The Evening Chit-Chat
By RUTH CAMERON

"A BABY'S grandmother is often its worst enemy."
So a splendid nurse who makes her specialty of bringing back to health of sickly babies, told me the other day.
It was a pretty harsh indictment of that class of personage whose very name evokes a thought of tenderness and wisdom and a sort of mellowed and intensified motherliness, so naturally I demanded an explanation.
She gave it.
"They are the worst enemies of our modern methods. Not all of them, of course, but some. Because their babies lived and grew up in spite of what mistakes they made they try to have their daughters make the same mistakes.
"There is no doubt about it that modern methods have reduced infant mortality immensely, and though of course it's true that plenty of babies grew up into healthy children with the old careless methods, a baby brought up in the modern way has twice the chance to grow up that they did.
"But the grandmothers don't see it that way. They say all their babies grew up, or if one or two died, they would have died anyway, no matter what precautions were taken, and they tell their daughters that all this sterilizing and boiling and the rest of the things that we are trying to teach them is all nonsense.
"Most of them talk behind our backs but once in awhile one of them speaks right out to me so I know about what they say.
"Here's a few samples: :
"This feeding a baby every three hours to the minute is all tommyrot. Why, when Jennie was a baby I fed her whenever she cried, and she doesn't look very peaked now, does she?
"This boiling the nipples and bottles is perfect nonsense. I never boiled a thing and I brought up five children and only lost one by cholera infantum and you needn't tell me any chit-gets cholera infantum from not having its nipples boiled.
"Waking a child up to feed him is the silliest thing I ever heard of. He has been under nourished and needs the nourishment? Nonsense. I had eight children and I always let them sleep as long as they would.
"That's the sort of thing they are continually saying, and as some of them have more influence than we do, the result is, that many of our most important instructions are neutralized.
"Why, I even know of one baby that I am sure would be alive to-day if he had the proper care, but they lost him because the mother let the grandmother pooh-hoo her out of doing what the doctor and nurse had told her.
"No, grandmothers may be well enough for older children, but a good many of them are the babies' worst enemies."
In the Philadelphia schools a lecture on the care of babies was given to the little mothers of the tenements this spring. The next day they were asked to write an essay on the lecture and one child of eleven brought in this startling indictment of grandmother:
"I never understood why my little brother Mikey turned over one day after he was several months with us, and gave a little grunt and died. Now I believe it was because my grandmother used to feed him the same things as she ate. Sometimes she would squeeze orange juice in his mouth and other times she'd give him a bit of cabbage to strengthen him. I think some germs got into these and made Mikey twist up in knots and die."
Of course that sort of grandmother doesn't exist among my readers, but I have no doubt that the other kind does, and I think, all things considered, that her sin of pooh-hooing the nurse's instructions is quite as bad as the tenement grandmother's orange and cabbage habit.

A Simple Treatment that Will Make Hair Grow Now Sold in Nfld.

Every up-to-date woman should have radiant hair.
There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.
In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA. The Great American Sage Hair Tonic.
Every reader of the Telegram can have an attractive head of hair in a few weeks by using SALVIA.
T. McMurdo & Co. sells a large bottle for 50 cents, and guarantees it to banish Dandruff, stop falling hair and itching scalp in ten days, or money back.
SALVIA is a beautiful, pleasant, non-sticky Hair Tonic, and makes the hair grow beautiful.

not only whitens them, but is helpful in removing slight stains.

After whitewashing a ceiling there are often stains of whitewash on the furniture and windows. These can be easily removed by rubbing with a soft cloth on which a few drops of paraffin have been put.

To mend enamelware so it will hold take equal parts soft putty, finely sifted coal ashes, and sifted table salt, mix and pack well into hole. Place pan on stove with a little water in until cement hardens.

After cleaning the brass on the front door rub it with an old soft luster smeared with vaseline, and then polish with a dry cloth. This will keep the brass from tarnishing even in quite damp and foggy weather.

Beeswax and salt will make your rusty flat-irons as clean and smooth as glass. Tie a lump of wax in a rag; when the irons are hot rub them first with the wax-rag, then scour with a paper or a cloth sprinkled with salt.

