REMOVING WRECKS IN BAY OF FUNDY

GLAD TO BE ABLE TO WORK

St. John, N. B.—The Marine and Fisheries Department has just completed the removal of several dangerous wrecks from the part of the Bay of Fundy under the control of the St. John district with the exception of one wreck, that the schooner Jennie T. Merriam, near Pettocticodac, all those which might constitute a menace to navigation have been cleared away.

The mast of the schooner Senator, which sank just outside of Chance Harbor, N. B., has been cut off leaving seven fathoms of water over the wreck at low tide.

The wrecks of the schooners Margaret and Flora, in the Point Wolfe Basin, Albert County, and the wreck of another schooner at Spencer's Island have been blown up and removed.

The schooner Able Keast, wrecked at East Cove, West Bay, near Parraboro, and beached there, was blown up to remove the danger of its floating out to sea and becoming a menace to navigation.

The wreck of the schooner Elsie May at Tow Rivers, has been cleared away.

The wreck buoy on the schooner Jennie T. Merriam, which was burned at the mouth of the Pettocticodac River, has been replaced and the Department is making preparations to have the wreck removed.

DIVORCES IN FRANCE

(London Daily Mirror)

It is not only in England that the war has left an aftermath of matrimonial discord. In France last year (says his Paris correspondent), according to figures just published, 32,479 divorces were granted, which works out at one divorce per 1,900 inhabitants. Divorce is not confined to members of the leisured classes, for 23,817 people applied for judicial assistance, corresponding to our Poor Person's Department.

FIRST SHIPMENT OF FRUIT THAT HAS BEEN GIVEN PRE-COOLING TREATMENT

The first Nova Scotia apples given the pre-cooling treatment are on the Atlantic en route to the United Kingdom. They were shipped on the steamer Manchester Regiment, which sailed early this morning, and included a variety of this treatment. This shipment was the first of several, which consisted of a canal, is an experiment, and if successful, it is expected the pre-cooling treatment will be adopted throughout the Annapolis Valley.

The first pre-cooling station in the Valley has been established at Waterville, King's County, by the Provincial and Federal Governments, and the apples shipped on the Manchester Regiment are the first to come from the warehouse, which at present only has a capacity of a thousand barrels. This plant was established following an investigation last year by Mr. Vroom, who visited various parts of the United States, where he inspected similar plants.

"This shipment of apples given the pre-cooling treatment is an experiment," said Mr. F. W. Bishop, President of the United Fruit Companies, who was in the city. "We have put aboard the Manchester Regiment apples given four different treatments under the pre-cooling system, and our men on the other side will watch the results. The plant at Waterville is only a small one, but if we find that the treatment adds to the quality of our fruit, other plants will likely be established.

"We did not think that the pre-cooling system was needed for Nova Scotia apples," continued Mr. Bishop. "as it is used principally in fruit-growing countries that have a warmer climate than Nova Scotia. However, the plant has been established and the experiment is being made solely for the purpose of ascertaining if it will keep our apples in better condition until they reach the British markets."

Asked regarding the prospects for a record export of apples this season, Mr. Bishop said that at present the markets were in a bad condition, but an early improvement was looked for. The first apples shipped were not dependent on the quality of the apples now being sent across to bring about an improvement of the markets. The bulk of the English apple crop is early fruit, which usually runs out in December, and it is then that the Nova Scotia apples are in good demand.

Commenting on the shipment of apples from Nova Scotia, Mr. Bishop stated that too much credit cannot be given to Farness Withy and Company, who were co-operating in every way with the apple growers in getting their fruit on the markets in good condition, and they were bringing their finest and fastest freighters into Halifax for apple shipments.—Halifax Chronicle.

De Wolfe's Candies Again!

Just received:

- Peanut Buttercups
- Cocoanut Buttercups
- Chicken Bones
- Peppermint-Wafers
- Peppermint Humbugs
- Lemon Drops
- Molasses Chips
- Delicious Acadia Cream Carmels.

REMINISCENCES OF BY-GONE DAYS

(Continued from Page Seven.)

Thousands have stated that they have spent large sums trying to obtain relief from stomach trouble and run-down condition, only to find that Tanlac proved the one medicine to bring the desired results. These facts were emphasized only the other day when Joseph Benedetto, well-known machinist of 182 Gratton, St. Halifax, N. S., said Tanlac did him more good than anything else he ever tried, although he spent over a hundred dollars on different remedies for his stomach.

