MONSOON
INDO-CEYLON TEA

Anglo-Saxon League

Gains Many Recruits Among Distinguished Men.

One of the Most Influential Bodies Ever Organized.

An Explanation of the Refusal of Coal to Camera's Ships.

Serious Russian Fire—The Nile Campaign—A New French Cabinet.

THE NILE CAMPAIGN.
London, June 28.—The Cairo correspondent of the Morning Post denies the report that the derelicts have abandoned their position at Shabuka, on the Nile, north of Khartoum, below and near the sixth cataract.

BIG BLAZE.
St. Petersburg, June 28.—A serious fire has occurred at Riason, capital of the government of that name, situated 110 miles southeast of Moscow. Much of the town, which has a population of over 20,000, has been destroyed, and the loss is estimated at several million rubles.

SAGASTA'S PLAN.
London, June 28.—A special dispatch from Madrid says that Sagasta is planning to propose a crisis, form a monarchical ministry, proclaim the whole peninsula in a state of siege, and appeal to a friendly nation, probably France or Russia, to secure terms of peace.

JAPAN'S NEW CABINET.
Yokohama, June 28.—Okuma, Stogaki has been charged to form a new cabinet. It will be the first party cabinet in the history of Japan. The resignations of the minister of marine and the minister for war have not been accepted. They will probably remain in their posts in deference to the clan feeling now among the officers.

THE GERMAN ELECTIONS.
Berlin, June 28.—The complete result of the second balloting in the election of members of the Reichstag is as follows: Conservatives, 19; Imperialists, 10; Center, 23; Reform Party, 6; National Liberals, 28; Radical Union, 11; Radical People's Party, 29; German People's Party, 8; Agrarian, 8; Socialists, 24; Poles, 1; Guelphs, 8; Independents, 6.

NEWFOUNDLAND AFFAIRS.
It is understood that Mr. Joseph Chamberlain, secretary of state for the colonies, is favorable to the appointment of a royal commission to inquire into Newfoundland affairs. The colony assents to the conferring of unlimited power upon the commission. The colony, however, stipulates as a condition precedent to the dispatch of the commission that no interference with the colonial character of self-government is to be tolerated. Mr. Chamberlain is not disposed to make this concession, but the colonial delegate in London refuse to recede from their position.

RIOTS IN GALICIA.
Vienna, June 28.—Despatches from Lemberg, capital of Galicia, say the rioting peasants pillaged Alt-Sandec for several hours on Saturday evening. The houses used as stores in the square were plundered and then destroyed, their contents being removed in vans, which were in waiting to the country. An organized attack was also made upon Neu Sandec, six miles from Alt-Sandec, but the cavalry dispersed the peasants after a hand to hand fight, and subsequently the infantry sacked many of the Jewish houses in the suburbs and set fire to several buildings. Troops have been dispatched to Przemyśl, 50 miles west of Lemberg, where disturbances are threatened. Przemyśl has over 15,000 inhabitants.

THE NEW CABINET.
Paris, June 28.—After the successive failures of M. Ribot, M. Sarrien and M. Peytral to form a cabinet to succeed the retiring ministry of M. Meunier, it is announced that M. Henri Brisson has formed a cabinet, with the following distribution of the portfolios: President of the council and minister of the interior, M. Henri Brisson; minister of finance, M. Paul Peytral; minister of education, M. Leon Bourgeois; minister of justice, M. Ferdinand

and Sarrien; minister of war, M. Godefroy Cavaignac; minister of marine, M. Edouard Simon Lockroy; minister of foreign affairs, M. Theophile del Casse; minister of the colonies, M. Georges Trouillot; minister of commerce, M. Emile Maunoujou; minister of agriculture, M. Albert Viger.

AN EXPLANATION.
London, June 28.—The Madrid correspondent of the Standard says Egypt's refusal to supply coal to Admiral Camara's squadron is strongly resented, as due to England's influence. It is regarded as a fresh proof of an Anglo-American entente. The Spanish Transatlantic Steamship Company has coal depots at Aden, Colombo and Singapore. Capt. Anon, minister of marine, hopes the matter may be arranged, since England has not yet declared coal contraband of war. According to another version, the incident will serve as a pretext for bringing Admiral Camara back to Spain, to check American aggression.