The flavor of coffee is greatly improved by placing the dry coffee in an even until it is quite hot before pouring on the boiling water. To settle it without the use of egg, add a dash of cold water just before removing the pot from the fire.

Cracks in walls may be filled up with plaster of Paris. Mix this with kieselguhr instead of water. It will then be like putty and can be used with ease. If mixed with water it dries so soon that it is very difficult to use it quickly enough.

In making cake the first requisite is to cream the butter well. If it is inclined to be hard and the process will be slow, pour hot water into the mixing bowl and spoon until they are thoroughly heated, wipe dry and put the butter in at once.

To fasten the name labels on cans, jars and bottles containing food and their supplies use a small strip of adhesive plaster. This will stick to any surface, and the annoyance caused by labels falling off and being lost will be at an end.

When the linoleum or oilcloth has been washed and thoroughly dried take a little starch in a pint basin with boiling water, and rub lightly over with a clean cloth. It will dry brightly without any further rubbing and without being slippery.

New Race of Dwarfs.

Simplicity of Little Men of Bougainville.
The Solomon Islands, a large and richly numerous group, which lie several hundred miles to the northeast of Australia, are still among the less known parts of the earth. Discovered in the middle of the 16th century, and rediscovered two hundred years later, when their precise location had become a mystery, an unhealthy climate and decidedly inhospitable natives for years warned off the curious, and even to this day some of the islands are almost entirely unexplored. An Englishman bearing the old name of Graham Officer, who has lately been to the Solomons, states that in the high interior of one of the islands called Bougainville, lives a race of dwarfs. All the Solomon Islanders are short in stature, but these little fellows measure only three and a half to four feet in height. The only thing they wear besides a shell ornament, is their beards, and each man carries bow and arrow and a stone club. Their simplicity is equalled by their honesty, which in any age would have been thought extraordinary. The dwarfs have no salt in their mountain homes, and so they come to the beach to get it. They carry long bamboo pipes, which they fill with salt water. But looking upon the sea water as the property of the coast-dwellers, they bring with them a certain black pigment in payment thereof.

We Give Away Absolutely Free of Cost
The People's Common Sense Medical Adviser, in Plain English, or Medicine Simplified, by R. V. Pierce, M. D., Chief Consulting Physician to the Invalids' Hotel and Surgical Institute at Buffalo, a book of 1008 large pages and over 700 illustrations, in strong paper covers, to any one sending 31 one-cent stamps to cover cost of mailing only, or, in French Cloth binding for 50 stamps. A new, up-to-date revised edition is now ready for mailing. Better send NOW, before all are gone. Address: World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

DR. PIERCE'S FAVORITE PRESCRIPTION
THE ONE REMEDY for woman's peculiar ailments good enough that its makers are not afraid to print on its outside wrapper its every ingredient. No Secret—No Deception.
THE ONE REMEDY for women which contains no alcohol and no habit-forming drugs. Made from native medicinal forest roots of well established curative value.

HOUSEHOLD NOTES.

When making mince pies and similar pastries brush over the top with cold water, and sprinkle with finely powdered sugar. Their appearance will be improved.

Upon removing a cake from the oven, set the pan on a thick cloth wrung from hot water, and in a few minutes the cake may be slipped from the tin without further trouble.

When cooking cabbage or other green vegetables, if the water boils constantly, the cooking will not be attended by unpleasant odors, according to the experience of one cook.

Scratches on furniture will disappear if rubbed well with a solution of equal parts of linseed oil and turpentine. Rub this well into the scratches and then polish with a soft cloth.

When you need a cold cloth and haven't ice try wringing a cloth out of cold water and shaking it briskly in the air. The rapid evaporation will give you an almost ice-cold compress.

A careful laundress always uses lemon on wash day. She puts half a lemon, sliced, in the boiler full of white clothes. She maintains that it

Power

Sank Under Them!

