Showing how the names of noteworthy engineers is being painted on the insignia of C. P. R. locomotives.

NO new policy undertaken of recent years by the C. P. R. has received such widespread expression of approval as that of naming passenger locomotives after the engineers, who by reason of their fine service or deeds of exceptional heroism have earned special distinction at the hands of their Company. If the engineers themselves are pleased, still more so is the general public, which realizes that an admirable system has been discovered for paying due tribute to a splendid race of men who have hitherto hid their lights under a bushel. The C. P. R. is displaying these names in no niggardly fashion. They are incorporated on the newly adopted insignia of the railway—a circular band enclosing a beaver mounted shield on which is painted a Maple Leaf. The name of the engineer is shown in letters of gold upon a blue ground, while the green leaf, the white shield and the brown beaver afford a color combination exceedingly striking and effective. This insignia is painted under the windows of the engineer's cab, the most conspicuous, and at the same time most appropriate position that could have been selected.

Jack Hartney, who runs the President's engine when the head of the great system leaves Montreal for the West, has such skill in starting a train that the passengers would not know it is in motion unless they looked out of the window.

Arthur Charlebois has been forty-two years in railway service, and comes of a family of engineers—his father, Pierre Charlebois, having been the eldest conductor in Canada when he died. The tradition is being kept up for he has a son a fireman on the C. P. R. to-day. Arthur Charlebois was one of the founders of the Brotherhood of Locomotive Engineers in Montreal. Tom Turner is well known and exceedingly popular at North Bay. He has been in railway life since 1882, when he worked with an extra gang on the Brockville, Ottawa and Canada Central Railways. In 1887 he was promoted to locomotive engineer, and in 1888 to run out of North Bay, where he is still running.

The following is the first list of engineers on Eastern Lines who have been selected for the honor of having their names painted on a locomotive: President's engine 2038, Jack Hartney. CANADIAN NEWSPAPER DIRECTORY

A. McKim, Ltd., of Montreal, Publishes a very Valuable Edition

That the press of Canada is in a particularly healthy condition, is shown by the 1918 Edition of the Canadian Newspaper Directory, just issued by A. McKim, Limited, Advertising Agency, of Montreal, Toronto, Winnipeg and London, Eng.

There are 1,490 publications of all kinds now being issued in Canada, as against 1,381 in 1917, an increase of 109. This number is made up of 135 dailies, 5 tri-weeklies, 41 semi-weeklies, 1018 weeklies, 8 bi-weeklies, 32 semi-monthlies, 228 monthlies, 1 bi-monthly, 20 quarterlies and 2 miscellaneous.

Since the firm of A. McKim, Limited, Canada's oldest Advertising Agency, issued its first Canadian newspaper Directory, 27 years ago, they have seen the birth of most of the publications listed therein, and are in a position to have accurate knowledge of the field in which they and the Canadian press have grown up. The present day condition of the publishing business of Canada, enables the Dominion to boast the largest reading public in the world in proportion to population.

Besides giving full details in regard to every newspaper and other publication issued in Canada, the McKim Directory shows in concise form the business possibilities of any section of the Dominion. Its Gazetteer contains a wealth of general information regarding every town and city, where a publication is issued, giving populations, county seats, railroads and waterways touching each place, telegraph, express and banking facilities. With the aid of its supplementary maps, it locates every newspaper town in Canada, and the descriptions are so written that these towns may readily be visualized by the reader in relation to the territory in which they are situated and the entire Dominion.

Never before was the need and value of up-to-date information about the Canadian market so essential, and the 1918 edition of the Canadian News-

paper Directory comes to us at a time when such facts as it contains are in great demand by the far-sighted business men of the country. The book itself is well bound, durable and neat. It is indispensable to the advertisers of Canada and is well suited to every office desk and business library in the Dominion.

236 VESSELS BUILT FOR U. S.
Total Steel and Wooden Ships 1,440,627 Tons

WASHINGTON, May 20—Exact figures on the progress of the merchant shipbuilding programme this year were disclosed today for the first time. They show that under direction of the Shipping Board there have been launched 236 steel and wooden vessels, with an aggregate tonnage of 1,440,627.

There are now operating 157 shipyards with 753 ways in use. There are 398 steel ways, 332 wooden ways, either completed or under construction; four concrete ways and 19 ways devoted to naval work.

The launchings of steel ships include 18 vessels with a total tonnage of 136,250, constructed under Government contract, and 183 with an aggregate tonnage of 1,195,877 obtained by requisition. The grand total of contracts and requisitioned steel ships already launched is 1,332,127 tons.

Already delivered are 138 steel vessels with a total tonnage of 977,371. Wooden ships launched number 35, with an approximate tonnage of 108,500.

Had ship's anchor fall on my knee and leg, and knee swelled up and for six days I could not move it or get help. I then started to use MINARD'S LINIMENT and two bottles cured me.
