

Expanded Metal can be cut with any size of strand for special orders, but experience has made following standard for 10 guage sheets.

No. 1.— $3/16$ " strand .177 Sec. Area

No. 2.— $9/32$ " " .265 " "

No. 3.— $3/8$ " " .354 " "

The stock guages of sheets carried are 14, 10, and 6 guage. Stock lengths 8', 10', 14', 16'.

Any heavier guage steel up to 4 guage can be cut and expanded, but over 6 guage is special, not carried in stock. Any required increase sectional area is obtained by increasing width of strand.

Stock sizes of Expanded Metal sheets run 8', 10', 14', 16', in length (long way of mesh). Sheets can be cut to any size not exceeding 16' in length, but lengths, not stock, are charged for at next higher stock lengths.

In giving measurement for Expanded Metal sheets always take long way of mesh for lengths of sheets, and across mesh for width of sheets.

Prices cannot be listed in the ordinary way, as same vary according to quantity and stock required.

Quotations cheerfully given no matter how small the order.
