

PRINTING BUREAU BILL
RE OUTSIDE JOB PRICES

Minister of Justice Introduces a Measure That Meets With Mr. Puttee's Objections

Ottawa, June 8.—(Special.)—Hon. Charles A. Fitzpatrick, in the House today, explained the bill amending the Public Printing and Stationery. One of the clauses in the act provides that printing and stationery for the inter-colonial railway may be done outside of the printing bureau, providing the cost does not exceed the rates. This clause has been in force since 1893, but the Auditor-General not long ago found that the certificate for outside printing did not satisfy the statute. The Justice Department upheld him, and the present amendment overcomes the difficulty by providing that outside printing shall be done at customary and fair commercial rates for similar work or supplies in similar quantities.

Mr. Fitzpatrick was not able to state the difference between Bureau and outside prices, neither could he say what proportion goes to each.

Mr. Puttee objects. A clause empowering the superintendent of printing to employ apprentices, journeymen workmen, skilled hands, or others, with the approval of the Minister, met with objection from Mr. Puttee of Winnipeg. He argued that the superintendent should not be subject to the authority of the Minister. Mr. Fitzpatrick replied that there must be some responsible officer in the printing bureau, and it was necessary that the power of the superintendent should be qualified. This did not satisfy the labor member for Winnipeg, who stated that under present conditions none of the officials at the Bureau can be independent. The clause passed without amendment.

Mr. Puttee also objected to the clause providing that employees in the Bureau shall be paid as at present, and any increase shall be on the basis of the principle established in 1893. He insisted that some machinery should be created to ascertain what the rate is in Toronto and Montreal, and to see whether the basis should be the current average rate or the current minimum rate. This question should be left to the fair wage officer. The rate in Toronto and Montreal were continually changing and would change with the future.

Mr. Tarte said that it would be a mistake to bring in an outside party for such purposes. Everything should be arranged between the employer and the employee. In Montreal, where the principle was recognized, the most amicable relations existed between employer and employee. The King's Printer should be allowed to deal with his men.

Mr. Fitzpatrick pointed out that higher wages prevailed in the printing Bureau than in Toronto or Montreal. Employees in the Bureau were also particularly fortunate in the matter of holidays. The clause passed unamended.

CROWN TAILORING CO. WINS.
Secures Contract for Firemen's Clothing—City Notes.

After months of needless delay the firemen are now to have their new summer clothing and it will be made by the Crown Tailoring Company, the firm which had the original contract, and which was objected to by the opposition forces. The Board of Control opened the supplies for the firemen and out of five tenders the lowest was the Crown Company at \$12.45 per suit. They will now have the work and will not allow that the men may have their clothing as soon as possible.

Massey Hall Exemptions.
The application of the Massey estate for exemption on Massey Hall was also considered. It was understood when the hall was built that the taxes were to be remitted and legislation to this effect was applied for. Mr. Massey, however, did not attend before the committee of the legislature and the application was thrown out. The board refused to give notice to the Massey trustees, asking in exchange for exemption that they should make some representation on the trustee board. This was doubtless be accepted to and the exemption granted.

Circus Wants Refund.
Manager of the travelling Bros. Company Circus, applied to the Mayor for a refund of the \$500 license fee for the second day. He says his application that they never pay more than \$300 in other cities in the United States, and that the fee here is too high.

Cattle Market Decreases.
The returns for the month of May at the Cattle Market are nearly \$500 less than for May, 1902. This is accounted for by the large number of American cattle going through the market on Saturday last there were 100 head of American cattle passed than Toronto. Another reason is that younger cattle are prevailing in the market this season.

Credit Goes to Mayor.
Dr. J. O. Orr, manager of the Industrial Fair, says progress made in the completion of the new Manufacturers' Building is due to the strenuous efforts of Mayor Eglarhart in getting the contract along when he seemed inclined to lose it.

Added to Exchequer.
The city's exchequer was increased to yesterday by two substantial sums. The License Commissioners forwarded a cheque for \$17,000 license for the fair, and the County of York \$3000, the county's share of the administration of justice.

Street Railway Men Ask for More.
Quebec, June 8.—(Special.)—The motormen of the Q. R. L. & P. Co., have asked for an increase of from 35 to 37 1/2 cents an hour, amounting to 25c a day each.

Jim Dumps received a note one day From one who loves a joke to play. It read: "I send by freight a ton Of concentrated life and fun!" One box of "Force" was sent by him. "That fills the bill," laughed "Sunny Jim."

The Ready-to-Serve Cereal

brings health; good nature follows.
Sweet, crisp flakes of wheat and malt.

Editorial Force.
The proprietor of the Press does not care to argue to breakfast, and in fact does not do so, without a good-sized dish of "Force," and regards the best cereal food that has yet been put on the market.
J. W. Mearns, Publisher, Iowa State Press, Iowa City, Iowa.

