Here You Find the Proof

Of What People Have Been Telling You About Dr. Chase's Nerve Food.

There can be no question that everybody is in need of some restorative treatment at this season of the year. Particularly if your blood has a tendency to be thin and watery, the changing season is most trying on you and you suffer from tired feelings, lack of energy, faltering of the digestive system and general depression of the feelings.

If you could only realize what a complete change you would experience with the use of a few boxes of Dr. Chase's Nerve Food you would not be long in making a trial of this treatment.

The best proof we can offer you is in such letters as the following. There is no reason in this world why you should not obtain just as much benefit from the use of Dr. Chase's Nerve Food as has the writer of this letter if your system is in a similar condition.

Mrs. M. A. Coffin, 81 Stanley street, Kingston, Ont., writes: "For a number of years I suffered from a run-down condition of the system, due to nervousness. I could not sleep and was restless and worried. I had pains through my back, buzzing in the ears and twitching of the nerves and muscles. I had indigestion and my appetite became poor. I would get drowsy after eating and frequently suffered from great weakness. My circulation was poor, my hands and feet always cold and my heart action weak. I consulted doctors, but they could do nothing for me. Whilst in this condition I decided upon a trial of Dr. Chase's Nerve Food. After taking eight boxes of this medicine I am relieved of all the symptoms from which I suffered before, and in general I feel like a new woman. I used to be very constipated, so I took Dr. Chase's Kidney-Liver Pills in connection with the Nerve Food and am completely cured of that trouble too."

It remains for you to test Dr. Chase's Nerve Food in your own case. You will then understand the endorsement of others for this great restorative treatment. 50 cents a box, 6 for \$2.75, all dealers, or Edmond's, Bates & Co., Limited, Toronto.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the Frezzone is the sensational discovery of a chemist. It is a...

Prohibition Carries In U.S.

Washington, July 22—By a vote of nearly three to one, the House, weary of talk on prohibition, today passed a bill for its enforcement, with provisions and penalties so drastic as to bring from the men who framed it the prediction that it would forever suppress the liquor traffic on American soil.

Exactly one hundred members—52 Democrats and 48 Republicans—refused to support it. Against this even hundred the prohibitionists, putting up a solid front to the very last, polled 287 votes. The measure now goes to the Senate where many of its restrictions may be modified or stricken out. The cloakroom rumor persisted that all of this legislative work might end on the shoal of a presidential veto, although the general view was that it would be signed as passed.

The bill as it passed the House provides: After January 26, 1920 every person permitted under the law to have liquor in his possession shall report the quantity and kind to the commissioner of internal revenue.

(This applies to chemists, physicians, etc.)

After February 1, 1920: The possession of any liquor, other than as used by the law, shall be prima facie evidence that it is being kept for sale or otherwise in violation of the law.

It will not be required, however, to report, and it will not be illegal to have in one's possession, liquor in a private dwelling if the liquor is used for personal consumption by the owner, his family or his guests.

The possessor of such liquors, however, bears the burden of proof that the liquor was required and is possessed lawfully.

Intoxicating liquor is defined as a beverage containing more than one half per cent of alcohol.

Any house, hut, vehicle or other place where liquor is manufactured, or sold is declared a nuisance.

No persons shall manufacture, sell, barter, give away, transport, import, export, deliver, furnish or receive any intoxicating liquors.

Liquor for non-beverage purposes, and wine for sacramental use may be sold under specified regulations. Denatured alcohol, medicinal preparations (including patent medicines), unfit for beverage purposes, toilet articles, flavoring extracts and vinegars are exempt.

Registered physicians are authorized to issue prescriptions under strict regulations for the use of liquor in cases where it may be considered necessary as a medicine.

Liquor advertisements of all kinds are prohibited.

Sale, manufacture or distribution of compounds intended for use in the unlawful manufacture of liquor is prohibited, together with sale or publication of receipts for home manufacture.

Sir Edward Holden Dead

London, July 23—In the death of Sir Edward Holden, British finance loses its most powerful leader. He did more than any one to lift Great Britain over the financial crisis which threatened her at the outbreak of the war. The adoption of a general moratorium and the issue of treasury notes were credited chiefly to his sagacity. He was included among the number who have been detained at the Camp, but those leaving this morning position.

Sir Edward was head of the largest bank in Great Britain, with several million pounds in gold in the vaults, which was placed at the government's disposal. He was a firm advocate of the amalgamation whereby British banks were recently consolidated in the Bank of England.
