

TO CONFER NEXT WEEK.

Company Will Discuss Barton Street Work With City.

Flooding on Mountain Top is Causing Trouble.

Septic Tanks Solve Sewerage Problem on the Beach.

The Street Railway Company will have a conference next week with the City Engineer and Board of Works department to discuss the question of whether the re-construction work on Barton street is to be proceeded with at once.

The city is having a lot of trouble with the work on the mountain top. Every time the sewer excavations are loosened the water breaks up and sends the contents of some of the houses, while no serious damage has been done, there have been many complaints.

Engineer Barrow thinks he has solved the problem of a sewer system for the beach. His plan is to install septic tanks for each residence. A regular sewerage system along the sandstrip is impracticable, because it would be impossible to get the proper grade.

The city is repairing the James and Hunter street intersection with bricks. It was suggested that the concrete blocks be used, but City Engineer Macaulay thought there was danger of the constant vibration from the heavy engine jarring the blocks out of place.

The Markets Committee has not the funds to do the work this year, but it will likely make provision next year to have hardwood floors, similar to the one in Magistrate's office, laid in all the offices in the building.

The City Hall employees are much incensed over the reflection cast upon them by the report that there was too much "boozing" among city employees. The report has evidently spread all over Canada, judging by the telegrams some of the officials have received from distant points "kidding" them about it.

Building permits were issued today to W. H. Fogarty for a brick house on Duke street, west of Queen street, to Frank Dunsmore, to cost \$2,200, and to Orr & Orr for a frame house on Barton street, between Victoria avenue and Emerald street, for Dr. T. Wickett, to cost \$1,200.

The health report for the week shows six cases of chickenpox, five of scarlet fever, three each of whooping cough and measles, and two each of German measles and diphtheria.

At the are lamps in the city were out for a short time last night, shortly after 8 o'clock.

Beginning with the junior third classes on Monday afternoon, the pupils of the Public and Separate schools next week will view the Ontario Free Tuberculosis Exhibit, in the Knox-Morgan building, on King street.

ST. LAWRENCE.

Consecration of the Women Will Take Place To-night.

There was a large attendance of ladies at the mission in St. Lawrence Church last evening, to hear Rev. Father Doyle speak on "The Precious of the Church."

This evening, in connection with the mission, there will be a unique ceremony, the consecration of the ladies, both married and single, to the blessed mother of God. A shrine has been erected specially for this event, and will be profusely decorated with flowers and illuminated.

To-morrow morning there will be a service for the whole congregation. In the afternoon the closing service of the women's mission will be held, and in the evening the men's mission will begin.

THE CADETS.

It has been practically decided that the Collegiate Institute Cadet Corps will have a summer camp in July. It will open about the 10th, and will likely be at Winona or Van Wagner's Beach.

The corps has entered a team in the Canadian Military Rifle League, to be held during the early summer.

Among the promoters of the ever popular Buffalo holiday trips the Masons hold Victoria Day. Doric Lodge No. 1000, will have a Buffalo excursion every year for many years, and people look for it. It is always well conducted and therefore popular. The T. H. & B. Railway promises the usual fine service this year. The increase was even more marked after the war with Russia."
