#### **GERMANY FACES** GIGANTIC LOCKOUT

The Building Trade May Be Completely Tied Up.

Berlin, April 4.-A gigantic lockout, nitiated by 22,000 employers and involving direct or indirectly a million and a half workmen, appears to be inevitable in the German building trades. The lockout will probably begin on the 14th of this month. It means the culmination of a series of lisputes between organized employers and organized workmen over wages, hours of labor and other mutual interests. The trade employers held a convention at Dresden recently and drafted a new code on conditions of abor, which they presented to the unions. A conference of delegates of all unions will be held in Berlin on Monday to consider the ultimatum submitted by the employers. The majority of the delegates have already been instructed by their unions to unconditionally reject the employers' terms. The employers, who have foreeen this rejection, decided to lock out all workmen who refuse to accept their terms after April 14. The number of workmen directly affected is 400,000, but the workmen of allied and dependent trades who will be thrown out of work by the lockout is estimated to number 1,000,000. In Berlin alone 25,-000 men will be locked out and 100,000 others will be indirectly affected. The minister has been appealed to, and asked to use his influence to avert a gigantic industrial war, but the employers and the workmen say they will accept neither mediation nor comprom-
