Durb market mas shown some improvement is for the total in transactions has been small, but it weith the total in transactions has been small, but it weith the total in transactions has been small, but it weith the total in the form thas server and that bolders been smalled weither some states and set of the states s

owever, was again easier. Supplies last week inued in excess of the consumption. Imorts amounted to 230,000 to 235,000 qrs. of wheat, nd 110,000 to 112,500 bbls. of flour, and home deveries to 144,360 qrs., making a total supply qual to 197,601 to 505,932 qrs. of wheat, against

an average weekly consumption of 151,000 quar-ters. The quantity of wheat and flour in transit the 10th inst. was 2,450,000 qrs, against 2,652,000 drs, on the 3rd inst. and 1,950,000 juarters on the corresponding date in 1880. Mail advices are not of much interest. nental advices state that in France a than ad set in and inland communication was parti-

ally restored. The wheat trade was dull in the arly part of the week ; but after the thaw showed an improvement and some adwheat. Foreign wheat did not neet much demand, although it was said that millers' wants were becoming very ng. Red winter free on rail was quoted at mai to 49s. 3d. per 480 lbs., and Australian at 50s. 6d. to 51s. 3d. per 430 lbs. The total imports of wheat into France in 1880, according to the mmerec Special, were 9,988,246 grs., against 077,712 grs. in 1879. The exports in 1880 were 10.121 grs., against 25.588 grs. in 1879. Of flour qrs. were imported in 1880, and only

56,130 qrs. exported; this is probably the first time on record that the imports of flour have ex-peeded the exports. In Belgium severe weather had entirely closed navigation, but on the 26th ult. ter registered one degree above ng point. The trade ruled quiet, transac big confined to immediate wants. At p wheat had become dull, but rye rened firm's red winter was quoted at equal to at 47s. 6d. to 48s. 3d. per 480 lbs., and white nbay at 18s. 3d. per 480 lbs. In Germany the inued severe up to the close of the week. The "term" markets were rather im-moving this week for both wheat and rye, al-chough the tendency at the close was weaker at Berlin, part of the improvement being lost. At Berlin the wheat trade remained inactive, both on the spot and for forward delivery, and prices lesed rather lower. Bye was also quiet, al-hough in rather better demand than wheat; rices recoded 14 marks for early periods, and 3 marks for late ones. At Ham-nurg wheat on the spot was very quiet,

nd only purchased to cover immediate wants. teamers had great difficulty in forcing their through the ice. The weather became milder an the 20th ult., when it was expected that avvigution for steamers was not interrupted. Wheat not a slow sale at unaltered prices, Am-rican winter being quoted at 46s. 3d. per quarter, felivered. At Danzig and Konigsberg little or hothing was being done. At Vienna there was only a small demand for consumption, and prices were rather lower. At Pesth the receipts of wheat in 1850 ware 1.780,000 qrs., against 2.435,000 qrs. in 1850 and the exports 160,000 quarters, against, 180, 000 quarters. Trade was unsettled, prices having successively advanced and receded during the week. Last advices from Odessa are dated Jan-ary 17th, according to which the grain trade re-mained in a yery quiet state. The commary y on the 23th ult., when it was expected that
