## IN OUR KITCHENS

The Idea of Household Patriotism Wrong From Health Viewpoint.

Public Health Will Suffer if Poor Substitutes Are Used.

BY MARY SLIPPER.

Are the people of Toronto, as a whole, as well fed as they were in the year 1914? In the opintion of A. H. Burnett of the public health dapartment they are not. The city has not the number of relief cases to deal regardless of the ultimate value of with as it had four years ago, and these things to her family. Perhaps want and destitution prevalent at the food controller has seen the result if it is true that the people are not that time is now almost extinct. There of this himself and is now trying to as well fed as formerly that is a mat-

"The woman thou gavest me," says man, "is the keeper of the health and strength of myse.f and family." This! is assolutely true, and as the woman fulfils her auty so the country must by "The people are not well fed," says

bservation and believe that he knows what he is talking about. Food conservation has been the pet theme of the food controller for six months. The women have been told to save, economize, to do "her bit" for the empire by saving. The women responded and loyally endeavored to carry out the injunction. Each woman working in her own separate kitchen flearu the call, and each one answered as she interpreted it. This was to be expecsed, because instructions as to how to save wisely were not forth-

coming at once, so the woman made a personal matter of it. They stopped buying things that were high-priced,

essential to life and ordinary comfort This cry to economize was applied chasen. It depends largely upon the personally, and all began to think it kind of woman who makes the choice patriotic to have cheaper things to as to the future well-being of the eat and to wear, to make over year's gowns and wear last year's hats -all to help win the war. Good Food Necessary.

vigorous to resist the trials imposed the chimate and to have that healthy body which is theirs by right pork and all wheat products—she should not substitute things which have less food value; the substitutes should have equal value. The trouble eating race, and have been for generations. Many people cannot eat fish. What are these people to do? substitute, and herein lies the danger. The mass of people do not yet understand what is meant by conservation of foodstuffs as asked by the Iood confro ler. If the food wanted by the food controller was removed from the market perhaps the trouble have ended there.

Of Public Concern.

## TIME SCHEDULE IS **CAUSE OF DELAYS**

Alderman Gibbons Says New Canadians must eat ruel-providing foods so that they may be strong and Arrangement Partly Responsible for Poor Service.

"The people are not well fed," says of birth. Cheap food is not this kind of fuel provider. If the housewife cherrical and wide opportunity for characters and believe that he knows the knows that he knows that he knows that he knows the knows that he kno car service at the east and west limits of the Toronto Street Railway lines, stated that the trouble is that the substitutes are not familiar a the Scarboro road limits was in to us all. We are a beef and wheatbrought into effect Dec. 1. This schedule was so formed that no time for stop-overs a. either end were included. In the practical working out of each round, stop-overs are necesary at the terminals. This simply meant that if a rig or a Riverdale train or other obstruction held up traffic for three or more minutes, that delay entailed would double the work and increased delay upon the crew of the car if it was to pick up all passengers en route. Now this increased delay made two necessities optional if the sched-ule speed was to be maintained: Either the car must pass by many address before the men's association menace to public health. Feeple not address before the men's association menace to public health. Feeple not address before the men's association menace to public health.
