T. C. BOVILLE, Deputy Minister of Finance.

ONTARIO FISH PRICES

The fish being supplied by the Ontario government is not sufficient to cope with the demand. There is, therefore, a tendency for the price to be raised above the price fixed by the government. The government is determined to keep the price at 15 cents, and if overcharging is proved, will cancel the dealer's right to handle the fish. It has, moreover, been decided to refuse further sales, at wholesale prices, to the big restaurants, as it is held that the householder has first call upon the supply.

The Australian government is arranging for the sale of next year's exportable surplus of butter to the Imperial government.

A CONTINENTAL AIR SERVICE

Assistant Postmaster-General Praeger, in a statement recently to a Baltimore correspondent, predicted big developments for the aerial mail service, including a five-cent mail service by airplane; flights between Chicago and other middle west cities and eastern points, and finally transcontinental flights; Washington to Chicago flights in from seven to nine hours; establishment of flights in sections not accessible by trains; aerial routes where circuitous approaches due to canyons, lakes and other natural objects make ordinary mail deliveries unusually slow; final interlocking of the entire country after the war with airplane mail service for letters and packages.
