**KID, SURGEONS', SILK, MUSTARD, ADHESIVE, ISINGLASS, CORN,
 BUNION AND COURT PLASTERS.**

THE CENTENNIAL JURORS' ESTIMATE

OF OUR MANUFACTURES, TAKEN FROM THEIR REPORT.

"The labours and inventions of this firm entitle them to the highest and only award, over all English, French, and American competitors, for originality and improvements in their branch of Pharmaceutical Chemistry."

Purified Rubber is a neutral element, specially valuable as a vehicle for plasters, on account of its great elasticity and flexibility.

Its well-known resistance to moisture and atmosphere influences, undoubtedly preserves its incorporated medication from evaporation or decomposition; scientifically combined with adhesive agents, they can be applied without heat or moisture, which is a great convenience in surgery and the pharmacy. Porous Medicinal Plasters gives increased local action.

Seabury and Johnson's Official Plasters have been critically examined, and found to be honestly prepared from reliable materials, and fully entitled to the voluntary professional endorsements with which their goods are favoured. They manufacture in the most approved and practical form the most extensive line of plasters ever produced. The members of this firm are practical pharmacists and chemists, fully comprehending professional necessities, and have, through their creative talent, produced many appliances for which every practitioner throughout the civilized world has much to be truly grateful for.

The jurors' award is substantially:

"ORIGINALITY. The successful application of rubber as a base for all medicinal and mechanical plasters
RELIABILITY and general excellence of manufactures."

Dr. WM. ROTH, Surgeon-General, Prussian Army.

C. B. WHITE, M.D., New Orleans.

J. H. THOMPSON, A.M., M.D., Washington, D.C.

ERNST FLEISCHL M.D. Austria.

SALICYLIC ACID.

The safe and positive properties of this newly-discovered Antiseptic is endorsed by the most eminent of European Surgeons and Physicians. It is invaluable in Surgery. The overwhelming evidence of its merits are such as to compel us, as progressive manufacturers, to introduce a sufficient quantity in all of our Rubber and Isinglass Plasters that are used in Surgery. We believe practitioners will appreciate this improvement. We have also incorporated it in our Court, Corn and Bunion Plasters.

THE TRADE SUPPLIED BY

NORTHROP & LYMAN, Toronto.
 EVANS, MERCER & CO., Montreal.
 KERRY, WATSON & CO., "
