

## Guide-Advocate

HARRIS & CO. PROPRIETORS

WATFORD, OCTOBER 10, 1913.

### NOTE AND COMMENT.

**Orillia Packet**—Borrowing money at thirty years is an expensive method of financing public affairs. The issue of \$32,000 in debentures for the construction of the two schools built this summer brought in about \$28,500 in actual cash, but the town will pay in principal and interest \$80,000 before they are redeemed.

**Melfort Moon** (Ind.)—Be a climber. Say "I am going to get there" and you will. You'll not live forever. Get somewhere with yourself and your surroundings before the final trumpet blast sounds. When you have climbed an inch, pull up the ladder, start one inch higher and climb again. With a scaling ladder six feet long a mountaineer might climb a cliff five thousand feet high. He needs only courage, determination and energy to do it. He climbs up six feet, gets a footing, places his ladder higher, climbs again, and thus rises steadily. Don't sit on the ladder and try to go up backwards. Face the task like a man and look ever upward.

There are some things that must be done in a hurry or not at all. Catching a flea is one of the best examples apropos of this. But as a rule it is safe to say the man or woman who works deliberately accomplishes the most. The deliberate worker is the thoughtful worker with whom the habit of system has become a second nature. Any one may cultivate it who will take the trouble to try; and the most unsystematic, spasmodic worker will realize with amazement how easy it is to get through with an allotted task in half the time it formerly required, by planning it all out before entering the office, workshop or kitchen.

To us busy people it is difficult to realize that summer has drawn to a close; how very short it has seemed. Is it true that we must now seriously consider the great problem of preparing for a Canadian winter. We love our balmy summers and we are sorry to see them pass but what is there to dread about our snappy, sparkling Canadian winters? They are also beautiful. They usher in the Christmas season that gladdens the hearts of so many. They stimulate good health and vigor in our people and they give mother earth a rest and help to prepare her soils to produce abundantly the next year.

### A Talk on Success

Jones sadly said to his helpmate, "I guess I'm not exactly a howling success. Though I keep toiling and plugging away down at the boiler-works day after day, sticking to business and going like Ned, I am but little, if any, ahead. When on each payday they pass me my cash, what with the prices of canned goods and hash, what with the money for clothing and rent, I've got a place for most every red cent. Often I wish I was old John D. Blank, having a billion of bones in the bank—then we could each have an automobile; we could have chicken instead of canned veal; you could dress up in the latest French gowns; I could set fire to my old hand-me-downs; we could move far from our humble abode, here in the middle of Poverty Road; we could chin up to the proud and the great. Anyone short on mazuma, I guess, hasn't much chance to be called a success." "Billy, you hum-mix," his partner came back, "your train of thought sure is on the wrong track; all these fine things do not matter two hoots—many who win 'em are pretty tough brutes; you're a success to the youngsters and me—we wouldn't trade you for any John D."

### Increasing The Profits of Dairying

By following a system of intelligent breeding, selection, care and feeding, many farmers in Canada have increased the annual production of their milking herds by at least 2,000 lbs. of milk per cow. If this were accomplished in all dairy herds in Canada the yearly revenue from them would be increased by about \$30,000,000 without adding to the

size of the herds. Even with greatly improved feeding, this desirable result could not be obtained unless a well organized system of cow testing is followed. Such an improvement is based on a study of the individual cow in the herd, the retention of only the good animals and the following of a system of generous feeding of economically produced foods.

While it is practicable for individual farmers to test their own cows it is infinitely easier and cheaper for them if some form of co-operation is adopted. This is clearly brought out in bulletin No. 33 of the Dairy and Cold Storage Commissioner's Branch entitled, "Cow Testing with Some Notes on the Sampling and Testing of Milk". This work, which is published for free distribution by the Publications Branch of the Department of Agriculture, Ottawa, explains clearly how cow testing associations are formed and worked as well as the benefits these are to those who take advantage of them.

### BORN.

At Ailes Craig, on Saturday, September 27th, 1913, to Mr. and Mrs. Robert D. Croft, a daughter—Elma Kathleen.

