29TH YEAR

PROBS: Moderate to easterly wind, fine, warm thunderstorms in southwestern counties

TEN PAGES.—MONDAY MORNING, AUGUST 2, 1909.—TEN PAGES

HERE TO SPEED TRAVELER'S HOLIDAY

Weather Will Be Fine and Warm and Program of Events is Varied Enough to Suit All Tastes.

Whether, brother? Where are you going with your wife and family, or with the girl you love best, to-day? Consider the "probs".

Moderate to fresh winds, mostly easterly; fine and warm. Local thunderstorms in southwestern counties.

Are you going for an exciting ride in the romantic streets of this beautiful city in one of R. J.'s excellently appointed vehicles?

To-day can be spent pleasantly by the man whose capital is only ten cents. He can go (tho' it will be necessary to leave his home for a ride on his back and rest. If he penetrates far enough into the forest he can even have peace and sleep.

Boating is one of the joys of life if indulged in properly. Humber Bay is a delightful place on which to paddle a row. It is, to a large extent, sheltered by points on either side, and it is not in the southwestern counties. If you are not an adept boatman the shore slopes gently and by going along within 200 feet of land it is possible in most places to walk on the shore. A delightful afternoon can be spent in taking a trip along the shore either to Long Branch or to Toronto Island. Then there is the Humber River. It is an ideal place to go, the waters are up set, even near shore, as the banks are treacherous and slope suddenly into deep water. Can you swim? Swimming can be indulged in in perfect security, at either Sunnyside or the island, at the places appointed.

For the Sports.

Are you a sportsman? Like lacrosse? Scarborough Beach for you. Do you happen to be a baseball fan? Then there is 10 p.m. a Golf? Lambton. Water sport, Parkdale C. C. Athletics? Odd-fellows, Exhibition, and Kew Beach. Foot or Lee-say. Bowling? Special to Lorne Park. Swimming? F.N.C. will swim across the bay. Want anything more? Make it yourself.

If you are going out for a "bust" you can get your money's worth at the island or Scarborough. Try the Chute de la Chute, or the "Pigeon" take a girl along as that is three-quarters of the fun.

Have you the rover's instinct? Hamilton is not so bad and a trip on the lake is fine; worth going to Hamilton for. While there you can view the Kinross house or the glorious "mountain" on a clear day the whole city, the bay and the lake can be seen from the summit. The bird's-eye view is worth climbing for if you cannot afford to ride. Burlington Beach is also a nice place.

Niagara Falls is the finest sight on earth. It is not so bad and a trip on the lake is fine; worth going to Hamilton for. While there you can view the Kinross house or the glorious "mountain" on a clear day the whole city, the bay and the lake can be seen from the summit. The bird's-eye view is worth climbing for if you cannot afford to ride. Burlington Beach is also a nice place.

Across the Lake.

St. Catharines will repay, in enjoyment, a visit. It is a pretty city. The boat ride is delightful, and some of the Port Dalhousie. The port is not much of a place, but the locks are interesting objects, especially when a boat is going thru. If you have plenty of nerve on tap jump on board a vessel and ride down the locks. The ride does not call for the nerve, it is necessary to hold on. When the ship is cut off when the ship's officers ask you why you are there. However, if you get permission it will in all probability be granted as they are gentlemen who "go down to the sea in ships."

Okauch Beach is an interesting place, in which to spend the day. Fast trolley cars run to Lockport, Rochester and Buffalo from there. There is also an amusement park.

Have you been longing for the theatres to open? Once again the depictions of the joys and sorrows of life are with us. Shea's Theatre opens to-day and so does the Majestic.

Both Hanlan's Point and Scarborough Beach are offering special attractions. Have you decided on a place to go yet? If not, stay at home. You may travel a thousand miles and find nowhere so desirable as Toronto, nor so full of pleasant and attractive entertainment.

Knight of Columbus.

