The preservation of three weeks after they begin to take you.' the salmon was a public benefit; the shad at St. John. Sawdust and set

had less vim in taking the fly, and was a poorer color in the flesh than our local salmon.

Dr. McKenna stated his opinion that there were such fine pools on the Gaspereaux River, it would rank as a first-class sportmen's river if protected from destructions, destructive nets and traps, spearing, etc. It has greatly deteriorated, and steps were urgently needed to make it than Mr. William Withrow agrees with the transport of the said that sawdust spread for thirty miles from the Diocese, however, thought differently, and did not hesitate to proclaim his opinion. On one occasion the Archdeacon was the guest of the Bishop, and preached at the Cathedral evening service. Having returned to the Episcopal Palace he was gazing from the library window when

tive nets and traps, spearing, etc. It has greatly deteriorated, and steps were urgently needed to make it the river it would naturally be, superior to other salmon rivers. The season begins as early as May 10th, and continues into June—indeed to the last of June.

Mr. R. W. Starr gave a history of the fisheries in the Cornwallis estuary from 1825, and said that the shad question involved the Hudson and the Annapolis Rivers. The Dominion Government should secure the conjoint action of the United States if the shad supply was ever to be restored.

Mr. Ainsley Bishop stated that the privacy of the fisheries and traps and St. Mary's Bay. There we got 670 shad by using 100 fathoms of net, whereas the day we left 3 shad were caught on the privacy of the fisher was no poor his catch this season begins as pearly deteriorated, and steps level we and steps level we and smoking a cigar, as he thought in safe privacy. "Ah. Bishop," said the Archideacon, as he opened the window, "so I have against the Archideacon, as he opened the window, "so I have against to the Episcopal Palace he was gazing from the library window when he shad of the library window when he shad of the salmon, cod and bass. He used drift nets which forty years ago were 50 to 75 fathoms (50 fathoms on the rope) though many fishermen still use short the state of for shad of the Archideacon, as he opened the window, "so I have agust you burning incense to the devil." "Perhaps you have," retortients in Minas Basin, Coheunia Bay and St. Mary's Bay. In 1837 shad failed, and he went to St. Mary's Bay. There we got 670 shad by using 100 fathoms of net, whereas the day we left 3 shad were caught here. The fish made a short stay on did not exceed thirty shad. They

run was so poor his catch this seas-on did not exceed thirty shad. They weighed 90 pounds dressed, but five years ago shad of 5 pounds and 6 pounds were commoner. He had known of 9 pound shad occasionally in former years. So many nets are now fished it is a wonder that any shad at all get past, and this season

weight, but in June from the first the tenth, vast quantities of fry, inch in length, can be seen on the spawning grounds. There appear to be two runs in the Nictaux River. viz., a spring run and a summer run. The male shad evidently migrate separately, for out of 101 shal taken by the hatchery officers on one occasion. 99 were males on their way down from the spawning beds up the the main points given in the evidence, and Professor Prince closed the sittings in Windsor.

# The Famous Pedestrian

"I was a martyr to catarrh of the head, throat and stomach. I was so bad the doctors feared consumption. I tried many physicians and medicines. A friend suggested Psychine. I tried it and it was the only thing ever did me any good. I am now perfectly well. It is the greatest remedy the world has ever known. I do not need it for my health now but I use it as a strengthener for my walking matches. I owe much of my physical endurance to Psychine."

Psychine is the greatest cure for catarrh of the head, throat or stomach in the world. It is a wonderful tonic down from the spawning beds up the river.

Several other witnesses confirmed the main points given in the cvidence, and Professor Prince closed the sittings in Windsor.

In the world. It is a wonderful tonic and strengthener of run down system, acting directly on all the vital organs, giving youthful vigor and strength to the system. At all druggists 50c. and \$1, or Dr. T. A. Slocum, Limited, Toronto.