FAMILY OF ISAAC BROCK.
Descendants of Famous Hero Hold Church Living in Channel Islands.

It will interest many to read that on Easter Sunday a noteworthy centenary was celebrated, the date when the rectory of St. Peter in the Wood, Gurnsey, Channel Islands, England, will have been held by the Brock family in direct succession from Father Coxon for 100 years. The first rector of the family was born in Canada, and a son of Sir Isaac Brock of Queenston Heights fame. A table recording the family already contains in its parish schools a replica in oil of the battle of Queenston Heights. The following facts, bearing on the centenary, will be of special interest.

Brock's Son Given Living.
On the death of the Rev. Francis Emile de St. Dalmaz, in 1893, the Rev. Thomas Brock, M.A., of Oriel College, Oxford, son of Isaac Brock, and born near Quebec, was presented to the rectory of St. Pierre du Bois cum Lihon by Lord Grey of Guernsey, and on April 19 of the same year, was admitted to the rectory by the Very Reverend D. F. Durand, M.A., Dean of Guernsey, by virtue of the authority of the Right Hon. and Right Rev. Brousselle North, Lord Bishop of Winchester.

Held in Direct Succession.
Mr. Brock held the living for 48 years, and was succeeded in 1941 by his son, the Rev. Corey Brock, M.A., of Trinity College, Cambridge, who was presented thereto by Major-General John Ben, Lieutenant-governor of Guernsey. Then Mr. Brock, in 1941, was appointed Dean of Guernsey, and held the living for 41 years, and on his death, in 1982, was succeeded by his son, the Rev. H. Walter Brock, M.A., of Orléans, Hampshire, on his appointment by Sir Edward Gascoyne Bulwer, to the rectory of St. Pierre du Bois, and still holds the benefice. It will thus be seen that the rectory has been held by members of the Brock family in direct succession from father to son for 100 years.

SCHOOL CHILDREN AND ART.
Annual Exhibition by Pupils Shows Some Clever Work.

The Central League of School Art was opened yesterday in the Granite Ring before a large crowd. Addressed by the Mayor, the Rev. W. H. Gates, Rev. Armstrong Black, Rev. W. W. Weeks and Rev. Andrew Geggis. Musical and fancy drills were performed by the Palmerton-avenue and Jesse Ketchum schools.

One of the things noticed in the exhibit is the gradual improvement in the drawing from the queer looking but well meant drawings from the kindergarten classes to the real works of art done by the Fifth Book classes. One of these is especially beautiful, a valley with a river, and a castle, by Edna Jenkins of Palmerton-avenue school, aged 14.

The fifth book classes start with charcoal and colored crayon drawings of toys, one thing noticeable being that the color is not used in the drawing, but in the side view, which is the natural position for a child to draw an object. Design work is started in the class, but repetition. In the Senior I, the design work is advanced, and the pupils are encouraged to do wall papers for dolls' houses, and some of these are quite neat; they also draw germinating seeds in various states of growth, and pulling them up every few days. In the Senior classes this work goes on and it is noticeable that in no class has a junior class beaten a senior, the work of some of them is considered equal.

The fifth book classes' work is very creditable, and shows a really artistic touch. Another thing that is encouraging is the ink brush sketches. The manual training exhibit is very good, showing some good wood carving by the pupils, but noticeable among it is the work of Miss Grey of Palmerton-avenue school, showing that she has a very steady hand. The writing exhibit is very good, and shows plainly the need of the writing master appointed recently by the Public School Board. The Perth-avenue school has a good exhibit of natural history, showing the different strata of the soil for two feet, and the fossils which are found in it, and she installed it into the minds of the children so that they have some fine weaving as an exhibit.

Special Excursion to Baltimore. Tickets only \$11.00 from suspension bridge to Baltimore and return. Tickets good June 15, 16 and 17. Good for return until June 22. Good for dinner at Baltimore. Return for further particulars call at Lehigh Valley Station, 33 Yonge-street, or Trade Building.

Field Battery to Go to Deseronto. The 2nd Field Battery, which is now at the Armouries yesterday afternoon when the members of the 10th Field Battery were getting everything in shape for their departure to Deseronto.

Handy Army Service Corps. This year for the first time a new addition to the militia will go into camp. They are the Army Service Corps. Capt. Langton will be in command and will instruct his men in the duties of the corps. As well as the corps of transport devolves upon this corps to a great extent. Members are required to know the construction of all equipment and understand how to mend and repair the same, as well as the accomplishments of building a bridge, shoeing a horse and mending a saddle. All these requirements will of course not be expected this year, but Capt. Langton will begin duties in a small way, and for this year will look after the officers only.

