#### SERBIANS WIN NEW SUCCESS.

PARIS, Oct. 24. Serbian troops operating in the Cerna region on the Macedonian front have won a new success, according to today's announcement by the war office. A counter-attack launched by the German and Bulgarian troops was stopped by the Serbian artillery. The Serbians then attacked the opposing lines and captured several trenches. On the Struma front there is inactivity. River floods are interfering with the movement of troops.

#### ROUMANIAN FIGHTING.

BUCHAREST, Oct. 24.

At Vrancea there was a minor action, in which we took one machine gun. In the valley of Buzen there was artillery fighting at Table Butas. Calm reigns at Bratocova and Predel. Artillery fighting has become less violent. The enemy launched three attacks at Predel. Fighting continues along the border in this location. In the region of Dragoslave the enemy attacked violently. Our troops maintained the position in the valley, and we attacked and repulsed the enemy on the left bank of the river. In the Jui valley there were violent enemy attacks, which made slight progress at Fulghes and Bicas and Frouber valley. The situation is unchanged in Azul valley. The enemy is driven westward, and fighting continues with violence. In Dobrudja the enemy continues attacks. Our left wing was obliged to retire toward Tzara Murat. Constanza has been occupied by the enemy.

#### GAINS SECURED.

LONDON, Oct. 24.

The ground gained by us yesterday in the neighborhood of Guinecourt and Les Boeufs, on the Somme front, has now been fully secured, the war office announced today. During the night there was nothing to report except intermittent shelling on both sides. In answer to the enemy's claim that the gains of Saturday between the Schwaben redbut and Le Sars were won only at the expense of heavy loss on our part, it may be noted that the troops engaged, which took over one thousand prisoners, had only about twelve hundred casualties.

#### SOUTH OF THE SOMME.

PARIS, Oct. 24.

French and German artillery forces were busy last night south of the Somme, where an artillery duel raged in the Blaches-Abbaucourt region. There was no infantry action along the French front in the Somme area, the war office announced today. Three German aeroplanes were brought down in the course of twenty aerial combats that occurred yesterday in the Verdun region, during a thick mist.

#### GERMANS PREPARING OFFENSIVE.

PARIS, Oct. 24.

La Liberté's correspondent on the front in Northern France says: The growing intensity of the bombardment between the Ancre and the Somme indicates that the Germans are preparing for another attempt to remedy a situation which is becoming more critical for them each day. Emperor William, adds the correspondent, has even been reported to be at Bapaume.

## Incandescent Gas Lighting.

The remarkable economy of the incandescent gas lamp is by no means either its chief—or even an important—claim for popularity. It meets better than any other source of artificial light the requirements of ideal light.

In the color of the light produced it is far superior to any other illuminant in general and universal use. The investigations of acknowledged authorities indicate that for the approximation of artificial daylight the gas mantle has at least one and one-half times the value of the carbon-filament electric lamp.

This quality is highly desirable, indeed absolutely essential where the approximation of daylight color values is important. For lighting shops, displaying haberdashery, suitings, gowns, millinery, etc., the incandescent gas lamp is not even remotely approached by any other incandescent lamp.

Of all the manifold advantages of gas light, perhaps the most important is its favourable effect upon the eyes. The development of the incandescent electric lamp with its intense brilliant and glowing filament has been accompanied by hitherto unheard-of prevalence of eye troubles and diseases which are forcing themselves upon the attention of the medical fraternity. This is resulting in a greater appreciation of the soft mellow quality of gas light and is rapidly enlarging its field of use.—July 13, 1904.

personally overseeing the preliminaries for a formidable counter-offensive, in view of which the German army on the Somme front is said to have received strong reinforcements of infantry, and especially of artillery.

#### ON THE VERDUN FRONT.

PARIS, Oct. 24.

In a powerful series of attacks on the Verdun front, the French have captured the village of Fort Douaumont, advanced beyond Thiaumont work and farm, and occupied also Haudromont quarries, north of Verdun, according to a bulletin issued by the war office to-night. The prisoners captured counted thus far number 3,500.

