

**When You Buy a New Car
LOOK AT THE BATTERY**

THE majority of Canadian-built automobiles have Prest-O-Lite as standard battery equipment. These manufacturers know that Prest-O-Lite Batteries give a steady flow of current to engine and lights, and an extra fund of reserve power when it is needed. The owner of a Prest-O-Lite Battery is sure of longer life from his battery, and of prompt, expert service anywhere in Canada. If your car is not now so equipped, be sure that your next battery is a Prest-O-Lite. A thousand Prest-O-Lite Service Stations in Canada are making storage batteries last longer and give maximum service.

ITEMS FROM FAR AND NEAR

Some Wise, Some Otherwise. Some Newsy, All Readable.

Canada exports to 44 different countries and has stepped from ninth to fourth place among the great exporting countries of the world.

We can marshal a fair army of excuses for almost any sin, except one. There is no defense for ingratitude. To fail to appreciate the kindness and sacrifice of others is beyond the expectancy of pardon.

Maryland Federation of Women's Clubs, representing a membership of 15,000, have placed themselves on record as endorsing a "boycott of sugar and sweets, except for necessities, until the price shall come down to normal." There has been a 100 per cent. increase in the price of sugar during the past six months.

Speaking of birthstones, here is a new list: For laundresses, the soap stone. For diplomats, the boundary stone. For architects, the corner stone. For cooks, the puddingstone. For taxi drivers, the milestone. For shoemakers, the cobblestone. For burglars, the keystone. For beauties, the peach stone. For most of us, the grindstone.

The United States Department of Agriculture has found, from a survey of ten thousand farms, that in the last year the agricultural population decreased by about half a million. There is a shortage of 12 per cent. of farm labor. The same is true of Canada. Labor will not work on the farms at the price offered, when city wages are so much higher.

Charged with the murder of Peter Starchuk, on a farm in Sandwich West Township on the night of April 8th, John Kolton, Hungarian, was committed for trial by P. M. Gundy in Windsor police court last week. When asked if he had anything to say, the accused replied that he did not wish to testify. There will be no assize sitting in Essex before the fall assizes and Kolton will be remanded in custody until then.

Deplorable conditions were exposed when Chas. Mott, Oakland township farmer, appeared in Police Court charged with cruelty to animals. High County Constable Fred Kerr told of finding dead chickens, a dead horse and a paralyzed calf strewn over his yard, while a team of horses being worked were so weak that they could hardly stand. The condition of the stable was indescribable. He was found guilty and given a week to better conditions.

Border Cities Star: The Windsor Board of Education has taken a forward step in the abolition of home work for the children. That home work, which means that children who spend all day in school must spend their evenings in arduous study, is an evil, has long been admitted. But it was deemed a necessary evil. Abolition of home work should also be a spur to the efficiency of our teachers. A teacher who gets behind in her schedule, when examination time approaches, is apt to give out a good deal of home work. Unable to do this, teachers will be apt to do better and more efficient work in the class rooms.

Recent reports received from points in the Prairie Provinces would seem to indicate that the movement of people towards the United States, which was reported to have reached considerable proportions early in the year, has practically ceased, and many of those who were lured south by prospects of high wages are returning to engage in the usual spring operations. In some cases it was evidently a case of far-away hills looking green, actual experience not being so satisfactory as was anticipated. In spite of the depression through which the country has passed, basic conditions are sound, and Western Canada is bound to share in the more prosperous days which, it is to be hoped, lie ahead of the Dominion.

Hon. Mr. Nixon, Provincial Secretary, is father of a Bill to amend the Municipal Act in several particulars, the chief of which is embodied in the following paragraph, which takes the place of a paragraph repealed: "The first meeting of every council, except a county council, shall be held on the second Monday in January of the year for which the council is elected, at eleven o'clock in the forenoon; and the first meeting of every county council shall be held on the fourth Tuesday of the same month at two o'clock in the afternoon, but the council of any county may, by by-law, provide that the first meeting shall be held at half-past seven in the evening of such Tuesday or at two o'clock in the afternoon or at half-past seven o'clock in the evening of the next preceding Monday."

SATISFIED MOTHERS

No other medicine gives the same satisfaction to mothers as do Baby's Own Tablets. They are equally good for the newborn babe or the growing child and are absolutely guaranteed to be free from opiates or other harmful drugs. They are a mild but thorough laxative and cannot possibly do harm—they always do good. Concerning them Mrs. Jos. Ache, Coteau Road, N.B., writes:—"I think that Baby's Own Tablets are a marvellous medicine for little ones. I gave them to my little girl with such good results that I now strongly recommend them to all mothers." The Tablets are sold by medicine dealers or by mail at 25 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The parents of a Jersey girl who won a beauty contest are fighting over her custody. In that case it seems to me some young man might step in and umpire the dispute by appropriating the object of contention.

How do you walk? Do you proceed in a straight line or zigzag from side to side? If you watch a number of pedestrians you will find that nine out of ten bear to the right, return to their proper course, and then start swerving to the right again. This is because our right leg is more fully developed and stronger than our left. A left-handed person usually swerves to the left in walking, for in this case the left side is the more powerful. If a man is slightly deaf in his left ear he will swerve to the left. If his other ear is affected he will go in the opposite direction. This is because the deaf stoop slightly on the side on which they can hear least. Short-sighted people will swerve to the side on which they have their worst eye. Even people who are perfectly well physically and whose bodies are evenly developed zigzag in their walk. This is because their thoughts wander and their legs have not sufficient guidance.

"Made in Canada" is a phrase now so familiar that it attracts little attention at home, however effective abroad, but it had to be started some time, and the man who started it as a business slogan passed away recently in the person of F. A. Ritchie, a manufacturer of coated papers in Toronto. When the firm started some 30 years ago there were warnings that such an enterprise could not compete with American products, but the trade-mark "Made in Canada" was adopted, and afterward became popular with manufacturers throughout the Dominion. These words were particularly in use during the war, when greater production and the patronage of home products were so keenly emphasized. Mr. Ritchie, who gave it birth, was modest in disposition and of a retiring nature, but the never was afraid to stand up for Canada, Canadian industry and Canadian products, even at a time, back in the early '90's, when the name of Canada did not figure nearly as largely or as humbly in world affairs or in the paper arena as it does today.

NERVOUS TORTURES
Irritation by Day and Sleeplessness at Night the Result.

There is no torture more intolerable than nervousness. The sufferer starts at every noise, is shaky and depressed. The least thing produces a feeling of irritation, and nights are often sleepless. Often although in a completely exhausted condition, the patient is unable to sit or lie still. The nerves are in this jaded condition, because they are being starved by poor, watery blood and to restore them to a normal condition the blood must be made rich, red and pure. For this purpose no other medicine can equal Dr. Williams' Pink Pills. They act directly upon the blood; they bring to it the elements necessary to enrich and purify it thus bringing new health and strength to run-down nerve worn people. There is no doubt about this; thousands have testified to the blood-improving, nerve-restoring qualities of these pills, among these is Mrs. Aubrey Goldwell, Melanson, N.S., who says:—"I was badly run down and my nerves were in a terrible condition. I would start at the least sound and often faint away. I could not sleep at night, and only those who have been in a similar condition can tell what I suffered. At my mother's request I began taking Dr. Williams' Pink Pills and after taking them for several months I am surprised at my present condition of good health. My nerves are as sound as ever; I can sleep well and eat well, and have no more fainting spells. I can only say that I cannot praise Dr. Williams' Pink Pills too much for what they have done for me."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
