

8. Each Contracting Party shall have the right, within sixty (60) days following the serving of a notice, to have its aeronautical authorities conduct an assessment in the territory of the other Contracting Party of the security measures being carried out, or planned to be carried out, by aircraft operators in respect of flights arriving from, or departing to the territory of the first Contracting Party. The administrative arrangements, including the setting of specific dates for the conduct of the assessments, shall be mutually determined between the aeronautical authorities of both Contracting Parties and applied without delay to ensure they are conducted expeditiously.

9. When an incident or threat of an incident of unlawful seizure of civil aircraft or other unlawful acts against the safety of such aircraft, their passengers and crew members, airports or air navigation facilities occurs, the Contracting Parties shall assist each other by facilitating communications and taking other appropriate measures intended to resolve rapidly and safely the incident or threat thereof.

10. When a Contracting Party has reasonable grounds to believe that the other Contracting Party has failed to comply with the provisions of this Article, it may request consultations. The consultations shall start within fifteen (15) days of receipt of a request. Failure to reach a satisfactory outcome within fifteen (15) days from the start of consultations, or such other period as may be accepted by both Contracting Parties, may constitute grounds for the Contracting Party that requested the consultations to withhold, revoke, suspend or impose conditions on the authorizations of the designated airlines of the other Contracting Party. When justified by an emergency, or to prevent further non-compliance with the provisions of this Article, the Contracting Party that believes that the other Contracting Party has failed to comply with the provisions of this Article may take interim action at any time.