Staff for Niagara Camp. The staff at camp will be—Commanding Officer, Col. W. D. Otter, C.B., A.D.C., assistant adjutant-general, Lieut.-Col. J. Galloway, deputy adjutant-general, Major E. F. Gunther, Q.O.R., supply officer, Capt. Langton, military instructor, Capt. R. K. Barker, Q.O.R., orderly officer, Capt. H. Harvey, Q.O.R., adjutant-general, Lieut.-Col. J. M. Delamater, R.O., and Lieut.-Col. J. Mason, R.O., brigade-major, Capt. Wyatt.

The staff will consist of—Reveille, 5.30 a.m.; rations (meat), 7 a.m.; breakfast, 7 a.m.; drill, forenoon (one-half hour interval at 10.15 a.m.); 9 a.m. till noon; dinner, 12.30 p.m.; afternoon drill (half hour interval at 2.15 p.m.); 5 p.m.; ration, bread and groceries, 5.30 p.m.; supply, 6 p.m.

Then Mr. Brock, in 1941, was appointed Dean of Guernsey, and held the living for 41 years, and on his death, in 1982, was succeeded by his son, the Rev. H. Walter Brock, M.A., of Orléans, Hampshire, on his appointment by Sir Edward Gascoyne Bulwer, to the rectory of St. Pierre du Bois, and still holds the benefice. It will thus be seen that the rectory has been held by members of the Brock family in direct succession from father to son for 100 years.

SCHOOL CHILDREN AND ART.
Annual Exhibition by Pupils Shows Some Clever Work.

The Central League of School Art was opened yesterday in the Granite Ring before a large crowd. Addressed by the Mayor, the Rev. W. H. Gates, Rev. Armstrong Black, Rev. W. W. Weeks and Rev. Andrew Geggis. Musical and fancy drills were performed by the Palmerton-avenue and Jesse Ketchum schools.

One of the things noticed in the exhibit is the gradual improvement in the drawing from the queer looking but well meant drawings from the kindergarten classes to the real works of art done by the Fifth Book classes. One of these is especially beautiful, a valley with a river, and a castle, by Edna Jenkins of Palmerton-avenue school, aged 14.

The fifth book classes start with charcoal and colored crayon drawings of toys, one thing noticeable being that the color is not used in the drawing, but in the side view, which is the natural position for a child to draw an object. Design work is started in the class, but repetition. In the Senior I, the design work is advanced, and the pupils are encouraged to do wall papers for dolls' houses, and some of these are quite neat; they also draw germinating seeds in various states of growth, and pulling them up every few days. In the Senior classes this work goes on and it is noticeable that in no class has a junior class beaten a senior, the work of some of them is considered equal.

The fifth book classes' work is very creditable, and shows a really artistic touch. Another thing that is encouraging is the ink brush sketches. The manual training exhibit is very good, showing some good wood carving by the pupils, but noticeable among it is the work of Miss Grey of Palmerton-avenue school, showing that she has a very steady hand. The writing exhibit is very good, and shows plainly the need of the writing master appointed recently by the Public School Board. The Perth-avenue school has a good exhibit of natural history, showing the different strata of the soil for two feet, and the fossils which are found in it, and she installed it into the minds of the children so that they have some fine weaving as an exhibit.

Special Excursion to Baltimore. Tickets only \$11.00 from suspension bridge to Baltimore and return. Tickets good June 15, 16 and 17. Good for return until June 22. Good for dinner at Baltimore. Return for further particulars call at Lehigh Valley Station, 33 Yonge-street, or Trade Building.

Field Battery to Go to Deseronto. The 2nd Field Battery, which is now at the Armouries yesterday afternoon when the members of the 10th Field Battery were getting everything in shape for their departure to Deseronto.

Handy Army Service Corps. This year for the first time a new addition to the militia will go into camp. They are the Army Service Corps. Capt. Langton will be in command and will instruct his men in the duties of the corps. As well as the corps of transport devolves upon this corps to a great extent. Members are required to know the construction of all equipment and understand how to mend and repair the same, as well as the accomplishments of building a bridge, shoeing a horse and mending a saddle. All these requirements will of course not be expected this year, but Capt. Langton will begin duties in a small way, and for this year will look after the officers only.

Staff for Niagara Camp. The staff at camp will be—Commanding Officer, Col. W. D. Otter, C.B., A.D.C., assistant adjutant-general, Lieut.-Col. J. Galloway, deputy adjutant-general, Major E. F. Gunther, Q.O.R., supply officer, Capt. Langton, military instructor, Capt. R. K. Barker, Q.O.R., orderly officer, Capt. H. Harvey, Q.O.R., adjutant-general, Lieut.-Col. J. M. Delamater, R.O., and Lieut.-
