him the name of my God and the name of the city of my God, which is New Jerusalem, and I will write upon him my new name."

I saw eight of those plliars at Constantinople, to which city they had been removed, and are now a part of the Mosque of St. Sophia. The are all green jasper, but some of those which stood in Dina's Temple at Ephesus were fairly drenched with brilliant colors. Costly metals stood up in various parts of the temple where they could eatch the fullest flush of the sun. A flight of stairs was carved out of one grape vine. Doors of cyprus woed, which had been kept in glue for years, and bordered in bronze in bas-relief, swung against pillars of brass. In that building stood an image of Diana, the goddess. The impression was abroad as the Bible records, that that image nad dropped out of heaven into that temple, and the sculptors who really made the statute or image were put to death, so that they could not testify of its human manufacture and so deny its celestial original.

In this city the mother of Jesus was said to have been huried. Here dwelt Aquilla and Priscilla of Bible mention, who were professors in an extemperized theelogical seminary, and they taught the eloquent Apollos how to be elequent for Christ. Here John preached, and from here because of his fidelity he was exiled at Patmos. Here Paul warred against the magical arts for which Ephesus was famous. The sorcerers of this city pretended that they could cure diseases, and perform almost any miracle, by pronouncing these senseless words: "Aski Cataski Lix Tetrax Damnameneus Asison." Paul having performed a miracle in the name of Jesus, there was a lying family of seven brothers who imitated the Apostle, and instead of their usual words of incantation used the word Jesus over a man who was possessed of a devil, and the man possessed flew at them in great fierceness and incented the word Jesus over a man who was possessed of a devil and down the streets of Ephesus there was indignation excited against the magical arts, and a great bon

rations with their almost supernatural grandeur.

But here is a lesson which has never yet been drawn out. Do you not see in that Temple of Diana an expression of what the world needs? It wants a God who can provide food. Oh, this is a hungry world! Diana was a dead divinity and imaginary God. In idolatrous lands the vast majority of people never have enough to eat. It is only in the countries where the God of heaven and earth is worshiped that the vast majority have enough food. Le Diana have her arrows and her hounds our God has the sunshise and the shower and the harvest, and in proportion as he is worshiped does plenty reign.

A Dinner Pill.—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like abil of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the sytem. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and conver the food partaken of into healthy nutriment. They are just the medicine to take if troubled with indigestion or Dyspepsia.
