Chicago, Jan. 8.—The lumbermen of the Northwest say they are going to put the N. P. and the G. N. into the hands of a receiver and threaten to swamp the roads with more than a thousand empty logs aggregating a claim of more than fifteen millions. The Pacific Coast Lumbermen's Association is behind the move and they propose to exhibit some thousands of photos before President Roosevelt showing the traffic blockade as it actually exists in the Coast Range. Washington they claim that there are 800 million feet of lumber waiting to be shipped and that 115 saw mills and shingle mills are closed on account of the shortage of logs. Many of the Coast Lumbermen are going into bankruptcy because of the inability to secure cars.

FREE TRADE IN NAVIGATION.

Ottawa, Jan. 6.—The Dominion government has received a report from the international waterways commission unanimously recommending that in return for ten thousand cubic feet of water per second taken from Lake Michigan for the Chicago drainage canal scheme, Canada and the United States join in the treaty for free navigation between both countries the same as was enjoyed under the treaty of 1871. Another resolution was passed by the commission in favor of the appointment of a commission for the delimitation of the international boundary on Lake Erie as a preventive against poisoning.

TELEGRAPH GIRD HAD COOL HEAD.

Hutchinson, Kansas, Jan. 6.—Norma Breckenridge, night telegraph operator at Arlington, near here, prevented a wreck of two Rock Island freight trains Thursday night. Through a confusion of orders she sent a freight train cleared from Arlington just as an eastbound freight left Turon, two stations west. A moment later Miss Breckenridge was ordered to hold the westbound train. Langdon station, which was between the two trains, is not a night telegraph office. After Miss Breckenridge had tried in vain to get Langdon station she resorted to the telephone, and located John Spencer, a farmer living near the railroad track. She told Spencer the situation, begged him to get a lantern, wrap it with a red cloth and hurry to the track. He did so and arrived in time to flag the westbound train with the second train only half a mile away.

RIVAL PRESS AGENTS.

Tangier, Morocco, Jan. 6.—News from Zinat is very conflicting. That from native sources is to the effect that the town has been shelled by artillery and is half in ruins and that Raimil has fled to the mountains. Another report says that the leader of the Sultan's army was killed and that many others were killed and wounded.

ENGLISHMAN TOOK GOPHER.

Souris, Jan. 6.—W. Elwin, a young Englishman who arrived in this country last May, and who has been employed by J. Hall, of the River View district, committed suicide yesterday by taking gopher poison. After taking the poison Elwin telephoned Dr. Sherrin, of Souris, stating that he had rheumatism. The doctor was busy at the time and telephoned Isaacs to go and see the young man, with the idea of persuading him to come to the hospital. Isaacs did so and found Elwin in what he thought to be a fit. When the real trouble was discovered the doctor was again sent for but arrived too late to be of any assistance. There is no explanation of the rash act.

TRANSCONTINENTAL WRECK.

Winnipeg, Jan. 7.—The transcontinental express which left here Saturday evening for the east, was wrecked Sunday afternoon at 3.30, one-half mile west of Kaminitiquia, a station on the C. P. R., 26 miles west of Fort William. Two men were killed and six injured. The wreck was due to a broken rail which threw the mail car and five of the coaches following off the track. Several of them rolled into the ditch. The dining car and sleepers kept the rails. The dead are H. Smith, Montreal, writer; K. Chubb, Sheffield, injured; Lewis Konar, employee, Montreal, cut about head; A. Ferguson, Winnipeg, mail clerk; head and shoulders cut; G. B. Keyes, Owen Sound, shoulder hurt; W. Marsland, Northampton, England, left arm and hand cut; H. Thompson, Sheffield, England, head cut; R. Barber, London, England, shoulder and head bruised. The injured were removed to the Fort William hospital.

THE DEADLY TROLLEY.

Winnipeg, Jan. 6.—A street car accident which will probably prove fatal, happened here at 8.30 this evening, just as the city was home from worship. The victim of the mishap was a Mrs. Pretty. She had evidently attended service at St. Matthew's and had started for home when she was struck by a Sherbrooke avenue car. The unfortunate woman was hurled to the hospital, where it was found that one of her legs was so badly crushed that it would have to be amputated. It is feared that the shock will cause death.

CZAR LEARNS TRUTH.

St. Petersburg, Jan. 6.—The reorganization of the sea forces of Russia by the powerful clique which is fighting to prevent the premier from probing into the naval scandals of the dual regime, to which is attributed the defeat of the Black sea fleet in the bay of the Sea of Japan, has lately received an impulse through the personal conference of the emperor. At a recent conference of the emperor himself his majesty was for the first time told of the full extent of the corruption responsible for the defeat at the hands of the Japanese. As a result of the conference the emperor is determined to put through a complete naval programme.

WILL HILL WITHDRAW FROM CANADIAN RACE.

Calgary, Jan. 8.—The Alberta has received information from a source that it is inclined to believe to be about as reliable as can be had that Jas. J. Hill has abandoned his Canadian transcontinental scheme. It was not abandoned it has been hung up for some time to come and will not be carried through by Jim Hill. The Great Northern is not having the smoothest kind of a time in the United States. Application for an increase of their bonding privileges to the extent of \$50,000,000 which more than doubles the bonding of the road, is being vigorously opposed by the attorney general of Minnesota. Jim Hill is getting to be an old man and has announced his retirement from active business for next July. Had Hill been a younger man he doubtless would have put through the transcontinental line some time ago. It is known that the Great Northern has an option on the Regina and Prince Albert line before it was purchased by the C. N. R. The option was for some hundreds of thousands of dollars less than paid by the C. N. R. The C. P. R. is building between Weyburn and Lethbridge and will have almost a second or third transcontinental by the C. P. R. Of course this change in policy refers merely to the transcontinental system. It is more than probable that the Great Northern may send up branches into Canada and it is more than probable that one of these feelers will strike Calgary at the earliest possible moment but it seems certain, according to our informant that the general transcontinental system will be abandoned or at least postponed for a considerable time.

CATTLEMAN'S LOSSES EXAGGERATED.

Winnipeg, Jan. 8.—The reports circulated from here concerning heavy losses on the snow storms and cold weather for the district, committed suicide yesterday by taking gopher poison. After taking the poison Elwin telephoned Dr. Sherrin, of Souris, stating that he had rheumatism. The doctor was busy at the time and telephoned Isaacs to go and see the young man, with the idea of persuading him to come to the hospital. Isaacs did so and found Elwin in what he thought to be a fit. When the real trouble was discovered the doctor was again sent for but arrived too late to be of any assistance. There is no explanation of the rash act.