The Knights of Columbus will inaugurate a new lodge in Toronto to-day. A large delegation of the members of the order will arrive from Montreal and other Canadian points early this morning.

Among the guests at the King Edward is Herculio, a member of the Argentine Republic at Ottawa, who is accompanied by his wife and child. Mr. Justice Harvey and wife of Edmonton are also at the King Edward.

Invite King Edward.

WINNIPEG, Aug. 1.—A committee of the Selkirk Centennial Exposition for 1912 wanted on Earl Grey Saturday night presented three invitations to King Edward to open the fair and, falling him, the Prince of Wales. Earl Grey and party left for the west to-night on route to the Yukon.

DOG HAD RABIES BIT LITTLE GIRL

BRANTFORD CITY COUNCIL SENDS DAUGHTER OF BERT MARTIN TO PASTEUR INSTITUTE.

BRANTFORD, Aug. 1.—(Special.)—The municipal authorities at a conference Saturday evening decided to send the 2-year-old daughter of Bert Martin to the Pasteur Institute, New York, for treatment.

She was bitten over three weeks ago by a mad dog. The dog's head was sent to Ottawa, and a telegram was received Saturday stating that the dog had died from rabies. The child was badly bitten in both legs.

Altho' the wounds have all healed over, it was decided by Acting Mayor Rossall to take precautionary measures at the city's expense.

MAKES A HERO OF A COWARD AT ONE CUT

DR. BONNIER ANNOUNCES IT IS NECESSARY ONLY TO SEVER A SMALL NERVE.

PARIS, Aug. 1.—"Such emotions as fear and melancholy are conveyed by a small nerve which springs from the human brain near the medulla oblongata, the top of the spinal cord."

So announces Dr. Bonnier, a distinguished surgeon, who adds that he has removed this nerve and so relieved greatly persons suffering from melancholia and timidity.

He then expressed some scepticism about the value of Dr. Bonnier's discovery. But newspaper paragraphers find opportunity to discuss the possibility of turning a coward into a hero by a surgical operation.

BLACK MAN'S SKIN CHANGES TO WHITE

ROCHESTER, Aug. 1.—Jacob Thomas, a remarkable colored man, died to-day in Le Roy.

Thomas' color in the last twelve years changed from the darkest hue of the negro to white, so much so, that he would be passed in the streets as a white man.

IS STRICKEN IN CHOIR DURING CHURCH SERVICE

JAMES PATTISON, PROMINENT FERGUS MERCHANT, DIES FROM HEMORRHAGE OF THE STOMACH.

FERGUS, Aug. 1.—During church service this morning, James Pattison, a leading merchant of Fergus, and a member of St. Andrew's Presbyterian church, took a hemorrhage of the stomach and was carried from the choir in a dying condition, passing away almost instantly.

Several in the congregation fainted and the service was discontinued. Mr. Pattison is the only son of a widowed mother. He was at one time a member of the council, is a director of the Fergus Horticultural, the Agricultural Society, a prominent Mason, and leading Conservative.

Killed in Runaway.

VANCOUVER, July 31.—Benjamin Friedman, manufacturer of the Robello Cigar Factory, was killed this morning by his horse running away. The horse swerved into the curb and in attempting to balance the rig Mr. Friedman leaned too far out of the rig and his head hit a telegraph pole. He died in the ambulance on the way to the hospital.

Falls Under Train.

MONTREAL, Aug. 1.—The 23-year-old son of Mathew Moody, manufacturer of Terrebonne, fell under the Quebec train last evening and was killed.

Drowned in a Slough.

WINNIPEG, Man., Aug. 1.—Henry Piers, a farmer of Pindale, Manitoba, was drowned yesterday while bathing in a slough.

WHO KNOWS WM. ROBERTS?

FRIENDLESS SCOTCHMAN, THOUGHT TO BE WELL CONNECTED, DIES AT ST. MICHAEL'S.

