A GIRL SIX DAYS WITHOUT FOOD .- An extraordinary discovery was made on Tuesday week at Burntisland, on the north shore of the Frith of Forth A straw rick was being removed when, in the centre of it, a girl, who at first was thought to be dead, was found, but subsequently she was discovered to be unconscious, and in a fearfully emaciated condition. Restoratives were applied, and yesterday she was able to state that she is an orphan, eighteen years of age, lately cm-ployed at Perth Dye Works. She started to tramp for Edinburgh with only a few coppers in her pocket, and reached Burntisland on Wednesday of last week. Having spent her last halfpenny on food, she was unable to eross the ferry, and at night she crept into the straw rick, where she lay without food or wrink for six days and nights.

Shortly after mine colock two more bodies were found. These were burned to a grap and their identity destroyed. The children are scattered all over the city and -until collected it will be impossible to identify the bodies of those, who perished. The police found many orphassion the streets half frozen and took them to the station house. Citizens also took there of some of r houses!' Citizens also took charge of some of them: The sisters are unwilling to be inter-viewed, but it is plain that their list of inmates who have been rescued does not come up to the full numbers. This is explained by the statement that some of the children may have been cared for in private houses, and that the chances are that they will turn up, The fact is that last night only one child was

round at the southeast corner of the drying room, burned beyond recognition, and from the cramped position in which they lay it is believed a coil of stean pipes fell on them and prevented their escape. This made a total of beieven bodies recovered. This afternoon it was learned that Mrs. McCaren and Mrs. room this morning are supposed to be one of these two ladies. This would swell the list of victims to 13. This morning the burned buildings were like a ruined palace of ice. Huge icicles hung from the little that remained of the roof. The walls that stood were coated with a sheet of ice, and the surrounding grounds are like an immense skating park. Of the infirmary building, in which the fire broke out, two walls were eft, with a towering chimney, all threatening to fall with each fresh gust of the wind that blew fiercely across the unpretected grounds. The least damaged part of the building was at the southeast corner, and on the ground floor of this lay the bodies. The water dripped through the board ceiling, and the floor was a sheet of ico two inches thick. From the number of children in the infirmary yesterday, and the number of those known to be saved, it is believed the firemen have recovered all the remains, but the Brooklyn Eagle this afternoon combats this The Eagle says that when the rubbish that chokes up the basement of the landry building can be removed, the chances are that the loss of life will be increased. The bodies thus far discovered were on the surface The fact remains that there are children missing from the hospital ward, of which Sister Mary Josephine was in charge, who cronot account

Carroll, after the close of the inspection of the 'remains, came to the conclusion that only ten bodies have been found. A closer examination corroborated this view. No more bodies have been found up to dark, when the searching closed. It has been ascertained that the body of a woman found in the ruins is that of a widow named Mrs. heard every day duties, or a man of letters toiling Mary McCarren, of New York, who had over your midnight work, Hop Bitters will been to visit her fatherless boy, after leaving a younger child at the maternity home, say. ing she would call for the latter in the even-If you are suffering from over-eating or ing. Fair to choice were quoted at 13c, poor to medium at 12c, and inferior and bulls at 9c to 101c. The sheep trade has been dull and without new feature. At Liverpool to day there were ample offerings and a slow demand. Prices were nominally unchanged. Best sheep were quoted at 13c, against 13c on December 15, 14c on December 8, 14c on December 1, 15c on November 24, 14c on November 17, 14c on November, 10, and 15c on November 3 Secondary ambilities wave dull and de 3. Secondary qualities were dull and de-pressed at 11c to 12c, merinos at 10gc to 21c, and inferior and rams. at. Sc to 91c.

Dressed beef in Liverpool is cabled lower at 41d, while mutton is unchanged at 41d.