"I got into mighty bad shape," he declared. "My food would sour on my stomach and cause gas so bad I was miserable for hours. I couldn't get a good night's sleep, even though I was always completely tired out at night, and it was all I could do to get up mornings and drag myself out to work. My appetite was gone and many a time I went out all without a bite of breakfast. I suffered all the while with constipation, too, and had headaches so bad I felt like the top of my head was coming off."

"But Tanlac and the Tanlac Pills put me back in fine shape and I always keep them on hand now. I can sleep sound again, feel brimful of energy and my stomach trouble is a thing of the past."

Tanlac is sold by all good druggists.

NO BOOM IN TRADE BUT PROSPECTS BRIGHTER

While general trade conditions do not appear to be due for any great spectacular boom in the near future, the report of the officials of the Canadian Manufacturers' Association who are closely in touch with the situation, is that prospects are considerably brighter than they were a year ago and that they are far ahead of the conditions of two years ago. So far as employment conditions go at present there is no cause for anyone to go about the country unemployed, provided, however, he is willing to do what work comes his way.

The one drawback so far as crops are concerned appears to be the fact that prices to the farmers are apt to be unsatisfactory, for though wheat may be over a dollar on the open market, the price quoted to the farmers for the freight rates is so low that they are considerably lower than the dollar mark. In this there is a reflex blow at trade in general for unless the farmer in the West is able to meet some of his great obligations, then but little can be done in the way of paying off the farm implement concerns, the banks, and all those organizations which have been financing the West to such a large degree.

Failure on the part of the farmer to pay off the largest of his obligations means that those organizations in their turn will not be able to branch out as they would wish.

A TRICK IN STAMPS

(Toronto Daily Star)

A Paris engraver who has been forging rare stamps and selling them at high prices has been discovered as a result of repeated complaints from purchasers. To the average man on the street the wonder is, not that such a forger should escape so long, but that it should be possible to detect him. Stamp collectors, however, know that even genuine stamps are in some cases differentiated from each other only by a tiny line or two, due to a new die. Rare stamps must be able to stand microscopic comparison.

until it has emerged into and expanded into the beautiful river, freighted with the augmented blessing for man's use and enjoyment.

Recalling the words of the poet: "We are living, we are dwelling. In a grand and awful time. In age, on ages telling. To be living is sublime."

PORTLAND BUYERS BEING SWAMPED WITH MACKEREL

The oldest waterfreighter cannot recall the period when tinker mackerel have been brought into Portland in such immense quantities as at the present time, the market having been fairly glutted with them the past few days, the dealers all having their hands full in taking care of them. One firm handled about 40,000 pounds one day, while their receipts for two days footed up almost 600 barrels. Another's receipts for two days were nearly as heavy, while many boat loads were also taken out at other plants. There is a great low of good size and very nice, and hundreds of barrels are being shipped from Portland daily to Boston and New York.

The supply is getting ahead of the demand, however, and the dealers are only paying three cents a pound for the fish, but even at that price the fishermen are making good money.

SAVED BABY'S LIFE

Mrs. Alfred Tranchemontagne, St. Michel des Saints, Que., writes:—"Baby's Own Tablets are an excellent medicine. They recommended them to me and I can highly recommend them to all mothers." Mrs. Tranchemontagne's experience is that of thousands of other mothers who have tested the worth of Baby's Own Tablets. The Tablets are a sure and safe medicine for little ones and never fail to regulate the bowels and stomach, thus relieving all the minor ills from which children suffer. They are sold by medicine dealers, or by mail, at 25c. a box, from The Dr. Williams' Medicine Co., Brockville, Ont.

So genuinely good is its reputation in our Home Provinces here in the East, folks who like good Tea are wont to say: "We use RED ROSE TEA."

RED ROSE TEA is good tea

The fine quality of RED ROSE COFFEE will please particular people.

METHODIST GENERAL CONFERENCE

The General Conference, the highest body of the Methodist Church in Canada, meets once every four years, and is made up of representatives of each annual Conference throughout Canada.

The representation to this body is on the basis of one in every twelve. Nova Scotia therefore has the privilege of sending twelve Ministers to represent the work in this important legislative body, and for every minister delegated one layman is elected. Bridgetown is therefore well favored in being able to have two lay representatives.

