with

HOT WATER OR STEAM.

"It takes a heap of love to make a
woman happy in a cold house."

GLANDULAR

TUMORS

OF THE NECK.

This cut represents Mr. John Hurrill, of Brockton, who had three glandular tumors of the neck, which Dr. McCully removed while the parts were under the influence of cocaine, injected hypodermically. Mr. Hurrill made a most excellent recovery, and is now rejoicing in perfect freedom from a dangerous malady that would have ended his life. We are constantly treating such cases. Some we cure by local application, some we cure by injection of medicines into the substance of the tumor, and others we remove with the knife. We have had another series of cases these last two weeks from the mill of the medical gods. They were there, many of them, for weeks, and none of them were benefited by the medical pill grinders. The blackness of darkness of ignorance in that institution reigns supreme. There, stupidity is a virtue, ignorance no crime, death as common as thistle blossoms in August, and over the porch of the mill should be carved these solemn words: "Abandon hope all ye who enter here." This week a little girl was snatched from the mill by her sister. This child is a cripple, the result of malpractice of an eastern city physician. It has been for months in the hands of these medical cranks, and the sister's courage saved the child from mutilation and the loss of a limb. Next week we have the promise of this case, and inside of a month from the time we get it the girl will walk. Then we hope to send her back to the mill as a walking ad., so that others may be warned against mutilation by these stupid sawbones under whose sway are perpetrated acts that if investigated would result in a popular demand for a general cleaning out of men too profoundly ignorant to deal with human life. Remember, Dr. McCully treats chronic diseases only, and must again beg of the public not to expect him to make regular calls in ANY CASE OF ACUTE DISEASE. Our time is too precious for such work, and we most positively decline. Consultation at office free. Consultation after 7 p. m. at patient's home, three dollars to five dollars. Dr. McCully will not leave his office in day time for any work except operations. Remember our field is chronic disease and deformities, and we grow and thrive on the ignorance of the medical profession. Dr. McCully gives special attention to all diseases of women, the errors of youth, and the follies and excesses of maturer years. Address,

S. E. McCULLY, M.D.,

283 Jarvis Street, TORONTO.
