The Ashford Case.

The Ashford Case.

Mr. H. M. Wells, 196 Sherbourne-street, has received a recent issue of The Daily Bulletin, published at Honolula, Sandwich Islands. It contains a lengthy account of a meeting of the Executive and Advisory Councils, with a unanimous recommendation from the Executive Council, which was submitted for the pardon of Volney V. Ashford on the condition that he leave the country never to return. The recommendation was adopted, it being stated that the prisoner had an affection of the spine, which would result fatally if he did not go to another climate for treatment. The Bulletin says:

"V. V. Ashford has been pardoned on condition that he leave the country never to return. The reason is that if left in prison he will soon die from maladies contracted before his committal. In the opinion of impartial minds the Military Commission convicted Mr. Ashford on testimony that would not be given a moment's respect by a jury. It is a pity justice is not given as a ground of his release as well as humanity, Whatever he may have had to do with former plots has nothing to do with former plots h

ways at the Centre Island. The channels leading from Long Pond to Hanlan's Point, in a great many places, are nearly dry, and at some points fully so. This should be attended to at once; the digging should be done so as to make the water navigable for small boats from Long Pond to Hanlan's Point, otherwise one of the greatest attractions of the Island will be destroyed. AQUATIC.

The pond and cuts that diversify the topography of the Island really answer the purpose of streets. People get about the Island and transport their effects from one place to another by means of boats instead of with horses and wagons as they do in the city. The corporation is under the same obligation to keep the channels open and suitable for small boats as it is to repair the streets in the city proper.—Ed. World.*

The York Piencers.

At the usual meeting of the above society, held yesterday in the Canadian Institute, Rev. H. Scadding, D.D., presiding. A paper was read for the chairmen, by Mr. D. B. Read, on "The Story of Castle Frank." The paper told the story of the Simcoe family in York, of the building of the historic house, and of the death of Frank Jimcoe, after whom it was named. A hearty vote of thanks was accorded the president for his contribution. The York Pioneers.

The question of a successor for the late Rev. Dr. Thompson on the professorial staff of Knöx College was taken up, and Rev. Dr. Stalker of Edinburgh and Rev. Dr. Beatty of Louisville, Ky., were nominated. The first gentleman was unanimously elected to the position.

The committee to investigate the charges against Rev. J. Argo of Union reported that the charges alleged against him were trivial, one of the chief being that of having changed the date of the annual tea meeting. It was shown that he had discharged his duties as a Christian pastor successfully and well. Mr. Argo's resignation was received. A committee was appointed to prepare answers to the appeal against an augmentation grant of \$250 to Fern-avenue Church.

It was decided that it was wiser to take no action on the Manitoba school difficulty until the decision of the Legislature of the Prairie Province was heard.

Clean them with Pearline. You can't get them so thoroughly sweet and pure in any other way. Besides, it's easier for you-quicker, more economical.

The box and barrel churn are not hard to keep clean. A little hot water and a little Pearline will clean any churn or do away with any bad odor."—The Dairy World, Chicago. Perhaps you think that some of the imitations of Pearline, that you'd be afraid to use in washing clothes, would do just as well in work like this. They wouldn't hurt tinware, certainly. But they wouldn't play with the fire." If your grocer sends you an imitation, be honest—send it back.
