Most of the business in the American section was in Canadian Pacific, U. S. Steel, Southern Rallway and Southern Pacific, The closing was quiet and firm.

Net losses in the speculative favorites ran from two to four points, yhile "war specialties" suffered in greater degree. The effect of today's selling, which savored more than a little of urgent liquitation, was to reduce by one-half some of the more extensive gains of the past six weeks.

Today's weakness came after an sarly period of inactivity and irregularity, in which the only striking features were the strength of Sethlehem Steel and Amalgamated Copper, for which there were well-defined reasons, and the weakness of Reading and some other investment shares, which lacked explanation. Seiling attained its widest proportions in the final hour, the turnover then exceeding the turaling of the three preceding hours. Closing prices were at near lowest of the day, with a weak undertone.
