

We were so glad Mr. Hartley was here to open the church at Hawley settlement: he will now be able to tell the W.A. of the great benefit the grant of the Extra-cent-a-day money was to us for the church."

Extracts from Miss Paterson's letter to Diocesan President:—

"I think I told you that on the 20th of September I opened the Home by taking in three pupils, my little adopted girl, and a matron, two more pupils are knocking at the door; the Home is larger, dare we turn them away? Mr. Kennedy insists upon supporting one of these girls, but as he is already bearing the expense of two young men, who are being prepared for the ministry, to do this he must deny himself and family many things really necessary to them. He would not like to know I have mentioned these facts, as even his own family do not know all the good he does. All these Japanese girls have to be taught to sew, to cook and to wash, so that wherever their work may take them they may be able to help themselves; it is therefore necessary for me to have a Japanese kitchen. The matron will instruct in the things I have mentioned. I will take English and the organ. Mr. Kennedy, Mr. Kakusan and O Ta San, Theology; and O Kaganan San, Secular Studies in Japanese and Chinese. So the girls will be kept pretty busy. The Japanese Gov. has doubled the postage on all foreign matter—10 cents instead of 5 cents for each letter, for instance; but I shall be too busy to write much, and shall hope that my Canadian friends will not, therefore, forget me. The Home will accommodate six girls; the \$110 promised from Canada will do little more than support two girls, but the third girl is so very anxious, and so are her parents, that she should come to me, that I dare not refuse; for in the future she may prove a most earnest, capable worker in the Lord's vineyard."

From Mrs. Hinchliffe, St. Peter's Mission, Peigan Reserve, Nov. 28rd, to the Diocesan Treasurer:—

"At last we are settled in the much talked of new Home, after a most uncomfortable summer. It is dreadful work moving such a large establishment, and it took us two or three months to do it. The furnaces arrived just a week ago, and the man is putting them in now. I hope they will work all right. The building is well built and finished off. It is plastered inside and panelled with wood down stairs. Altogether it is a decided improvement on the old one. We have twenty-four boys and nine girls now, and expect more after treaty. We are hoping that it may turn out a success. We have struggled against many disadvantages and have come out all right so far. It really does seem as though it were intended the work should go on in spite of all. The rancher, mentioned by Mr. Tims, has come forward several times before and helped us over difficulties, and but for him, we never would have got our new Home. He is very wealthy and
