Grand Advance of Wolsely and His Men.

The Rebel Position Captured and Arabi's Forces Fleeing.

Forty Guns and a Large Number of Prisoners Taken.

London, Sept. 9.—A correspondent at Kassasin says that after 6 o'clock this morning the Bengal Lancers and scouts came in with the news the emeny were approaching in great force on the north side of the railway. The British army was at once put in motion by 7 o'clock, when the artillery doel began. Arabi's toops of all arms are spread over the entire ridge, and a mile-and-a-half up, the line train heavily armed. They appeared at 9:20 a.m. A forty pounder, and Krupp guns are shelling the enemy's right. There is also a twenty-five pounder, a few hundred yards off playing on the same position. The British have er, a few hundred yards off playing on the same position. The British have the enemy's range exactly, and one of our shells has burst right over the enemy's ranks. The Egyptian artillery have got distance very well and their shells are dropping steadily into our camp. We ranks. The Egyptian artillery have got distance very well and their shells are dropping steadily into our camp. We have horse artillery extended along our line for half a mile on the north side of the railway. They are firing rapidly and at present the Egyptians are slowly retiring. Up to this moment no caualties have occurred. The re-inforcements are just coming up from Mahasameh. A Krupp gun recently cap:ured from Arabi sent a ball nearly in front of his train. Our infantry are slowly advancing, and the enemy are slowly retreating.

In the engagement on Saturday, besides the Egyptians who advanced from Tel-cl-Kebir 1,500 men crossed the desert from Salidiyeh and operated on the British right flank. These troops continued the engagement after the Tel-el-Kebir force had retired. They had a Krupp oattery, which they handled well. The British cavalry pushed them hard, and finally captured one Krupp gun with its equipment, and a green standard, taken from the hands of a dard stand, ard-bearer belonging to Arabi's crack regiments. The Salihiyeh contingent were routed, but the others escaped to Tel-el-Kebir began at 4.45 this morning. The main attack was directed against the enemy's extreme left flank, four miles north of railway. Heavy artillery and infantry fire is now proceeding. The British toops are advancing rapidly, and are evidently turning the enemy's in order to carry it out, although the flank.

FOUGHT BETTER THAN HERETOFORE. It was not through the fault of the rebel and camp looked eexceedingly critical, and camp looked eexceedingly critical, as the infantry were in danger of being outflanked. The commanding positions were all in the enemy's hands, while line after line of their cavalry and infantry were seen crossing the sand hills. Gen. Lowe came to the relief of the British infantry with a cavalry force, and threatening the enemy's left forced them to desist from continuing their flanking movement. The rebel cavalry fell back, and for half an hour each endeavored to get round the other. Gen. deavored to get round the other. Gen. Lowe's flank movement checked that of Arabi, the active forward movement of the English infantry, with the superior accuracy of the English artillery, forcing the enemy's infantry to give way, when the fight was virtually ended. Hawkins' Rascality.

There is a large colored population in Kent, and Mr. Hawkins or his agents saw fit to entrust funds in the hands of one of his supporters for the purpose of bribing the colored people on the whole-sale. The man to whom the money was entrusted has lately become conscience-stricken and has laid bare some of the stricken and has laid bare some of the iniquitous practices of the Bothwell Tories. The supporters of Hon. Davld Mills will undoubtedly unseat the hypocritical Hawkins and relegate him to the obscurity for which nature intended
