Local Underwear!

Men's Fleece Lined Underwear
Special Price 90c. per garment.

Help the unemployed, buy your Underwear here.

Stocks and Bonds!

Due to the impending strike in England, the general market shows signs of sluggishness, and investors who watch conditions carefully should make some very profitable deals.

Better decide early the lowest prices you will pay for bargain stocks and place your orders promptly to be sure of having them filled in the event of a downward tendency.

To Whom It May Concern:

DEAR MADAM,— Many diseases have been caused by unsanitary methods of handling linen. Have you ever considered how your linen is being treated in this respect? We take care that linen entrusted to us is made Clean, Pure and Wholesome.

We use only the strictest sanitary methods. Our work is done by careful and efficient employees and our soaps and other ingredients are the purest made.

THE PRICE IS 10 CENTS A POUND. Give us a trial, you'll not regret it.

A Trust Company as Executor

A Trust Company as Executor affords the Estate for which it is acting all the advantages of the best private Executor with none of the weaknesses which are inseparable from individual Executorships. In addition, there are many exclusive advantages possessed by a Trust Company which should be carefully considered by all intending Testators before appointing an Executor for the administration of their Estates. If you are interested, communicate with the Officers of this Company and they will explain the matter fully to you.

Reid-Newfoundland Co., Ltd.,

Water Street Stores Dept.

FOR SALE AT A BARGAIN,
1 12-H.P. SEAL ENGINE, in first class condition.

Here are a few of its important points: No water pump is necessary, the circulation around the jacket causes a natural flow of water. The crankshaft is enclosed in a case which carries the lubricators to the bearings. The crank dome cover can be removed with half the bearings for inspection of piston and connecting rod, without dismantling the engine. The valve gear can be removed independently of cylinder, the head of which is below the water line. The water circulation is automatic. Each down stroke gives an oil drip on the connecting rod, thus supplying free lubrication. The fuel is controlled by an automatic inlet valve; once set by the regulator it requires no further attention. After five minutes running of the engine the automatic timed ignition takes up the firing, being operated by a bulb, which becomes red hot and ignites the mixture at the correct moment by the plunger which admits fresh mixture to the bulb. It is of the four stroke type and runs 800 revolutions a minute.