MONTREAL, Dec. 23. The trade, in ship-ping cattle on spot has been inactive, and the market featureless, prices being nominally quoted at 44c to 5c per lb: live weight. The exports from Boston last week were 497 head. Live hogs were in light supply and steady, at 50 per lb. for good lots, At Viger mar-ket there was a good supply of but-chers' cattle, about 425 head, being offered. The quantity, too, averaged better, and good ( to choice heifers and steers could be bought more easily, sales of such being made at 5c to 51c per 1b., live weight. One or two extra choice animals, however, sold higher. Some very fair lots sold at 4c to 44c, and there was a large supply of inferior and common quali-ties at 2c to 3c per 1b.

### MONTREAL PRODUCE EXCHANGE.

Peas are changing hands at 60c per 60 lbs. along the line, and there is a small movement in oats at 31c. Wheat is inactive but steady, with rye and barley nominal. We appropriate inscription. Addresses were also quote :-- Canada red winter wheat, 83 to S4c ; white winter, 82c to 83c; Canada spring, 82c to S3c; peas, 70c to 71c; cata, 31c; ryc, 57c to 58c; barley, 50c to 60c; and corn, 55c. There was no perceptible change in the market for flour, but millers' prices are above quotations. Consequently there is no pressure to sell, which gives a steady tone to values. Business in a local way continues of fair proportions, but no large lots are selling. Flour-Patents, \$3.80 to 4.50; superior extra, \$3.70 to 3.75; extra superfine, \$3.55 to 3.60; fancy, \$3.45; spring extra, \$3.35 to 3.40; superfine, \$3.20 to 3.25; Can-ada atrong bakers', \$3.70 to 3.80; American strong bakers', \$4.00 to 4.25 : fine, \$2.90 to 3.00; middlings, \$2.70 to 2.80; pollarda, \$2.50 to 2.60. Dressed hogs have inproved in value under a better de-mand and light receipts. To-day there was a fairly active demand, and sales of car lots were made at \$5.70 to \$5.80 per 100 lbs. The quality of the hogs is much superior to last year, chiefly owing to the abundance and cheapness of feed, which has enabled farmers to send their hogs to market in much better condition. The hog crop this year is a large one, and large receipts are ex-pected after the new year. Ashes.— Trading in pots to day was light on an un-changed market, although the drift of opinion still favours lower prices. We quote : \$3.60 te \$3.65 per 100 lbs. Game-Venison was in fair supply and steady, sales being made at 5c to 6c for carcases, and '7c to 9c per lb for saddles. Partridges were easy at 45c per gair. A cloud of smoke rushing into the apartment warned her to hirry, and she got all the children she could see in the big domnitory out and down stairs under the charge of Sister Anthony.

Mary Josephine said she would run back to the third floor, next to the mansard roof, to see if any boys were in the wards. The next that was seen of the brave Sister was when she threw up a window and, standing upon the sill, Liung to the cornice work of the manard roof. The flames were then roaring, all around ker. A resolution was then read and adopted and the formation of a union resolved upon and appointing Sir John president, W. R. Meredith vice president, and a central com-mittee of leading gentlemen from all parts of the Dominion.

Resolutions were submitted by the committee appointed yesterday laying down the platform of the conservative party and embracing the National policy, Canadian Pacific rail-way, development of the canal system, freedom from taxation of tea and coffee, reduction of public debt, condemning the independence movement and all annexation proclivities and expressing gratification at the settlement of the boundary question, and condemning the action of the local govern ment re the bribery case.

At noon the City Council met, when S John was presented by Mayor Boswell with civic address. Sir John briefly replied, ex pressing his thanks. The members were then introduced by the Mayor.

The banquet was the most distinguished and brilliant affair of the kind ever held here. The galleries were crowded with ladies and those delegates who were unable to get tickets for the banquet. Banners hung from every conceivable point bearing appropriate inscriptions.

Sir John Macdonald, in reply to the toast of "Our Guest," spoke for nearly two hours, being frequently interrupted by continued

applause. "The Ministry" was responded to by Sir Hector Langevin and Sir David Macpherson, "The Senate" by Sir Alex. Campbell, and "The House of Commons" by Hon. Mr. Chapleau, Mr. Thos. White and Mr. Dalton McCarthy, M.P.'s.