Wm. Roberts, a sectionman, 30 years of age, residing at St. Michael's hospital yesterday morning, and the officials of that institution are anxious to find his relatives, if he has any in this country, and it is believed he came from Paisley, and it is the impression that he was well connected.

T. H. Ferrier, for whom deceased once worked for a short time, was communicated with, but could furnish no information as to his relatives. "He seemed very reticent about his past," said Mr. Ferrier.

TARIFFITES ARE SANGUINE OF VICTORY

Col. G. T. Denison, Returning From England, Reports Impression of Situation and Opinion of Chamberlain, Milner and Kipling.

"I saw Mr. Chamberlain at his home," said Col. Denison last night at Heydon Villa, on his return from England. "and found him in much better health than I expected. Mrs. Chamberlain said he walked regularly at least half a mile every day in his grounds. Mr. Chamberlain's mind is just as clear as ever and he is full of the question of tariff reform."

Col. George T. Denison is home again. The Douglas champion of British imperialism has been renewing acquaintance with Rudyard Kipling, Lord Wolseley, Lord Roberts and Rt. Hon. Joseph Chamberlain. The colors were seen that the ocean trip and well-earned vacation had added a ruddy hue to the familiar countenance of the esteemed civic magnate.

Germany England's Carthage.

The feeling respecting the relations of England and Germany, said Col. Denison, was one causing concern. The opinion prevailed among such men as Mr. Kipling that the trade rivalry was similar to that between Athens and Sparta, or Rome and Carthage, and that sometime it would have to be fought out.

He was struck by the large number of people out of employment in England, and the evidence of pauperism. While the farmers were a little more hopeful the general trade conditions appeared to be rather worse than observed during his last visit to England three years ago.

France Prospering.

"I spent three weeks in France," said the colonel, "and everywhere I went, from Calais to Tours, I was struck by the evidences of general prosperity. Every portion of the country was highly cultivated. There were no waste lands there, and it could not help putting the French prosperity down to the protection accorded agriculture. It may have been due to accident, but I did not see signs of a lack of employment, or pauperism, and very few beggars."

The only public function which Col. Denison attended while abroad was a dinner given him by the Comptoir Club, presided over by Lord Milner. Mr. Kipling and about 150 others were present, including several journalists from various parts of the empire. Mr. Kipling made an address in which he took a serious view of the situation as related to the tension with Germany, and in keeping with his poem, "The City of Brass."

How Render Surest Help.

Col. Denison gave his views on the duty of Canada in connection with imperial defence, expressing the sincere hope that the representatives of Canada would let the Dominion Council render the most help—not what would be best for any political party. Then he advised Canadian people to be very likely to see that the government did the right thing to do.

Tariff Reformers Expect Change.

In consultation with Lord Milner, Mr. Chamberlain and other tariff reform leaders, he found the greatest confidence that there would be a complete change at the next general election.

The impression seemed to prevail that the old Liberals who inherited the traditions of the old Whig party would unite with the Conservatives to oust the Asquith government. Public opinion as indicated by the by-elections was that a small Socialist tail was trying to trouble the Liberal party. The budget seemed to be exceedingly unpopular with everybody who had any property, but whether the desire to spoil, among the lower classes, would be sufficiently strong to prevail, it was of course difficult to say.

Lord Roberts was in very excellent health, full of vigor and anxious to do everything he possibly could for the empire.

MEXICO AGAIN ROCKED MORE SEVERE THAN FIRST

Many Buildings Cracked and in the Provinces Widespread Disaster is Reported.

MEXICO CITY, Aug. 1.—Mexico City was again severely shaken by an earthquake Saturday. A shock more severe than any yet experienced rocked the city for one minute and 40 seconds at 12:43 p.m.

No great damage was done, the innumerable public and other buildings were cracked. The national palace suffered considerably.

Reports from Governor Domingo Flores of the State of Guerrero, declared that in Acapulco the largest and strongest buildings were rased by the force of yesterday's tremors, and there has been heavy property loss throughout the section.

