

Structures.  
Mechanical Engineering.

Experimental Medicine.  
Highway Engineering.

The requirements for the degree are as follows:-

(1) Candidates must hold the degree of B.Sc., with honours or B.A., M.D., with honours from McGill University, or its equivalent.

(2) The course of study followed by the candidates shall be of an advanced character, being the equivalent of that required for the degree of M.A., and shall lie in the domain of pure or applied science. It may be selected from any one or (at the discretion of the head of the department in which the major subject is) two subjects included in the list given above. This course of study, which must be of a comprehensive character, must have been previously submitted to the head of the department and to the Divisional Committee concerned, and have received their approval in writing. The candidate shall pass an examination in each subject of his course.

(3) The candidate shall also present a thesis on some subject connected with his course of study. The title of the thesis must have been previously submitted to the head of the department and to the Divisional Committee concerned, and have received their approval in writing. The thesis must be in some measure a contribution to knowledge and must also be written in good literary style.

(4) The thesis must be in the hands of the Dean of the Faculty of Graduate Studies and Research, on or before, April 28th, if the candidate wishes to present himself for the degree at the Convocation in May, except in the case of theses involving experimental work, when the time will be extended to May 12th. No thesis received after these dates will be accepted.

Theses for the Fall Convocation must be presented before September 3rd.

#### REGULATIONS FOR THE DEGREE OF MASTER OF SCIENCE IN AGRICULTURE (M.S.A.).

Instruction in the Faculty of Graduate Studies and Research, leading to the degree of M.S.A., is provided in the following departments of study at Macdonald College, (Faculty of Agriculture).

Agronomy.  
Agricultural Bacteriology.  
Agricultural Chemistry.  
Entomology.  
Plant Pathology.

The requirements for the degree are as follows:-

(1) Candidates for this degree ~~should~~ <sup>must</sup> hold a B.S.A. degree with at least second rank honours from McGill, or its equivalent.

(2) Candidates must take one year of resident graduate study at Macdonald College, Faculty of Agriculture, McGill University.

(3) One or two subjects may be taken.

(4) When two subjects are taken, one of them shall be designated as the major subject and special attention shall be paid to it. It must be a subject which the candidate has already studied in his undergraduate course, and the work required in it will represent an attainment in knowledge far in advance of that required for the B.S.A. degree.

(5) The course of study selected by the student must receive the approval, in writing, of the heads of the departments concerned and also of the Divisional Committee concerned.

(6) The candidate shall also present a thesis on some topic connected with his major subject. The title of his thesis must have been previously submitted to the Divisional Committee concerned, and the head of the department concerned, and have received their approval in writing. The thesis must be a contribution to knowledge and must also be written in good literary style.

The thesis must be in the hands of the Dean of the Faculty of Graduate studies and Research, on or before, April 28th, if the candidate wishes to present himself for the degree at the Convocation in May. If the course involves laboratory work, the thesis must be submitted before May 12th.
