## SCORES ARE KILLED IN TRAIN WRECK

Collision on Brooklyn Rapid  
Transit in Cut Takes  
Terrible Toll.

### OVER HUNDRED HURT

Train in Charge of Green  
Motorman, as Result of  
Strike on Road.

New York, Nov. 1.—Between 75 and 100 men and women were killed and probably double that number injured in a rear-end collision tonight between two Brooklyn rapid transit trains in the cut near the Prospect Park station on the Brighton Beach line. The crash occurred when the train ahead, said to have been in charge of a "green" motorman, jumped the track at a switch and another train, running in the same direction, plunged into the rear cars.

The tragedy marked the first day of a strike called by the company's motormen to enforce the reinstatement of 29 discharged members of the Brotherhood of Locomotive Engineers as ordered by the national war labor board.

Officials of the company professed three hours after the accident to have no definite information as to its cause. They said no reports had been made to them by members of the train crew.

District Attorney Lewis of King's County declared all the officials of the Brooklyn Rapid Transit Company and every person connected in any way with the accident has been ordered placed under arrest.

Cars Took Fire. Immediately after the crash the wrecked cars burst into flames, adding to the terror of those who had escaped injury and increasing the peril of those pinned in the wreckage. Rescue work was retarded by the fact that the crash occurred in a deep cut. It was difficult for relief workers or survivors to clamber up and down the steep concrete walls of what is known as the Malbone Street "Tunnel."

The injured and dead were carried up ladders taken from fire apparatus. More than 100 members of the Women's Motor Corps of America responded with their cars to the calls for help. All kinds of vehicles were pressed into service to carry the dead and injured to hospitals and morgues.

The trains were packed with workers in Manhattan and with shoppers who had been detained on the New York side of the river by the crush in the Brooklyn bridge station resulting from the reduced train service. Many of those on board were children. Survivors of the crash crawled from the wreckage and ran thru the tunnel, screaming and weeping, unmindful of the danger from the live third rails which bordered the tracks.

At 1 o'clock more than 100 bodies had been recovered from the wrecked train.

## COUNCIL AUTOCRACY UNEQUAL TO TASK

Financial Times Says Parlia-  
ment Should Deal With  
Reconstruction.

Montreal, Nov. 1.—Under the caption "Peace at Hand; Summon House of Commons at Once" The Montreal Financial Times will register editorially in tomorrow's issue a strong protest against the leaving of gigantic problems of reconstruction "to an order-in-council autocracy."

The editorial will say in part: "Peace is at hand. It will involve the entire and immediate readjustment of the whole economic life of Canada."

"Parliament should be summoned immediately. The work of readjustment must not be left to a secret cabinet and a regime of orders-in-council. The entire government party, and not a mere handful of office holders, must be engaged in the task of devising that policy and selecting the men and machinery to carry it out; and an efficient opposition can make as valuable a contribution to the work, both positive and negative, as the government party can."

"Nor is it possible that Sir Robert Borden can continue to act in the dual roles of head of the Canadian Government for home administration and minister plenipotentiary to Great Britain, for the re-organization of the British Empire. One or the other of these tasks he must hand over to someone else."

Vast Expenditures Coming. "Vast expenditures will have to be undertaken by the Government of Canada, not for the one purpose of success in war, as to which the advice of experts is usually obtainable, but for the purpose of promoting trade actively, securing a gradual restoration of ordinary peace time conditions and preventing any violent disturbance in the economic fabric. No trained body of expert opinion is available for guidance in this task, and the country is certainly not prepared to leave it to the sole decision of the cabinet without any opportunity for full and free discussion by the representatives of the whole country."

## OR UNITED STATES KING GERMAN COLONIES

London, Nov. 1.—The Spectator, in an article discussing the disposition of German colonies, opposes the idea of handing them under international control, because, it says, internationalism was tried in the Congo, with results none could desire to see repeated. The Spectator argues that the people of Great Britain and her colonies would be delighted to see the United States take over and protect as large a part of Germany's "former colonies as the United States could be induced to accept."

## TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens  
So Naturally Nobody  
Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that it does beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## KING CONGRATULATES VICTORS OVER TURKS

Sends Messages to Marshall and  
Allenby and Awards Latter  
Grand Cross of the Bath.

London, Nov. 1.—King George has sent the following telegram to Lieut.-General Sir W. R. Marshall, commander of the British forces in Mesopotamia:

"I am delighted to hear that you have finished the campaign in Mesopotamia by the capture of the entire Turkish force on the Tigris with its commander. In congratulating you and all ranks on this success I wish to record my grateful appreciation of the part played by the Mesopotamian Expeditionary Force in the complete capitulation of the Turkish army."

To General E. H. H. Allenby, commander of the British forces in Palestine, the King has sent the following message: "I wish to express my admiration for the spirit and endurance of the troops under your command, who, regardless of fatigue and hardships, have so pressed the retreating Turkish columns as to overcome all resistance. Their efforts have been deservedly rewarded by the complete surrender of the Turkish forces. This is a glorious and memorable achievement and on behalf of your grateful fellow countrymen I thank you and all ranks of the Egyptian expeditionary forces. In recognition of your eminent services I have much pleasure in promoting you to be a Knight of the Grand Cross of the Most Honorable Order of the Bath."

## NEED IS IMPERATIVE FOR COAL CONSERVATION

Amount Allotted to Canada is  
Million Tons Lower Than  
First Arranged for.

Ottawa, Nov. 1.—That there is imperative need of conservation as regards the use of anthracite coal in Canada was stated today by Mr. C. A. McGrath, fuel controller. A despatch from Washington, which was published recently in the Canadian newspapers, has to some extent been misinterpreted in that it has created the impression that there would be plenty of hard coal available.

Unfortunately, however, this is not the case. Whilst the statistics of shipments from the United States are approximately correct as stated in the despatch, it is necessary to emphasize the fact that the total tonnage, which has been allotted to Canada, still remains about one million tons lower than had originally been arranged for.

## Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right  
with the system full  
of poisons.

Millions of people bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body, which if not eliminated every day become food for the millions of bacteria which infest the bowels. The quick result is poisons and toxins, which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get their feeling "right" are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little, but is sufficient to make anyone a real crank on the subject of internal sanitation.

"For your To-morrow they gave their To-day"

(Inscribed on a cross in Flanders)

And we who live in tranquillity amid all the comforts of peace and plenty, knowing little of sacrifice, nothing at all of fear of death or violence—are we worthy of the sacrifices those crosses in Flanders mutely remind us of?

Are we doing our duty to our noble dead—those gallant, high-souled boys who interposed their bodies against the assault upon civilization by brutalized might?

Are we living, thinking and acting as people for whom great things are being done, tremendous sacrifices made? Are we accepting in a proper spirit of humility the

bloody sacrifices and the agonies of the battlefields; the sorrows and heart aches of Canadian mothers, wives and sisters whose loved ones lie beneath the poppies in Flanders?

Do we realize that we, each one of us, as individuals have a personal share and interest in the issue for which our boys fight, bleed and die in France.

If we do realize this, then our duty is clear—a duty to ourselves, our country, our glorious fighters, and our heroic dead—to help by every means in our power to bring Victory for our boys in battle.

of the Dominion of Canada

65

ly been arranged for, the reduction being practically one-fourth and being due to demands in the United States owing to increased war activities there. In this respect the circumstances are unchanged, and in the words of Dr. Garfield, fuel administrator for the United States, "continued and loyal co-operation from the public in fuel conservation, is necessary."

"The public must remember," said Mr. McGrath, "that we are passing thru a great world-crisis and that if this coming winter should be anything like as severe as last winter, there will be great suffering unless every one is extremely careful in the use of fuel. Soft coal and wood should be used as far

as possible, so as to conserve our limited supply of anthracite coal."

Mr. McGrath returned to Ottawa yesterday from Montreal, where he held a conference with Messrs. R. Home Smith, E. L. Cousins and H. M. Marler, fuel administrators for the Provinces of Ontario and Quebec respectively.