A dispatch from Cairo says: The Egyptian Government has instructed its authorities at Port Said to prevent the 150 stokers engaged there by Admiral Camara for his fleet from deserting to Spanish ships, and he courteously informed Admiral Camara of the laws of neutrality, which Egypt intends rigidly to observe. The Audaz's machinery requires repairs, and Camara has signified his intention of remaining at Port Said for three days.

CABLE NOTES.
A London cable says: The secretary of the Artillery Association is anxious to learn the latest date the visiting artillery team could sail to arrive in St. John's, Que., in time to recuperate from the voyage and have a brief drill before taking part in the competitions. The present intention is to sail in August. The Earl of Strathbrooke, who is in command of the team, is to be married in July 23. Lady Strathbrooke will accompany her husband to Canada.

The Parliament, with the Blesley team on board, has just arrived at Liverpool. The men are all in the best of health and spirits.

MANY LEADERS

Included in the Anglo-American League—A Most Influential Body.

New York, June 28.—The London correspondent of the Tribune says: The Anglo-American committee daily recruits many new recruits among distinguished men, and is now a most influential body, with 40 members of parliament, as many dukes and earls, four archbishops, nearly all the bishops, Cardinal Vaughan, leaders of all the Nonconformist bodies, heads of all the nearly all the colleges and great public schools, the mayors of 50 cities, and the principal men of letters, painters, journalists, barristers, judges of the United Kingdom. It is the most influential body of leaders of public opinion ever created for action on foreign relations. Mr. James Bryce is chairman, but no formal organization yet exists. It is probable that a meeting will be held early in July, at the residence of some prominent member of the House of Lords, for appointing an executive committee. What work this Anglo-American League will undertake is not yet known, but it is clear that it already provides a powerful agency for directing public opinion. The list of over 400 members effectively disposes of the old-time contention that the classes in England are against America. Whenever the emergency arises this organization will furnish facilities for holding public meetings throughout the United Kingdom, and either forcing the government to move more rapidly, or adequately supporting it in any politics affecting the common interest of the two countries. A main chief organizer is Mr. Lee Roberts, a prominent barrister, who is a Radical Home Ruler; but politics are excluded from the scheme. A majority of the members are Unionists, although ministers now in office take no part in it. The League makes a close approach to the throne through the Duke of Fife and the Marquis of Lorne.

MIDDLESEX.

A warehouse belonging to Mr. Duncan McCrea, of Melbourne, was totally destroyed by fire early Monday morning, together with a small quantity of grain. The fire was not noticed by any of the residents of the village, their first knowledge of it being brought after they were asleep in the morning. The warehouse was situated next to the railway tracks, and only a short distance from Mr. McCrea's other warehouse and a number of residences.

RAVENSWOOD.

Ravenwood, June 28.—The annual meeting of the Presbyterian congregation here was held on the picnic grounds, Kettle Point, on Friday, June 24, and was honored by quite a number from a distance, including Mrs. Beattie and Miss Otis, Toronto; Mr. J. C. Taylor, J.P., Pinesburg, Mich., accompanied by his wife and sister-in-law, Miss L. Foss, a recent arrival from Wiltshire, England; Mr. and Mrs. Lunan, Camlachie; Mr. and Mrs. Brodie, Hawkeby; Miss Horner, Sarnia. It was proposed by some to let the intellectual part of the programme drop, or at least defer for a time, until the wind fell a little, as a strong gale was blowing from the west.

was dispensed with, with the exception of the opening solo, by the Rev. Hannabson, who, by special request, also gave the solo "We're British to the Core," much to the delight of the audience present as well as the aid men. The proceeds amounted to over \$50.

IS THIS THE MAN?

Toohy's Alleged Slayer Was Near Alvinston.

He Exchanged Shots With Watford Constables.

And Swore He Would Not Be Taken Alive.

Overhauled Later on at Oil Springs but Escapes.

Pursuers Hot on His Trail—Tramp Has a Horse—Several Peg-Legs Arrested.

An Alvinston dispatch to The Advertiser, per G. N. W., this morning says: "The tramp who killed the London constable took supper last night at Malcolm Campbell's house, four miles from here. Two Watford constables were after him, and exchanged shots with him, one shot passing through his hat. He then coolly sat down on a log and told them to come on—he was better prepared than they were, and would not be taken alive. He then went off into the woods. They stopped following. He was seen going further west this morning with a horse. Understand London police detectives are after him."