People who came up from Twillingate by to-day's express say that Howlett's schr. Daisy Belle, which arrived there Tuesday, reports that a schooner sank in a few moments under her crew of Griffin's Harbor, Labrador, on Wednesday last. They had just left the place coming south with six hands on board and all were on deck. Suddenly the vessel was noticed to be settling in the water and the captain happened to glance down in the cabin. He was horrified at what he saw, for it was filled with water, and in less than five minutes and just as all the crew had got into their boat and left the vessel she went to bottom with 200 qts. of fish, their summer's voyage, on board. The fish was not insured and the men, who lost all their effects, rowed back to the harbor they had left. Our informants could not remember the name of the craft.

The Branch Railway.

Mr. W. D. Reid returned here in the yacht Life at 11 a.m. to-day from Trinity. Interviewed by the Telegram Mr. Reid said that he was down over the line and that Mr. Cobb had started grading at Trinity with his headquarters at N. W. Arm. The graders have commenced work up to the 54th mile, and the end of the track should be at Trinity Harbor inside of two weeks from now. The work is progressing as favorably as material will permit. More rock cutting has to be done and is to be accomplished on this branch than on the whole of the cross-country road. The cuts going through the rock land run from 22 to 28 feet in depth, both in the Arms and around Trinity Harbor. About 2,000 men are at work on the line and there are 30 miles more to be done to complete the road. Mr. Reid made daily trips over the road and visited Seal Cove Monday. Ballasting has reached the 41st mile and trimming has been done to the 38th mile. Mr. Reid was at Robt Hood also and was struck with the prosperity of the people in that section of the District. All own traps and combine farming to a large extent with fishing. There, he says, he saw the best agricultural land in the Colony, with splendid farms raising excellent crops. Fine roads are to be seen on all sides and the scenery is magnificent. It is safe to say that when this road is completed it will attract thousands of tourist to Trinity and vicinity.

Good Fish Fare.

Geo. Clarke's schooner arrived from the Farm Yards, Labrador, to Brigus yesterday with 600 qts. fish. This is the largest catch made there for the season. All the other schooners are poorly fished, among them being the Viola, Capt. Richard Glavinie, of Harbor Grace, which has only 250 quintals.

Glencoe's Passengers.

The Glencoe left Placentia this forenoon taking W. R. Rotham, J. Mahbs, Dr. T. J. Parker, Mr. Moulton, Mrs. Bishop and child, Master Bishop, Mrs. Judge and 2 children, Mrs. L. Barker, Mrs. and Miss Avery, W. Evans, S. Dawe, Mrs. Stowe, J. W. Johnson and F. F. Ashburne.

Coastal Boats.

REID, NEEL, CO.
The Bruce left Marytown at 6.30 p.m. yesterday and is due at Placentia to-day.
The Bruce left Port aux Basques at 1 a.m. to-day.
The Clyde arrived at Lewisporte at 5.10 p.m. yesterday from the south.
The Dundee arrived at Port Blanford at 5.10 p.m. yesterday.
The Ethie arrived at Clarendville at 6.10 p.m. yesterday.
The Home left Bay of Islands at 5.30 p.m. yesterday.
The Invermore left Bonavista at 5.30 p.m. yesterday bound north.
BOWING SHIPS.
The Prospero left Wesleyville at 10.30 a.m. to-day.
The Portia left Curling at 7.45 a.m. to-day.
The west bound express arrived at Port aux Basques, at 11.45 last night. The Bruce express arrived at 12.15 to-day.

TRANSFERRED TO MR. GRACE.

The Hawke's Bay Whaling and Mfg. Co. have transferred their factory hands from Hawke's Bay to Harbor Grace, and their whaler, the Port Saunders, is now at work around Conception and Trinity Bays killing fish. It is hoped that she will secure a good voyage.

Naval College Opens This Year.

Ottawa, August 19.—It is announced that the examination for cadets desiring to enter the Naval College at Halifax would be conducted under the Civil Service conditions at the regular time in October.
The Naval College will open near the end of the year, with thirty cadets, and fifteen more will be added yearly.
The examinations, which will be held all over Canada, will be on a competitive basis and the thirty candidates with the highest record will be entitled to enter.
The tuition for a two years course will be \$200, and the expenses \$500. After this service the cadets become midshipmen and draw pay, and after three and a half years are qualified for sub-lieutenants.
Candidates as cadets must be the sons of British subjects and of two years residence in Canada. In character the examination is about equal to that required for entrance to the third division of the civil service.
