

## CORDIAL INVITATION

ADDRESSED TO WORKING GIRLS

Mrs. Robitaille Tells How Mrs. Pinkham's Advice Helps Working Girls.

Girls who work are particularly susceptible to female disorders, especially those who are obliged to stand on their feet from morning until night in stores or factories.

Day in and day out the girl toils, and she is often the bread-winner of the family. Whether she is sick or well, whether it rains or shines, she must go to her place of employment, perform the duties exacted of her—smile and be agreeable.

Among this class the symptoms of female diseases are early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach. In consequence of frequent wetting of the feet, periods become painful and irregular, and frequently there are faint and dizzy spells, with loss of appetite, until life is a burden. All of these symptoms point to a derangement of the female organism which can be easily and promptly cured by Lydia E. Pinkham's Vegetable Compound.

Mrs. Anna Robitaille, 78 rue St. Francois, Quebec, tells what this great medicine did for her. She writes:

Dear Mrs. Pinkham—

"Overwork and long hours at the office, together with a neglected cold, brought on a very serious female trouble until finally I was unable to go to work. I then thought of a friend who had taken Lydia E. Pinkham's Vegetable Compound when her health was in the same condition that mine was and straightway sent out for a bottle. I finished that and took two more before I really began to improve but after that my recovery was very rapid and I was soon well and able to go back to work again. I certainly think your medicine for sick women worthy of praise and an indeed glad to endorse it."

It is to such girls that Mrs. Pinkham holds out a helping hand and extends a cordial invitation to correspond with her. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Her long record of success in dressing woman's ills makes her letters of advice of untold value to every ailing working girl.

## Out of the Question.

Great Britain has entered into an alliance with Japan, Great Britain has vowed eternal friendship with the United States, Japan and the United States may fight. Then what will Great Britain do, and what will Canada do?

This is a difficult and awful problem, but more difficult and awful on paper than in reality. First, it is not at all likely that Japan and the United States will fight. Second, treaty or no treaty, Great Britain will not fight the United States for the sake of Japan, and if any Japanese statesman has such a notion in his head he will be wise to have it extracted, even though the operation be painful.

If so insane an idea were to be entertained by any British Government which is morally impossible, a protest from Canada would be in order. In Canada we see that Great Britain sacrifices our interests to please the United States. We are told that we must submit to this because a war with the United States would be a terrible calamity, and that Canada would suffer more than all. Admit the force of this reasoning, and you have a powerful argument against Canada being juggled into a war with the United States not for her own sake but for the sake of Japan. Imagine a war raging all along the frontiers of Canada, from the Atlantic to the Pacific, because Japan and the United States had some trouble in Honolulu. The place for those who would entertain such a proposal with favor seems to be in an institution where they take care of gentlemen who have a mania for setting houses on fire.—Star.

## A Prayer.

(S. E. Kiser, in Chicago Record-Herald.)

I. Let others ask for greatness and for wealth.  
Let others pray for glory and for health;  
I do not ask that they may fall;  
Who try to crowd me to the wall,  
I do not kneel, O Lord, to beg of Thee  
That shame may come to them that scoff  
at me.

II. I do not ask with upturned pious eyes  
For what should be another's lawful prize;  
But give me courage, Lord, to treat  
My rival fairly when we meet,  
And let us win no comfort and no rest  
As long as I have failed to do my best.

## She Was Wild With Pain.

From Willow Creek, Ont. Miss E. Diegel writes: "A few years ago I was drenched with rain and got lumbago; it was like a steel rod piercing my back. I also had catarrh and was just wild with pain. I applied batting soaked with Nerviline to my ear and rubbed on Nerviline for the lumbago. That rubbing relieved and in a few hours I was well. No other liniment could do this." It's the penetrating power of Nerviline that makes it superior to all other liniments. Nothing beats it, 25c. at all dealers.

## Register all Fires.

Toronto, Jan. 9.—A deputation from the Mutual Fire Underwriters' Association waited upon Hon. Mr. Foy and other members of the Government this morning and asked that it be made compulsory to register all fires, the record to be made with the Government.