A later dispatch to The Advertiser from Petrolia, per G. N. W., says: "The tramp who shot the constable at London was overhauled close to Oil Springs this morning, but pursuers failed to arrest him. It is reported he shot several shots, one of the shots hitting a man's hat. The murderer was riding a horse without any bridle, and steering westward. It is quite likely that the man mentioned in this dispatch is Toohy's assassin. The Strathroy pursuers lost track of him late on Sunday night, and he had ample time to reach the vicinity of Alvinston. Knowing that a posse yesterday would be in pursuit of him, it is probable that he left the vicinity of Alvinston on Sunday night, and through the fields and woods. The police yesterday were consequently on the wrong trail in working between Strathroy and Kerwood. They have a slippery customer to deal with. An Advertiser reporter went to Strathroy yesterday and talked with two of the posse who saw the tramp on Sunday night. They say he is remarkably agile, and covers a great deal of ground by his long, swinging strides. He was discovered milking a cow in a field corner, and evidently does not intend to starve. In extremity he can come to his feet and look over his shoulder at his pursuers."

THE SMOKE SUSPECT.

Wm. Mathison, alias Morrison, alias Coulter, is a one-legged native of Simcoe. He was arrested yesterday at the residence of James Ross, a farmer, where he was in company with William Yeoman, a painter, who resides at 752 York street, this city, and saw the murderer pass his house after the assault on Watchman Ross. Yeoman was not positive that Mathison was the murderer, but some people he resembled the murderer, and was consequently brought to London last night. When questioned by Ralph, the one-legged tramp could not give a satisfactory account of himself, and said he thought he slept under a tree near Aylmer. He arrived in Simcoe on Saturday morning, and cleared himself of the charge of being the murderer. He was released for a week to await developments. He is known to the police as a tramp, and was prosecuted for stabbing a man. It is also alleged that Mathison is the same person who served six months at the latter place, and who was the officer slipped from the train last night there were about 100 people awaiting in anticipation that some peg-leg would be brought to the city during the night. Mathison's trousers

HEART DISEASE.

Weak, Palpitating, Fluttering, Throbbing Hearts can be Cured.

MILBURN'S HEART AND NERVE PILLS THE REMEDY.

Heart disease has of late years become frightfully prevalent. Day after day the papers record sudden deaths of those who may have lived for years, who fill their places in the world if they had only heeded the first signs and warnings of heart trouble and had their heart strengthened by Milburn's Heart and Nerve Pills.

Dizzy spells, skip beats, palpitation, fluttering of the heart, choking and smothering sensation, getting out of breath easily, especially on going upstairs, pain in the left side of the breast, are all indications that the heart requires help.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a normal and healthy condition as Milburn's Heart and Nerve Pills.

Mrs. Jane Alcorn, Woodstock, N. B., says: "For many years I have been afflicted with palpitation of the heart, pain in the breast and dizzy sensation arising quickly. My appetite was poor and I was completely run down. I could not sleep at night and the nervous weakness and general debility from which I suffered intensified my misery. My attention was called to Milburn's Heart and Nerve Pills and I started to use them. They have made a wonderful change in my condition, my appetite has been restored and I now get refreshing sleep. My heart troubles have all disappeared and I consider the results in my case most gratifying."

Milburn's Heart and Nerve Pills are sold by all druggists at 50c a box or 3 boxes for \$1.25. T. Milburn & Co., Toronto, Ont.

Fat is absolutely necessary as an article of diet.
If it is not of the right kind it may not be digested. Then the body will not get enough of it. In this event there is fat-starvation.

Scott's Emulsion supplies this needed fat, of the right kind, in the right quantity, and in the form already partly digested.

As a result all the organs and tissues take on activity.

50c. and \$1.00, all druggists.
SCOTT & BOWNE, Chemists, Toronto.

hid the stump, but his hobbling walk betrayed him. The general opinion is that he is not the man.

TRAMP NO. 3.
James Vincent, the peg-leg tramp arrested at Port Huron, has been released, as he did not answer the description of the assassin, and told a straight story of his whereabouts on Friday.

