

# Morris's Extravagance And Uselessness.

Editor Evening Telegram.

Dear Sir,—Last evening's Herald contains a curious jumble of mixed metaphors under the caption "A Wave of Progress Has Struck This Colony." It is quite evident even to the most casual reader, that that article was never originally intended to apply to this country, but has been so manipulated as to make it appear in a slight degree applicable to local conditions.

The editor of the Herald is at his wit's end to prove that Morris's reign of extravagance has been helpful to the country, and so is glad to pounce upon even shoddy ready-made, which offers a pretext for trumpet blowing.

By reckless and unparalleled spending of public money, Morris has created in the minds of a few unthinking people the impression of prosperity. Such prosperity is merely fictitious, as we will find out later when we are called upon to pay the piper. We are living upon borrowed money and as we cannot go on borrowing forever, it stands to reason that some day we must stop sorrow.

To borrow money and to spend money for the purpose of railroad building or in the encouragement of agriculture, is laudable, but the manner of spending it must be well considered. It must be spent so as to insure some substantial returns to the country. Morris and his gang of spendthrifts have squandered public money in a manner shameful to contemplate. Then the Herald man calls upon us to "let Morris finish his work." Yes, and incidentally finish us as well.

We will finish Morris's work for him, Mr. McGrath. What return can the country expect from that so-called agricultural policy of Morris's, which has cost the country over \$100,000? Might as well expect a return of last year's winds. The article referred to above starts off with a flourish of trumpets and ends with a wail. A dirge which says as plainly as words might say, Morris's agricultural policy has been a complete failure. To quote the melancholy paragraph, it says, "Looking at farming conditions as they exist in the Colony to-day one thing is certain, and that is it will take considerable more than an act of Parliament and a few newspaper articles to establish agriculture as a leading industry in this island." I daresay Morris will endorse that statement in every detail, for his utter and miserable failure to promote agricultural development must bring that painful realization home to him, in full force. His farming policy has been a dismal failure, and for the \$100,000 spent in support of that more than futile scheme it is doubtful if he can prove that even one turnip more has been raised in the country. There is not even a single example of his two-blade grass to be seen, and the Southside Hills are still unwhitened by sheep.

Turning to the pages of last evening's Telegram, one is met with another evidence of Morris's insufficiency, his incapacity I might say, this evidence is found in a letter from "Minor," who complains of the manner in which mines are conducted, without due regard to the safety of the miner.

What is Morris doing with that royalty received from Bell Island? Why is there not a State Mine Inspector? We heard a lot from Morris about the encouragement and fostering of the mining industry. What has he done to encourage it? He offers a certain sum to the lucky discoverer of any mineral deposit, subject to certain conditions. Just another instance of Morris's cheap way of promoting good. Offer money. That is all. It does not call for any great amount of brains to evolve such a scheme of encouragement. Any school boy might do as well. What has been done by the Geological Department of late, since no coal boring has been done? Where has our Geological Surveyor been engaged? Oh, yes, nearly forgot, he had been busy for a time at the Festival of Empire. Now I see he is anxious to get back to the coal fields. Mr. Joseph Downey says our coal fields cannot be worked at a profit, even though there is plenty of coal, as Mr. Howley states.

Mr. Howley might know of workable seams of coal in the country, but I must say that his reports of boring operations are anything but encouraging.

Yours truly,  
ARTHUR ENGLISH.  
St. John's, Feb. 13th, 1913.

## Mr. McDo ald Replies.

Editor Evening Telegram.

Dear Sir,—Please allow me a word in reply to "Fairplay" whose letter appeared in the Herald of the 11th inst. "Fairplay" charges that my letter was "an attack on His Honor Mayor or Ellis." I wish to make it clear that I have always regarded Mr. Ellis as one of our best citizens, and I am well aware that he ranks high in the estimation of all classes in this community. It was for just these reasons that I was surprised that the Mayor did not oppose the proposition that was put forth to pay the Secretary of the Council \$200 for so-called extra services.

Mr. Mullaly, also on the 11th inst., in the columns of the Telegram, explains that the Mayor did think the amount excessive. Well, if that is so, it is strange the report of the proceedings did not say so. Mr. Mullaly seems to have gathered the opinion also, that I reflected on the Mayor, and he appears troubled about it. Now Mr. Editor, it looks to me as if Mr. Mullaly is trying to take "backwater." I like a man to maintain his position and stick to his guns. If we are to look for a reflection on the Mayor, what more do we need than Mr. Mullaly's own words spoken at the Council meeting "that the Council was being turned into a Santa Claus Society" and the taxpayers' money was being thrown up for scrambles." This sweeping charge was made with the Mayor in the chair, the Council afterwards voted away \$200 of the taxpayers' money to Mr. Slattery, thereby proving that Mr. Mullaly's charge was true, viz., "that the taxpayers' money was being thrown up for scrambles." What I and other ratepayers would like to know is, why

**NO SELF CURE NO FICTION! NO NO SUFFERER NEED NOW DESPAIR. THE NEW FRENCH REMEDY THERAPION No. 1** In a remarkably short time, cures a few days only, Cures chronic rheumatism, sciatica, neuralgia, migraines, etc., etc., when no other treatment fails. **THERAPION No. 2** Cures neuralgia, sciatica, rheumatism, etc., etc., when no other treatment fails. **THERAPION No. 3** Cures chronic weakness, loss of vigor and vitality, etc., etc., when no other
