KEPT DAY BY DAY

Diary of a Private of the First Canadian Contingent,

Who Entered Faithfully the Details and Incidents of Travel, Camp and Field, From the Day of Leaving London Till He Died a Soldier's Death - Interesting and Pathetic

When Pte. George Floyd, of the first Canadian contingent, left London for South Africa, he began keeping a diary, in which he faithfully set down the happenings of each day, from the time of leaving London and the embarkation at Quebec to the very day before the fatal bullet found him, and robbed him of life in the fight at Zand River on May 10. Pte. Floyd's diary and his blood-stained Bible were sent home to his relatives here, and it is from his diary that the following interesting extracts are made. About three-fourths of the contents of the diary are here reproduced.

Pistol Discharged Accidentally-In juries May Prove Fatal-Three Youths Drowned.

Bothwell, Ont., July 21 .- Fred Poynter, the eighteen-year-old son of the preprietor of the Poynter House, this town, lies at his home in a precarious condition, with a bullet wound through his neck. Just how the shooting occurred is difficult to say, though the theory advanced is that this is another case of "didn't know it was loaded." The revolver was discharged while in the victim's hands. The weapon from which the bullet was fired is of the cheap variety, and was left at the hotel last week by some

traveling fakir.

Between and 7 o'clock young Poynter went to his bedroom, and shortly afterwards the household were startled by the loud report of a pistol and the piercing cries of the victim. His father was the first to arrive on the scene, and to his horror he found his only son lying on the floor with blood oozing from a hole in his neck, under his chin, where the bullet entered, and also at a point of exit at the back of the head. The bullet went dangerously near lar vein, and may prove fatal.

THREE YOUTHS DROWNED. Detroit, July 21.-Frank H. Jerome, jun., aged 22, son of Frank H. Jerome, of the firm of Jerome & Daly, surveyors, Washington avenue, was drowned about 11 o'clock Thursday night while crossing the river in a boat with a young man named Harry Schutte, of Cincinnati, from Algonac to Harsen's Island, where the Jeromes have a sum-

mer cottage.
Orsen Kelsey, aged 15 years, son of Oscar D. Kelsey, an engineer, was drowned this morning in the River Rouge, opposite the Detroit salt block, where with some companions he had gone for a swim.

Harrisville, Mich., July 20.-Claudius Hale was drowned here yesterday. He was the carrier for the Evening News and a bright lad.

STARVED TO DEATH. Victoria, B. C., July 21 .- A letter received from Cassiar, tells of the death from starvation at Francis Lake of a prespector named W. Yack, of Los Angeles, Cal. His partner, Al Dimick, lived on the flesh of martens until he reached Fort Francis.

KILLED BY A BROKEN BELT. Ludington, Mich., July 20. - Charles Olson, aged 17, was struck by a broken belt at the mill of Butters & Peters, and thrown against an iron bolt with such force that his skull was crushed and telescoped. He liver 12 hours before death relieved him of his suffer-

BURNED OUT

Their Lives-Forest Fires.

San Francisco, July 21 .- The hotel at Castle Craid, Shasta county, was burned to the ground at 4 o'clock yesterday morning. It was crowded with San Francisco society people, but all escaped with their belongings. The hotel was owned by the Pacific Improve-

ment Company. Ayr, Ont., July 21.—A fire occurred one mile south of Ayr yesterday on the farm occupied by William Patterson, and owned by Simon Patterson, The barn and contents were totally destroyed. The greater portion of this year's crops were in the barn. All the implements were saved. Insured in the Ayh Mutual for \$1,200.

Toronto, July 21.-William Margath, crown timber agent at Rat Portage, is here making a personal report to the crown lands commissioner on the recent forest fires in the Rainy River district. The fires, he says, were widespread, and a good deal of pine timber owned by lumbermen was burned, but not so badly injured as to prevent it being used if cut at once. Little or no damage has been done to timber on crown lands, the fire being confined almost wholly to limits owned by lumbermen. Some settlers on the Rainy River were burned out, a few losing their all. One or two families were obliged to take refuge in the river until the fire passed over their holdings. Owing to low water about the Sault Rapids the Rainy River is not navigable for any but small steamers, and all freight has to be transferred at this point. This is keeping sawlogs from coming in, and has also prevented mine owners from getting in stamping and

other machinery. Placerville, Cal., July 21 .- A great forest fire is raging on the lands of the American River, Land and Lumber Company, twelve miles northwest of this city. The big chute built by the company at the terminus of its railroad to run logs into the south fork of the American River is destroyed. The chute was 3,500 feet in length; it was built of large logs, and cost about \$60,000. Should the fire continue it will entail a loss running into the millions. In addition to many houses and twelve miles of railroad, 12,000,000 feet of logs are lying cut and barked in the woods,

Slaughter of the Innocents.

The parents who, through ignorance or thoughtlessness neglect to provide for the children the food best suited for them under all conditions, are as guilty as though they attempted to kill the children by violence. At this season of the year, when spells of extreme heat bring with them various iils peculiar to summer, parents should see that they provide for their families those foods which are most adapted to the sustaining of life, the imparting of strength and the preservation of health. It is the duty of every parent to investigate our claims for GRANOSE and GRANOLA, the perfect foods for all seasons of the year and all conditions of life. Partially predigested, these foods avoid the undue heating of the blood and the derangements of the stomach which in summer bring on such serious and sometimes tatal results. They keep up a regular action of the digestive organs and intestines and thereby prevent those distressing and dangerous complaints-constipation, indigestion, summer complaints, etc. The good effect of these foods can be accelerated and increased by the discarding of tea and coffee by the substitution of CARAMEL CEREAL. a palatable and healthful beverage. We have thousands of testimonials showing the excellence and healthfulness of our foods. Give them