PEG-LEG NO. 4.
Detroit, Mich., June 27.—A one-legged man, who gave his name as Frank Crittenden, and his age 20 years, was arrested by Patrolman Hayes at Junction avenue and Porter street, at 1:20 a.m., on suspicion of being the murderer of a Policeman Toohy, in London, Ont. He was locked up in the Scotten avenue station, and his case will be investigated today. Crittenden says he hasn't been in Canada for four years. When he was arrested he said he was waiting for a train to go to his home in Flint, Mich. The officers at the Scotten avenue station say the man will probably be released, as the answers the description given of the murderer only in that he has a wooden leg.

NO. 5 IN TORONTO.
Toronto, June 27.—Frank Sheriff, 19 years of age, hailing from Ridgeway, shoemaker by trade, slight of build, without mustache or beard, with a wooden leg, was arrested by Chief Royce in the C. P. R. yards this morning. Also Leonard Anthony, 19 years of age, 5 feet 8 1/2 inches tall, slight build, without mustache or beard, and comes from Bothwell. They state they were in London last Tuesday, June 23, "the pair are traveling together as tramps." A tramp was seen early this morning who answers the description of Policeman Toohy's murderer. It is thought that he went east on the beef train.

SEEN AT HYDE PARK.
A one-legged tramp, evidently the murderer, got lunch Saturday morning at the residence of James Ross, G. T. R. section man, near Hyde Park. He was hatless and had apparently a rather hard hat. Prince suspected him and told him he looked like the murderer of Toohy. The tramp laughed and said: "That's the reason I got the hat. I was afraid they would take me for him."

THE MATTER OF COALING

[Continued from Page 1]

Black Friday.
EARLY ATTACK ON SANTIAGO EXPECTED.

Off Santiago de Cuba, Monday, June 27, via Kingston, Jamaica, June 28.—The United States navy and army are expected to strike at Santiago de Cuba tomorrow.

A bulletin issued by Admiral Sampson to the fleet says it appears a considerable part of the damage done to the American troops on Friday was from machine guns manned by seamen. Lieut. Bice, of the Suwanee, has made another trip ashore, where he destroyed enemy's batteries, and has obtained valuable information for the use of the fleet.

A SPANISH SPY'S STORY.
A Spanish spy who was captured by the Cubans on Sunday reports that the Spaniards suffered heavy losses during the fighting on Friday. He says that the Spaniards lost, he said, was very heavy in both killed and wounded. The spy also reported that there was much criticism in Santiago on account of the fact that the American landing was not contested at Baiquiri, and he also says there was talk of an American attempt to flank the Spanish troops. Finally, the spy says there is very little food in the city of Santiago.

FEAR THE VESUVIUS.

Off Santiago de Cuba, via Jamaica, June 28.—Naval Cadet John Halligan, jun., of the flagship Brooklyn, returned on board that vessel last night with a package of Cuban flags, which had been presented to him for landing the first boat load of soldiers of the invading army. Commodore Schley and Capt. Cook are both vastly pleased at the fact that the flagships' boats and men accomplished the first landing. When it was considered that 17,000 men and a large number of horses and mules, in addition to supplies for the army, have been landed the record made is remarkable, both for speed and absence of disaster. Commodore Schley, commenting on the landing, said: "It is the breaking of all records in modern history to land such a number of men, fully provided with all the necessities, in a hostile country."

Commodore Schley thinks the Spanish naval officers will as a last resort destroy their ships by blowing them up. A Cuban spy who was recently in Santiago de Cuba says a reign of terror exists among all classes there owing to the nightly attacks of the Vesuvius with the terrible explosion of her dynamite shells. A week ago one of her shots, striking Cay Smith, a well-known merchant, destroyed his warehouse and a fort there, besides dismounting several guns. Windows, it also appears, were broken in the city and the general effect was similar to that of an earthquake.

A Naval Fight.

