has made this unnecessary.

The Town Council has been called to meet to-morrow evening to deal with the question of liquor licenses.

## MASONIC VOTE.

## Plan to Allow of Absentees Voting in Election.

To the next annual meeting of the Masonic Grand Lodge will be submitted an amendment to the constitution whereby those entitled to vote for the election of Grand Lodge officers may do so without leaving their homes. Past Grand Master J. Ross Robertson, who will submit the amendment, opened a discussion on the subject at the meeting on Saturday night of the Toronto Masonic district. M. W. Bro. Robertson explained how the method that he advocated would secure for that body a representative vote from every lodge in the jurisdiction. Mr. Robert Tyson, Secretary of the American Proportionate Representation League, explained the Hare Spencer system of voting.

## FATAL FALL.

## Former Hamilton Man Lost His Life at St. Thomas.

John Cooper, who was killed yesterday afternoon near St. Thomas by falling out of the cab of his engine, was a former resident of this city. He came here several years ago from London and took up his residence on Magill street. He was employed as turner at the G. T. R. round house, and about eleven years ago removed to St. Thomas, where he was employed on the Wabash Railroad as engineer. It seems that fate had set aside this terrible form of death for the unfortunate man, for about two years ago he met with a similar accident at Bell River, near Windsor, and was disabled for nearly two months. The accident happened in exactly the same way. He was leaning out of the cab when he lost his balance and fell. The train was not going at a very great rate of speed, or he would have been killed.  
Mr. Cooper was well known among the railway men here and was highly esteemed.

(Continued from Page 1.)

right," he said, "no person can say anything against her."  
"You might as well tell me that the moon is made of green cheese," said Magistrate Jelfs, and the backbencher was fired out of court, and told he would be charged with drunkenness if he came back.

"These are two bad women, aren't they?" said Magistrate Jelfs, and Chief Smith answered with an emphatic affirmative.

"Six months in jail each," said his Worship. The pair of prisoners took this calmly, but their lady friends who had attended insisted on trading several large sized suit cases with them before they could be hustled over the bridge of sighs by the police.

Eddie Culican, who was released from jail in December after serving thirty days for assaulting his sister, was charged with being drunk. Constable Tick arrested him. Culican's offence was made a great deal more serious in Magistrate Jelfs' eyes when Sgt. Pinch said that he had been arrested last Sunday night. "He's on the Indian list," said Sgt. Pinch. "He threatened Inspector Birrell," added the sergeant. His Worship adjusted his glasses and took a look at Culican. "Is that all?" he inquired mildly.

"Guilty," said Culican, in an endeavor to prevent any more revelations. Inspector Birrell said he saw Culican drunk in the morning, and told him to go home, but the prisoner said he would not go home.

"You'll be sent down for about three months if you are arrested," said the inspector.

The long list of Culican's offences was covered by three small words on the roster—drunk and disorderly and his Worship fined the prisoner \$20 or one month. Culican took the month.

Wilford Lorne Henderson, 50 Stuart street east, walked up to Constable Birch on Saturday evening and proclaimed himself a deserter from the regulars at Halifax. He was locked up. This morning he was remanded a week and pleaded guilty to the charge of desertion. Henderson gave himself up because since he left the army over a year ago he has not had much work, and he found out it was easier doing the hay-fod, straw-foot business. It is hardly likely he will be sent for, as authorities are wise to this kind of soldiers.

William Cook, Locomotive street, made the mistake of getting drunk on Sunday. He was drunk yesterday afternoon at Sunday school time. This morning he pleaded guilty, and was fined \$5 or ten days.

Samuel Cardwell, 88 Ferguson avenue north, was summoned for allowing one of his children to stay away from school. He was to have appeared to-day to show cause for the child's absence, but did not, and the case was laid over indefinitely.

William Barrett, West avenue north; Robert Cowan, Barton street east, and Joseph Fitzgerald, Bethel mission, were fined \$2 each for being drunk on Saturday.

Binns says he has been greatly annoyed by the repeated offers made to him to appear in music halls, and that no matter how high the price he will decline them all. He has been summoned to the London office of the Marconi Co., where the directors will present him with a gold watch and chain. To-morrow Binns goes to Peterborough, his native city, where an official welcome from the mayor and city council awaits him.

## NEW KIND OF ROAD MATERIAL.

Salt and Alkali Scale From Boilers Used in Parts of Kansas.

The farmers in central Kansas, as well as the people in the towns, have been interested in good roads for several years, and in this part of the State one can see almost any kind of a made road. At one or two places in this country there are short roads where treatment has been given that is similar to the pavement on Douglas avenue in Ellisworth. Here there are two blocks that fool four-fifths of the visitors to the town. The treatment of this street was commenced about two or three years ago, consisting of coarse and fine cinders in layers, then a covering surface of salt and alkali scale.

The water in this country is very hard and in all the steam boilers at the salt mills and other factories a sort of alkali forms which must be removed frequently; and this, with the salt and alkali scale that forms in the salt pans, is used on Douglas avenue. It forms a hard crust and makes a most excellent street. It is a success on the most busy thoroughfare of this town and if the supply was not so limited the farmers would use it for the rural roads and more of the streets of this city would be paved with it. The salt and alkali crust on Douglas avenue is now about three inches thick, and this lies on three inches of coarse cinders and three inches of fine cinders. It makes a pretty street, in appearance being like an asphalt pavement before it becomes dirty.—Ellsworth correspondence Kansas City Star.