The General Conference this time, presided over by the Rev. Dr. Chown, will have many important issues before it for disposal. One of the most important of these will be the further steps necessary to be taken in the consummating of the Union of the Presbyterian, Congregational and Methodist Churches, which now seems inevitable. It is not generally known that throughout Canada there are almost twice as many Union charges as there are Presbyterian charges in the Maritime Provinces, or well over eleven hundred Union Churches.

The following are some interesting figures from the Canadian Methodist Year Book for 1922, just to hand:— Full membership 406,933, an increase for the year of 6,144. Number of Ministers and Probates 2,538. Givings for Missions, \$1,016,118. Givings for other outside purposes, \$1,324,000. Value of Church property, \$38,782,000. Value of Parsonages, \$6,865,223.

Other interesting facts that transpire from the report are:— This General Conference embraces Newfoundland and Bermuda. 83.3 per cent. of the National Campaign money subscribed has been paid, representing \$3,982,002. That \$3,525,000 of this has been disbursed as follows:— Missionary Society, \$1,410,000. Superannuation Fund, \$1,410,000. Educational Society, \$705,000. From the "Forward" by Dr. Chown we quote:

"Roger Babson, interpreter of Jesus in business life, said, about a month ago, that 'The need of the hour is not more factories or more material, not more railroads, or steamships, not more armies or navies, but rather more education based in the teachings of Jesus. The prosperity of our country depends on the motives and purposes of the people. These motives and purposes are directed only in the right course through religion. In spite of their imperfection, this is why I believe in our churches, and why I am an optimist in their future. Statistics of every nation indicate that true religion is the power necessary for the development of its resources and for its successful continuation. The challenge goes out to every man to support his church, to take an active part in the religious life of his community, to live according to the simple principles upon which this country was founded 300 years ago.'

Prof. DeWolf, Rev. Hiesler, a deacon Watson and Rev. Thomas Beaton present were invited to the form.

A short intermission was given the judging of the fancy work, tables, drawing, essays, writing, and flower display, also to outside sports for the boys and under the direction of Rev. Mr. Lloyd Shaffner.

The meeting being called to Rev. Mr. Thomas, of Granville, gave a very inspiring and practical address on education and expressed his great pleasure in being present on this occasion.

Then came the "Spelling Bee" of the most interesting features of the afternoon. Karsdale school out (it being the largest school), and Stoney Beach on the other. Covert acted as captain for Karsdale and Vera Heisler for Karsdale Stoney Beach, Karsdale winning.

This in turn was followed by singing centes in Grades IV, V and a recitation by Marjorie. Prof. DeWolf was to next turn and was listened to with a great deal of interest, as he told his own connection with the Normal O. He complimented the children their work exhibited. Meeting adjourned to meet at 7:30 p.m.

Evening Session

Meeting opened 7:30 p.m. by "Land of Our Birth" by a deacon and extended congratulations "Spelling Bee" and stated the caution should not be spent. Trustees should be interested spoke of the difficulties that are have. Parents ought not to criticize their teachers.

SCHOOL FAIR HELD LOWER GRANVILLE

Excellent Exhibits—Addresses—Prize Winners

Dr. J. B. Hall And Others—Prize Winners

A school fair was held in the Lower Granville in the afternoon evening of Oct. 2nd under the auspices of the Women's Institute, and schools participated, viz. Karsdale and Stoney Beach. A large number of people, including parents, present.

Afternoon Session.

The exercises of the afternoon with a school parade, comprising school children of the three present. Each school was accompanied by teachers, and the foremost two of group carried a banner with the motto of the school inscribed. They were "When Borne by the red, white and blue" marched into the hall and the front seats.

Precisely at 2 p.m. Miss D. E. F. Hott, president of the local branch of the Women's Institute, called the meeting to order, and after a few introductory remarks called on Dr. Hall upon the exhibition.

Dr. Hall needed no introduction, he was a former teacher of the Institute and an old acquaintance of many of the school children. He was a red rooster for Granville. A day of pleasant reminiscences of by-gone days for him as he looked back over fifty years he saw the dawn of a new era for community. He said he knew a thing of its natural wealth, industry and possibilities. But no wealth compare with children. He spoke of the defects of the rural community and concluded his remarks by stating that the problem of the boy or girl the greatest problem of the present age.

Prof. DeWolf, Rev. Hiesler, a deacon Watson and Rev. Thomas Beaton present were invited to the form.

A short intermission was given the judging of the fancy work, tables, drawing, essays, writing, and flower display, also to outside sports for the boys and under the direction of Rev. Mr. Lloyd Shaffner.