In Brooke, on Saturday, Oct. 4, to Mr. and Mrs. Edward Ironside, a son.

At the same time we are showing a big lot of short ends in CARPETS. This lot is marked 1-3 OFF for quick sale. Don't delay. Come and see and buy when you get ready.

Swift, Sons & Co. - Direct Importers

Friday to grant D. Senecal a sum of money to assist him in erecting and operating a basket factory was carried almost unanimously, only four votes being recorded against it.

Mr. and Mrs. John Sharon, Russell street, Sandwich, had an important addition to the family circle on Wednesday of last week. Triplets weighing five pounds each are "it". The family circle now numbers ten, and all are in perfect health.

Mr. Wm. Romph, of Bosanquet, while engaged in drawing timber over the cut bridge on Tuesday, for the repair of the bridge, received quite a shaking up when one end of the bridge gave way. He was thrown off the load to the bridge floor, and was hurt in the head. The bridge was undergoing repairs at the time. The end that gave way rested on the bank and did not go into the water, which is said to be about 20 feet deep in the centre of the stream.

### Plympton

Agnes M. McDougall, Plympton, is visiting with Margaret Cameron, Watford.

at 4 o'clock in the afternoon, the NORTH TWENTY-FOUR OF LOT NINETEEN ON WEST SIDE OF MAIN STREET in the Village of Watford, in the County of Lambton, together with and subject to certain rights of way over a stairway.

On the premises is erected a two-story brick store, occupied as a butcher shop and photographic gallery.

The lands will be offered for sale subject to existing leases and to a reserved bid.

TERMS—\$200.00 down and balance in two weeks from sale. For further particulars apply to

J. F. ELLIOT, Esq., COWAN & TOWERS, Auctioneers, Vendor's Solicitors, 225-231

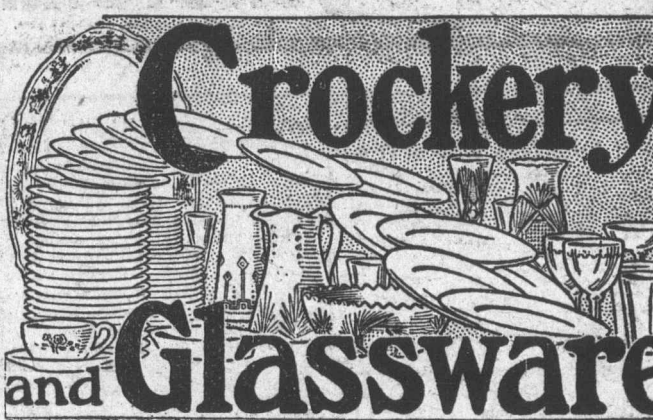

EXHIBIT BY C. E. CHILDS, 1913

This is not the only store that sells crockery and glassware in this state, but it the only one that sells reliable crockery and glassware.

It may be news to you that a cup and saucer made of the same material, and finished in the same way, may have two grades—"firsts" and "seconds." This is caused in the making, firing and handling of the cup and saucer. The cups and saucers that come out of the process best are "firsts" and the next are "seconds." It is the same with glassware. We carry the best only.

But when we offer you the best crockery and glassware at this store, it is the best. Inspect our stock, compare our prices with those of any other store—then look at the quality.

Toilet Sets.....	\$2.50	Tea Sets.....	\$3.00
Cups and Saucers....	90c doz.	Dinner Sets.....	\$7.00
Hand Painted China		Dinner Sets.....	\$18.00

## P. DODDS & SON

### THE INDUSTRIAL MORTGAGE & SAVINGS CO.

SARNIA, ONT.

Absolute security should be the first consideration when making an investment. On this ground the Industrial Mortgage & Savings Co. can appeal to the public for patronage as the Government by an Order-In-Council made it a legal depository for trust funds. Deposits and Debentures are the first claim upon the entire assets of the Company. Deposits of one dollar and upwards received and Debentures issued for one hundred dollars and upwards.

D. N. SINCLAIR, MANAGER