At Acapulco the custom house with its warehouse, the military barracks and a number of other prominent buildings were destroyed. Here while the municipal palace suffered serious damage

BRITANS IGNORE INVASION TALK

German Balloon and Naval Activity no Longer a Nightmare—Rest in Political World.

CHICAGO, Aug. 1.—T. P. O'Connor's letter to the Tribune says: Politics in Britain has been quiet for the last week owing to the suspension of the gigantic fight in the house of commons over the budget, but the week nevertheless was not uneventful. It began in a bad fit of aeroplane monomania, but the scoremongers show a diminution of their power in frightening the masses, as Canadian people would be very likely to see that the government did the right thing to do.

Another eloquent sign of the loss of the influence of the scaremonger of a few months back is that Asquith and Balfour in the debate in the house of commons on the defenses of the empire agreed that an invasion of England in force by Germany or any other power was quite impossible so long as the British navy retains its present supremacy.

The presence of both ex-President Stein, and other heroes of the Transvaal war listening to the debates from the gallery of the house of lords on the measure recently passed for the unification of South Africa, with everybody praising the Transvaalers, and Lord Milner sitting in grim silence, was one of the most dramatic contrasts ever beheld in British politics.

The Transvaalers everywhere were received with warm welcome.

The Irish land bill made some progress this week, but now is postponed for three weeks. It now is certain the bill will not be rejected by the house of lords, but may be so mutilated as to make impossible an acceptance by the Irish party.

The bill will not reach the house of lords till the first week in September, and the fighting at close quarters begins therefore at the end of September.

The general political situation at the end of this week is favorable to the government. Lloyd-George and the budget were victors at all the by-elections.

The budget has been the most invigorating tonic the Liberal party has received for many years, and to-day, after four years of office and in spite of the many butrets by the house of lords, the Liberal ministry is stronger than ever. This is an unusual occurrence in British politics, where the fourth year usually finds the ministry of whatever party, going rapidly downhill.

20,000 HOUSES BORN IN OSAKA

Area of Four Square Miles, Swept and Many People Suffer Hunger.

OSAKA, Japan, Aug. 1.—Confusion still prevails here as a result of the Saturday disastrous fire. Thousands of persons are homeless and hunger is staring many of them in the face.

A system of relief has been organized by the municipal authorities, but it is inadequate. Outside cities and towns are assisting.

The number of casualties has not yet been determined, but hundreds of injured persons are crowding the hospitals.

The latest estimates are that 20,000 buildings were destroyed, including banks, the stock exchange, the museum, government edifices, and factories.

Losses are given roughly at several million yen. It is feared that consequently some of the insurance companies will fail.

The conflagration lasted more than 25 hours. The streets of the city are very narrow, and the houses mostly of wood construction.

Under a strong breeze therefore the buildings were easy prey for the flames. The firemen fought valiantly against the odds of lack of water and wind, and many of them fell unconscious.

The belongings of the people who were able to save anything from their burning homes are piled in great heaps along the railroad tracks from Osaka to Kobe, where they were removed early Saturday morning when the fire broke out.

All day Saturday and far into the night the male population assisted firemen and the troops in quenching the conflagration. An area of over four miles square, containing some of the city's handsomest structures, including the Buddhist temple, the largest in the world, was burned over before the fire was controlled. The stock exchange, one of the most important of this country, was entirely destroyed. This loss, it is believed, will tend to dislocate the business of Osaka, which, with its manufacturing concerns, is one of the chief commercial cities of Japan.

The emperor is deeply concerned over this disaster.

MAY FLY TODAY

PETAWAWA CAMP, Aug. 1.—(Special.)—Baldwin and McCurdy may make preliminary flights in their aeroplane, Silver Dart, Monday or Tuesday. They are getting the ship in shape for the test.

Humorous view taken by United States paper of the effect of the Payne-Aldrich tariff on woollens.