Consideration of the matter was promised.

## Barely Lived Through It.

A terrible experience had E. W. J. O'Connor of Saint Ste. Marie. "From boyhood" he writes, "I have been a constant sufferer from asthma and catarrh. My nose and throat was always stopped up and I had droppings in the throat. When attacks came on I thought I couldn't live through the night. I would sit up gasp for breath and endure great distress. Catarrhzone made me entirely well." No stronger proof is required. Asthma is curable, so is catarrh. Use "Catarrhzone" and your recovery is guaranteed. Two sizes, 25c. and \$1.00, at all dealers.

When a stranger drops in town, jolly him. Tell him this is a great little town, and so it is. Don't discourage him by speaking ill of your neighbors. Lead him to believe that he has at last struck a place where good people live.

ENGLISH SPAVIN LINIMENT removes all hard, soft or calloused lumps and blemishes from horses, blood spavins, curbs, splints, ringbone, sweetney, stifles, sprains, sore and swollen throat, coughs, etc. Save 50c by use of one bottle. Warranted the most wonderful Bleemish Cure ever known. Sold by T. B. Taylor & Sons.

## The Lengthening Days.

As the cold begins to strengthen the days begin to lengthen. That is the more hopeful, though not the usual way of describing this season of the year. The worst is over, for the worst is the gloom, not the cold; and now the almanac records each day a gain of a few minutes in sunshine. In the January thaw winter is taking a rest, and gathering strength for a fresh attack. In February there will be an advance all along the line, and horse, foot, and artillery will be hurled at the foe together.

Still, there is an element of despair in that last grand charge, like that of Napoleon on the British squares at Waterloo. The strength of the army is spent, and Blucher is coming. The days have been gradually growing longer, and sometimes, even in blustering February the breath and promise of spring are borne on the wings of a passing breeze.

Not many poets have sung the praises of February, yet it is a month that deserves a tribute from some poet who loves war and action, and the strenuous life. Then everything is in extremes, and the battle of Nature's forces is at its height. The sunshine is brilliant, the streams are gripped hard by the frost, the snowstorms are blizzards. Some invalids and some infirm people find the February air too strong, and must take shelter among the non-combatants, but for others it is a healthy month, when the dust is held down by the snow and the germs are frozen.

## A Natural Laundry.

Near Ashcroft, in British Columbia, are a number of small lakes, whose shores and bottoms are covered with a crust containing borax and soda in such quantities and proportions that when cut into blocks and handled in the same manner as ice, and it is estimated that one of the lakes contains 20,000 tons of this material.

TO KNOW IS TO PREVENT.—If the miners who work in cold water most of the day would rub their feet and legs with Dr. Thomas' Electric Oil they would escape muscular rheumatism and render their nether limbs proof against the ill effects of exposure to the cold. Those setting out for mining regions would do well to provide themselves with a supply before starting.

## Car Jumps Track; Kills Pedestrian.

Detroit, Jan. 8.—At the terminus of the line, Myrtle and Roosevelt avenues, the cars turn by means of a "Y." Instead of turning from the main track into the "Y," the switch point apparently didn't work. The car jumped the track, striking W. C.

## South American Rheumatic Cure

Why, its very nature makes it the most natural and easy cure that human intuition and diligence have discovered. Its wonderful power is in its simplicity; its effectiveness is in its going right to the seat of the trouble, dispelling the causes that "bode evil," give pain, stiffen joints, distort limbs, twist muscles, and when it reaches vital spots, oftentimes cause death. South American Rheumatic Cure is as harmless as milk. One of its marvels is the rapidity with which it effects a cure and the testimony of the thousands who have "thrown away their crutches" and climbed from the valley of suffering to the mountain top of health would fill a book. Don't be incredulous. Encouragement comes with the first dose no matter of how long standing.

ALL DRUGGISTS AND MEDICINE DEALERS HAVE IT. SOUTH AMERICAN NERVEINE for all stomach and nerve troubles. SOUTH AMERICAN KIDNEY CURE is a wonder worker. South American Kidney Cure gives relief in six hours in all kidney troubles.
