Repudiated Evidence.

He contradicted also the evidence he gave in the police court, accusing Ner-lich, reiterating the statement that what he said at that time was not true, be cause he said he did not consider him self bound by the oath sworn on the Rible. Another signed statement obtained by the police was also repudi ated by Zirzow, who demanded of the grown prosecutor where he get it. He admitted that Mr. Nerica had told him that the police were watching him and his house. Detective Maurer followed Zirzow on the stand, denying his charges that influence had been used to obtain statements against

When the trial opened yesterday norning, I. F. Hellmuth, K.C., acting for Nerlich, who, being this time treason, occupied a seat in the dock objected to the form of the indictment. He contended that it was taken under the English act and not under the Canadian criminal code, as should be. After the judge and coun sel had held a private consultation, it was directed by Justice Sutherland that the form of the indictment should be changed to one of three counts: 1 assisting Zirzow; 2, giving information, or, 3, trading with the enemy.
Mr. Hellmuth thereupon objected

his client's being tried on the last two counts, contending that the presiding judge at the first trial had found that there was no evidence against Nerich on either of them. Nerlich was then arraigned on the first count, the one charging him with assisting Zir zow, and the jury was empanelled, two being challenged for the crown and none by the defence

Hoped to Reach Germany. County Crown Attorney Greer made the opening address to the jury, in which he read the letter Zirzow's sister had sent him, advising him to go to the United States in the hope of reaching Germany. Crown Counsel Mikel intimated that he did not propose to call Rev. Dr. Hoffman, J. Henry Peters or Otto Hoppe, whose names appeared as crown witnesses on the appeared as crown witnesses on the back of the indictment. To this Mr. Hellmuth objected as being unprecedented and inconsistent with the dignity of the court, it being his evident desire to have them testify, because they had all sworn at the first trial that Zirzow had declared to them that he did not intend to return to Germany. he did not intend to return to Germany. His lordship ruled that it was the duty of the crown to produce the the duty of the crown to produce the witnesses, but he could not compel the crown counsel to examine them, Mr. Mikel thereupon called Rev. Mr. Hoffman, and with the apparent intention of complying with the form of the court's ruling, he asked him if he lived in Toronto, whereat Mr. Hellmuth objected vigorously again.

Manufacturers Believe Canada Should Have Broad National Railway Policy to Be Dealt With Irrrespective of Party.

"Canada should have a broad national railway policy. It is too big a problem for party politics; it should be dealt with irrespective of party. The railways of Canada are built by speculators who have met excessive capital charges by means of high freight rates."

CON

esting of the particular section of the part

This statement by R. D. Fairbairn before the Canadian Manufacturers' Association yesterday afternoon met with approval. The application of the railways to increase their freight rates was considered the most important question before the members.

In his presidential address E. G.
Henderson stated: "We have reasons for believing that railway corporafor believing that railway corporations, like industrial coroporations,
sometimes make bad investments in
building new lines, anticipating a
volume of business that does not materialize. When that occurs with an

the railways not do the same, instead of raising their charges so as to make the good carry the bad?

The Public Pays.

"We believe that railways just at present are suffering more from a lack of business than from unremunerative rates," said S. R. Parsons in the report of the transportation committee.

A great question which confronts Canada in the removal of the coming Systematically Made.

Canada in the removal of the coming wheat crop was brought up by C. R. Watts. He stated that there would be a crop of around 200,000,000 bushels would be for export. "With the present increased ocean freight rates," said Mr. Watts, "shipowners, by moving such a quantity of grain, would get additional profits of \$15.000,000. Why should steamship owners pocket these enormous profits which should go to the producers. "The only remedy, he said, was to requisition ships for the conveyance of wheat to Great Britain and the allies."

Sayer, a professional rider from New York, who hit him, was practising, and in passing, confusion resulted and Roberts stepped in front of the machine.

The board of control vesterday recommendation was given which the charge against the city resulted to the family moved to the sunnyside district. He culisted in Lindsay, where he was employed by the Bank of Montreal.