DONS TO SUBURBS SON SEEDS OF REBELLION

Official Spain Claims Barcelona is Calm, But Another Story Says Sanguinary Combats. Still Continue.

PARIS, Aug. 1.—Altho official Spain minimizes the Catalonian insurrection and insists that the revolt has been crushed, a far different story emerges from the frontier.

Refugees and travelers declare that the revolt is still rampant, and that desperate combats continue at Barcelona, where 50 revolutionists are reported to have been wounded in a conflict which occurred as late as Saturday night.

Information concerning the actual situation in Barcelona and the rest of the province is rarer to-night than ever before. Altho some of the news from the frontier is from revolutionary sources, and, therefore, open to suspicion, more reliable intelligence leads to the belief that altho Barcelona is calmer, the insurrectionists have taken to the suburbs and the outlying country, where they are sowing the seeds of revolt and inflaming the populace to maintain the struggle to the bitter end.

Provoking Bands.

Barcelona Province is in the hands of prowling bands of workmen, heavily armed, who occupy the railroads and highways to prevent communication, and who refuse entrance to new comers. Casanova de la Selva in the hands of revolutionaries, and at Palamos, where the monastery was fired upon and the monks tortured, the situation is described as critical and the lives of foreigners endangered.

The opinion in semi-official circles here concerning Spain's internal condition is pessimistic and the belief is expressed that the trouble is not yet over. Official Madrid announces that Barcelona is tranquil, but qualifies this statement with the words "This is especially as in the centre of the city."

Convoy Ambushed.

From Melilla comes the news of another Spanish convoy being ambushed and several of its officers being wounded before the troops succeeded in extricating themselves from the attack of lack of discipline.

Rumors are afloat that a general strike will be launched to-morrow at Madrid, and that strike is being organized in the Blackaya region. All persons subject to military duty are forbidden to leave Spain under grave penalty, and elaborate measures are being adopted to forestall a possible outbreak in the other provinces of the country.

Official denial is given to the reports that the temperate Madrid garrison is hostile. Another official statement says that the number of victims of the fighting at Barcelona is unknown, but frontier reports say that the latest count authoritative inspiration, declares that the killed or wounded will aggregate 3000 and that the number of insurrectionists, summarily shot as between 40 and 120.

Official Version.

MADRID, Aug. 1.—An official statement issued here says that the effect that order reigns, especially in the centre of the city, where the public is circulating in a majority of the stores are reopened. Work has been commenced again in several factories. The newspapers probably will reappear to-morrow. A French torpedo boat is awaited to take official correspondence. The number of victims of the outbreak, according to the official note, is not known exactly. Troops are actively engaged in clearing the streets and demolishing the remaining barricades erected for the revolutionists.

10 DEAD; 60 INJURED IN TROLLEY COLLISION

Two Electric Trains Come Together Head-on On Spokane Railway.

SPOKANE, Wash., Aug. 1.—Ten persons were killed and at least sixty were injured in a head-on collision of two electric trains on the Spokane and International Railway late Saturday afternoon.

The wreck occurred at Coldwell, Washington, a station between Couer D'Alene, Idaho, and Spokane. Both trains were going at the rate of about 15 miles an hour. They crashed together without warning.

The heavily laden coaches were crushed, and the men and women in them were thrown from their seats, some being hurled to the tops of the coaches, while others were sent flying thru the windows. Several coaches left the tracks, and passengers were caught under the pile of broken wood and steel.

A partial list of the dead includes: Will Allen, Wenatche, Wash.; Walter Dalquist, Spokane; A. T. Whitney, an attorney of Memphis, Tenn., and an unknown woman and son.

TARIFF REPORT ADOPTED.

WASHINGTON, Aug. 1.—The house last night adopted the conference report on the tariff bill by a vote of 216 to 190. The bill is expected to pass after the final outcome, and Chairman Payne was the central figure of an ambitious and congratulatory crowd of colleagues.