THE SPANISH TORPEDO BOAT DESTROYER TERRIBLE DISABLED.
Washington, June 28.—The navy department today posted the following bulletin: Admiral Sampson reports that the Yala arrived yesterday and discharged her troops. Capt. Sigbee, of the St. Paul, reports that on Wednesday afternoon, while off San Juan,

This is not a New Blouse

it's an old one, but it looks just as good as new because it has been Washed and Dyed at one operation with

MAYPOLE SOAP

MADE IN ENGLAND.
For Home Dyeing
Maypole Soap is unapproached by anything hitherto invented, it Washes and Dyes at one operation any color. Bright fast, clean and unfadeable. Sold in all colors at drug stores. If your dealer does not keep Maypole Soap, send us ten cents in stamps for full sized cake, any color.

CANADIAN DEPOT:
8 PLACE ROYALE, MONTREAL.

Eat and Gain

Nerve, brain, muscle—they all gain if you eat that warm weather substitute for Rolled Oats—Tillson's Flake Barley.

Light, delicate, easy of digestion. It doesn't heat the blood. Progressive grocers sell it by the pound.

Tillson's Flake Barley

—It makes nice puddings.

Porto Rico, he was attacked by a Spanish unprotected cruiser and the Spanish torpedo boat destroyer Terror. The Terror made a dash, which was awaited by the St. Paul. The St. Paul hit the Terror three times, killing one officer and two men, and wounding several others. The Terror dropped back under cover of the fortifications with difficulty, and was towed in a sinking condition into the harbor, where she is now being repaired. Later a cruiser and a gunboat started out, but remained under the protection of the forts.

POLITICAL POINTS

West Lambton Liberals to Convene August 17
And Name a Successor to Judge Lister—The Protesters—A New Senator.

MR. LISTER'S SUCCESSOR.
Sarnia, Ont., June 28.—A meeting of the executive committee of the West Lambton Reform Association was held here yesterday for the purpose of discussing the political situation, resulting from the retirement of the late member, J. F. Lister, and his promotion to the bench. It was decided to hold a convention in the town of Sarnia on Aug. 17 for the purpose of nominating a candidate to represent the Reform party in the by-election, which will be held later.

THE PROTESTS.
Toronto, June 28.—It is understood that the election trial will come off in September. Not more than ten or a dozen of the eighteen protests, for which the place of trial was arranged the other day, will, it is expected, come to actual trial.

S'NATE VACANCY FILLED.
Quebec, June 27.—Mr. Arthur Paquet, the enterprising and well-known St. Roch manufacturer and merchant, has been offered the vacancy caused by the death of Senator De Blois. Mr. Paquet has decided to accept the vacant senatorship.

CHANGE YOUR COLOR.
It is a Change Very Easily Made, if You Only Know How.

Dodd's Dyspepsia Tablets Do It—They Banish the Cause of Sallow Complexion, Pimples, etc., and Leave Instead Good Health and Good Looks.

No earthly power can convert an Indian nor a negro into a white man. The black skin cannot be made white. But a muddy, sallow, greasy, wrinkled skin can be changed to a clear, pure, fresh and smooth one. It can be beautified by the rosy blush of youth and health.

Dodd's Dyspepsia Tablets make the change.
The thin, worn, haggard, pallid face can be changed into a full, fresh one, with the hue of health, and the look of vigor and strength on it.

Dodd's Dyspepsia Tablets insure the change.
The muddy, pimply skin, and the pallid, worn, haggard face are the effects of Indigestion or Dyspepsia, and impure blood.

When food is not properly digested, the blood into which it is changed, is thin, weak and impure. It doesn't contain enough nourishment to give the skin its natural healthy, clear appearance, or the face its natural plumpness and color.

Anything that will insure perfect digestion brings about the change named as surely and naturally as night follows day.

Dodd's Dyspepsia Tablets insure the change, because they digest the food themselves.

Thus they insure a generous supply of pure, cool, rich blood.

Users of Dodd's Dyspepsia Tablets are distinguished by their bright eyes, clear, pure and smooth skin, healthy and vigorous looks.

They are thus distinguishable because Dodd's Dyspepsia Tablets insure perfect digestion, pure blood, and stimulate the bowels to healthy action, throwing out of the system all impurities.

Dodd's Dyspepsia Tablets are sold by all druggists at 50 cents a box, in boxes of 25 or sent on receipt of price by The Dodd's Medicine Company, Limited, Toronto.

Stop in at Cole's Cheap Store.
There are such things as tears of joy, but few people ever see them. No attention is paid to a chronic liar when he utters an occasional truth.

Oh, boys, was that fly a buzzard?
