

NOTES ON METHODOLOGY

The Statistics in this Fourth Annual Report were prepared by the Export and Import Permits Bureau of the Department of Foreign Affairs and International Trade. The following should be noted regarding the statistical tables:

- The dollar values shown on export permits are the authorized limits of potential exports and do not necessarily reflect actual export values. Therefore, in order to verify what shipments were actually made against each Group 2 (Munitions) permit, all permit holders were required to submit this information on a quarterly basis. The annual report is based on that information.
- "Military goods" are defined as goods specifically designed or adapted for military use and controlled under Group 2 (Munitions) of the Export Control List.
- Figures reflect information received as of the date of this report. Late entries will be reflected in future annual reports.
