Garbaga Disposal.
To the Editor of The Advertiser: I see that a couple of our city solons have been to Montreal, and have imbibed metropolitan ideas on the garbage problem; in fact, their statement in the press reads like page from Jules Verne or Baron Munchausen. Now, when our aldermen visit those great big cities they should be given a couple of weeks to recover their equilibrium, and again get in touch with home conditions before announcing a programme. The idea of taxing the ratepayers between \$20,000 and \$30,000 per year for a garbage system after voting \$50,000 already, is simply ridiculous. There are not more than 1,000 families in London who care a straw about a garbage system. and not more than half that number to whom the disposal of garbage is at all a serious problem. We do not need an incinerator in London for another five years at least. There are plenty of places around Econdon where all refuse can be used for filling unsightly holes and increasing the value of the property. All it wants is a man in charge at each place to keep it santary, and five or six wagons suitably

CHARGED WITH MUTINY

Striking Sailors of White Star Boat Placed Under Arrest When They Land.

[Canadian Press.]

Southampton, England, April 26. The White Star liner Olympic, which has been held off Ryde, Isle of Wight, since Wednesday, by a strike of her firemen, today abandoned the scheduled trip to New York, and returned to port. This course has been made necessary by the desertion of her seamen this morning, when the line attempted to replace the striking firemen with non-union men.

One hundred and twenty-one passen gers, who were awaiting the Olympic at Queenstown, have been transferred to the Baffic, which leaves here today for New York. Fourteen hundred sacks of mail, which were to have been forwarded by the Olympic, will be held at Queenstown for the Cunard liner Lusitania, which sails from Liverpool tomorrow for New will touch here on Sunday. Cunarder is likely to reach New York before the Baltic, and for this reason the mail has been intrusted to her. The strike has a serious aspect beond the matter of inconvenience to rans-Atlantic travel, as the seamen having signed for the voyage, have now laid themselves open to the charge o

mutiny, a serious offence. Immediately following the walk-out the White Star officials appealed to the authorities, with the result that the Olympic's whole complement of seamen, numbering 54, were arrested when they were ashore. They will be arraigned in the police court at Portsmouth this afternoon and charged with mutiny.

#### Crew on Strike.

Southampton, April 26.—The voyage the Olympic has been abandoned nd the liner has returned to port. When tugs containing the 250 firemen, who had been recruited by the White Star Company in Sheffleld, Liv erpool and Portsmouth came alongside the Olympic this morning, the seamen on board the liner jumped on board the tugs, declaring that they would not serve with blacklegs. In answer to an appeal for assist

ance from the captain of the Olympic the commander of the cruiser Coch rane came on board without a guard and warned the seamen that as they had signed for the voyage they were guilty of mutiny. The striking sailors, however,

lined to return to the deck of the The men proceeded on shore, where a strong force of police arrested fifty of them at the dock gates, as they