#### CONSTANZA.

LONDON, Oct. 24.

According to reports from Bucharest, the forces of the Central Powers took little booty at Constanza, as the evacuation of the Dobrudja seemed to have been decided upon some time ago.

#### NEW ALLIED LOAN.

NEW YORK, Oct. 24.

An official announcement of the terms of the new loan to Great Britain by American financiers, is expected here before the close of the week. The amount will be \$200,000,000, or \$200,000,000, it is understood, bearing five per cent. interest with issuing price at 98 and maturing in two years. Negotiations with American bankers for another direct British loan, not less than \$200,000,000 and which may be as much as \$300,000,000, are approaching completion according to intimations conveyed to-day by the fiscal and commercial representative of the British Government. Inquiry for the loan from financial and investment sources is said to be so general as to insure its successful flotation.

#### WILL EXCHANGE PRISONERS.

LONDON, Oct. 24.

Baron Newton, Under Secretary for Foreign Affairs, announced in the Lords to-day that the British and German Governments had agreed to exchange all interned prisoners over the age of 45.

#### REBELLION SUPPRESSED.

CONSTANTINOPLE, Oct. 24.

Suppression by Turkish troops early this month of the rebellion near the Arabian Holy City of Medina, which counts the tomb of Mohammed, is reported in an official statement issued to-day by the Turkish war office department.

#### BULGAR TRENCHES CAPTURED.

SALONIKA, Oct. 24.

The Serbian first army fighting in Southern Serbia, has made an advance and captured the first Bulgarian trenches, according to a Serbian official made public here to-day.

#### OBLIGED TO RETIRE.

BUCHAREST, Oct. 24.

The left wing of the Roumanian Russo forces at Dobrudja was obliged to retire towards Tzara Murat, 120 miles north of Constanza, on the Tchernovoda railway line, says a Roumanian official issued to-day. The forces of the Central Powers and their allies have occupied Constanza.

#### BRITISH RAID GERMAN TRENCHES.

SALONIKA, Oct. 24.

British troops on the nights of Oct. 22 and 23 raided German trenches northeast of Machukovo on the Serbian-Macedonian frontier, one mile east of the river Vardar, killing forty Germans and capturing eighteen, says a British official issued to-day.

#### SUCCEEDS STURGEON.

LONDON, Oct. 24.

A despatch from Rome says that Prince Conrad von Hohenlohe-Schillingens, former military governor of Trieste and once Premier and Minister of the Interior of Austria, has been appointed to succeed the late Count Sturgeik as Prime Minister.

#### TOBACCO SHIPMENTS.

WASHINGTON, Oct. 24.

Representations to Britain in behalf of the American tobacco shippers, who have had \$1,500,000 worth of leaf, consigned to Scandinavian countries and Germany, tied up by British restrictions at Copenhagen, has resulted in action by the British Government, which is expected to result in some relief.

## John W. McGrath

Roosevelt's Popular Secretary, Vindicated.

"The Appellate division of the Supreme Court of New York State to-day unanimously reversed the decision of the Lower Courts in the case of John W. McGrath."

"Our readers will remember that Mr. McGrath, the brilliant young Newfoundland who has achieved celebrity as Mr. Roosevelt's Secretary, was some time ago subjected to the indignity of a clearly trumped-up charge of assault. Though the whole affair was a purely political scheme, the court decided against him. His many friends and admirers will learn with pleasure from the above that his character has been completely cleared, though there has never been any real doubt about the matter.—Ed.]

Look at a Child's Tongue when Cross, Feverish and Sick

Take no chances! Move poisons from liver and bowels at once.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can't cause injury. No difference what all your little one—if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

Mr. Robert French is receiving congratulations from his friends on the honor conferred on his son, Sergeant A. French—the receiving of a Military Medal.

Mr. J. Barnes, contractor of St. John's, is in town on a visit to his friends. He is a guest of Mr. James Garland, Cochrane Street.

A Memorial Service will likely be held in St. Paul's Church on Sunday next for the late Pte. Henley Martin, who died from wounds received in
