NO COAL AVAILABLE FOR MUNICIPAL YARD IN CITY THIS YEAR

Wood Will Be All Utilities Commission Will Sell.

London's municipal coal yard is destired to be a wood yard only this year. As a coal yard it will be the same big failure it was in 1917. The secret of the vhole thing is that there is not enough coal to put into the yard to warrant the name of coal yard. As there is 500 the name of coal yard. As there is 500 cords of wood in the would-be coal yard it car, safely be called a wood yard. The council last year handed the coal yard over to the utilities commission to make it a success. The people voted to spend sundry hard-earned dollars to this end. To show their faith in the enterprise many citizens, went back or this end. To show their faith in the enterprise many citizens went back on their dealers and decided, as patriotic citizens, to patronize the municipal plant. Their patriotism received a cruei joit. The city got no coal to put in the coal yard, and the citizens had to hie themselves heak to their ald dealers and themselves back to their old dealers and beseech them for fuel and they con-tinued to beseech and some even to pray

Toronto Lecturer Says 300,-000 Should Be Conscripted.

be dealt with as the occasion demands."

Brief mention was made of the "dummy gunboats" that had been used to block the Kiel Canal for over fifteen months at the beginning of the war. These boats were made in Ireland. Referring to prohibition, Dr. Patterson was thankful for the change being brought about in Ireland. Many thousands were pledging themselves for the duration of the war to abstain from all alcoholic drinks. This is a great sacrifice to a typical Irishman, the speaker intimated.

Dr. Patterson gave an outline of the speaker intimated.

Dr. Patterson gave an outline of the history of Ireland up to the present time. He gave a good description of the outstanding characteristics of the Irish, illustrating his story by the use of typical Irish anecdotes.

An appeal was made by Dr. Patterson for liberal donations to the Red Cross fund.

Canada will not allow herself to be disgraced by neglecting her wounded "heroes." he stated.

Rev. Jas. MacKay presided during the evening. Solos were given by Miss

Weston and J. Ballantyne, with Mrs. D. F. Smith as accompanist. A liberal offering was received.

PROGRESSIVE TRAINING St. James' Presbyterian Church Monday evening. The patriotism displayed by the Ulsterites in this war has won for them a place in the hall of fame, the speaker declared. The remainder of Irefand had produced many patriotic citizens who were ready to die for their country, but it also harbored 300,000 traitors, Dr. Patterson said. "These men should be sent to the front as well as other mothers' sons who have given their lives for the cause of humanity. Had the British Government done its duty, these 300,000 men would have been bearing arms in France. This would have released for war duty the force of 150,000 which is maintained in England in case of trouble in Ireland. These men will yet be dealt with as the occasion demands."
