Your Council would note, that at the request of the Horticultural Association of Montreal, two papers have been prepared by members of this Society for publication in the Annual Report of the Association for 1877. One of these, entitled "The Importance of Entomology to Fruit Growers," is by the President, the other, "On Borers," is by Mr. Caulfield. These, it is intended, will be followed by others in future Reports. Your Council trusts that the intercourse between the Association and the Society will continue, and prove beneficial to both.

Your Council would mention that one of our members, Mr. Couper, has left Montreal on a trip to the North Shore of the Gulf of St. Lawrence, for the purpose of studying the preparatory stages of the Northern butterflies, and procuring their eggs and larvæ. Your Council feel satisfied that the members will wish him every success in this effort to advance Canadian Entomology.

The compilation of the Montreal catalogue is still progressing, many species new to this locality having been added during the year. The number on the list is now between 800 and 900.

The whole respectfully submitted.

GEO. JNO. BOWLES, President.

The Report, having been read, was received and adopted, after which the election of officers for the ensuing year took place with the following result:—President, G. J. Bowles; Vice-President, Robert Jack; Secretary-Treasurer, G. B. Pearson, jr; Curator, G. H. Bowles, Council, M. Kollmar, H. H. Lyman, F. B. Caulfield.

After a very pleasant meeting, the members adjourned.
