ORDER BY GEN. CURRIE ON CHRISTMAS DAY

Ottawa, Dec. 27.—A cable from the overseas military authorities to the director of public information here states that a special order of the day addressed to all ranks of the Canadian corps was issued on Christmas Day by Lieut.-Gen. Sir Arthur Currie, the corps commander. The message reads:
"I wish a very happy Christmas to all ranks of the Canadian corps. Christmas in each year since 1914 brought a message of hope, but the hearts of our people at home were heavy and full of forebodings. We on the front fields of battle could only harden our purpose to keep on fighting until Christianity and civilization were vindicated and re-established. And now we have reached our goal. The foe is vanquished, the powers of darkness are defeated. We can this year celebrate with joy the anniversary of the birth of Christ, the prince of peace. 'The message to our people in Canada is: 'Be happy this Christmas. We have won. We will soon be home. From the great beyond our fallen comrades—ever present in our hearts—bid us all to be happy. Christ is born again.'"
Elect Harper for Alderman Ward 3.

ULTRA-RADICALS QUESTION WRIGHT

Seamen's Union Leader Addresses Meeting at Labor Temple.

Once again the ultra-radicals of the labor movement in Toronto were present in force when Peter Wright last night at the Labor Temple addressed a crowded meeting upon the German type of mind and the atrocities which led the British Seamen's Union to adopt its present drastic policy toward the Hun. More than a dozen questions, many of them speeches in the making, were asked by men and women from every part of the hall, one woman asking Mr. Wright why he delayed in addressing the workmen ("the rising giants of the world") until the close of his fourth week in Toronto. In this connection Arthur Conn, president of the Trades and Labor Council, pointed out that a letter had been received from Mr. Wright asking the privilege of addressing a meeting at the Labor Temple and that its consideration had been delayed through the uproars prevailing at the council session of that period. One man who sneered at Mr. Wright's references to the Bolshevik movement received a rather startling rebuke at the speaker's hands. "Young fellow," said Mr. Wright with emphasis, "let me warn you. If you are not careful I shall deal with you up here on the dais, and any others one at a time." Silence then prevailed. Fred Bancroft moved a vote of thanks, seconded by David Carey, W. C. Hagen being too late in his endeavors in this respect, and Mr. Wright was cheered to the echo. William Varley, Fred Bancroft and Dave Carey were largely instrumental in preserving the best of order. Corporal Varley as chairman establishing and maintaining a limit to the question period.

Hun Psychology.
The psychology of the Hun was peculiar, said the speaker, and as a pugilist and wrestler he had had every opportunity of experiencing its vagaries. On one occasion he had administered a sound drubbing to a husky bully, during a voyage to Sydney. At the end of the trip the Hun sailor took advantage of Wright being asleep to smash him over the head with a belaying pin. Touching upon German methods, the speaker stated that prior to the war police commissions invariably censured speeches and agenda of trades union meetings. A voice from the audience informed him that they did the same thing in Canada. "Then," replied the speaker, "the fault lies at the door of your own ignorance. Here you have the privilege of the ballot. Do you use it? I want to witness the era when the producer shall have a fair opportunity to exist, where there will

be equal opportunity for every working man's child, subject, of course, to his own intelligence and sense of application to his duties."

Asking the Universities To Produce Research Workers

Ottawa, Dec. 27.—Negotiations with Canadian universities with a view to greatly increasing the facilities and the number of students in the applied science faculties have been begun by the council for scientific and industrial research. A committee of the council conferred on Friday and Saturday of last week with representatives of the governing bodies of Toronto and McGill Universities, asking that prompt steps be taken to provide for the pressing requirements of the allied forces of science and industry. At present Canada produces from her own universities only a half-dozen or so men each year with the necessary advanced scientific training and experience fitting them for research work.

FLU INCREASES AT WINNIPEG.

Winnipeg Dec. 27.—Fifteen deaths and 151 new cases of Spanish influenza were reported to the local health authorities today. Since the outbreak of the epidemic in this city, 12,687 civilians have been stricken with the disease, 844 of whom died. The percentage of deaths among those who suffered with the malady is 6.
