

NIGHT BATTLE BEFORE PORT ARTHUR.

The constellation between the two beams from the searchlights is a Russian star-ship, fired to illuminate the area of fighting, which is rendered almost as light as day. To the left is another of these star-ships, falling and dying out. The distant flash of Russian guns appears to the right of the right-hand searchlight. Note the hazy effect of a burning shell against the fort in the Suifu Valley, visible just inside the dark, bursting shell. On the left foreground Japanese ships are posted in a trench. During such attacks the men carry neither bayonets nor blankets.

OFFER TERMS TO RUSSIANS JAPS IGNORE STOESEL

Ask Czar's Men to Surrender Regardless of the Mandate of Russian General.

Chafon, Nov. 8.—The Japanese besieging Port Arthur, ignoring Lieut. Gen. Stoesel, the commander of the Russian military forces there, have offered terms of surrender to the Russian soldiers, according to advices leaving Port Dalny yesterday. In the meantime the ceaseless activity of picks and axes, gradually advancing the trenches, spells inexorable fate to the watching Russians.

A Russian prisoner captured Oct. 26 said the soldiers composing the garrison of Port Arthur, in want and dispirited, saw the hopelessness of the struggle. Despairing of relief, with food scarce and medicine and hospital supplies insufficient, it was admitted by the Russians that a Japanese victory was ultimately inevitable. The soldiers, according to the prisoner, see no reason to prolong the resistance which brings glory to their officers, but chiefly hardship and death to them. Upon hearing the prisoner's story Gen. Stoesel drafted a letter to be circulated among the soldiers themselves, the prisoner having promised to deliver it in mercy to his comrades.

The letter related Gen. Kuropatkin's retreats and his inability to make an impression on the army of Field Marshal Oyama, to say nothing of breaking thru his forces and relieving Port Arthur. The letter also pointed out that the second Russian Pacific squadron has just started on its slow voyage. Continuing it called attention to the relentless advance of the Japanese trenches, making it a matter of weeks when the Japanese would walk into the main Russian strongholds. In conclusion, the letter offered humane treatment to all who surrendered, saying it was in the interests of humanity to prevent further useless slaughter.

Several copies of the letter, written in Russian, were given to the prisoner, who regained the Russian lines unobserved by his officers. That night the Russian returned, saying his comrades would answer within a few days. He said the temper of the men seemed to show that, while they were mutinous towards fate, they also did not like the idea of an unconditional surrender. The letter did much, however, to dispel among the Russian troops the impression that a massacre would follow a Japanese victory. The company to which the prisoner belonged originally numbered 800, but now totals 20 men.

PROCEEDING SATISFACTORY.

Tokio, Nov. 8.—Unofficial news received from Port Arthur since Saturday's report of the progress made by the besiegers, indicates that the Japanese operations are proceeding satisfactorily. The slowly rising limestone formations and rocky ground interfere with sniping. It is now agreed that the capture of Hihlung Mountain and East Kikwan Mountain without Antae and Elso Mountains is sufficient to force the Russians to abandon the city proper.

BOTH ARMIES PASSIVE.

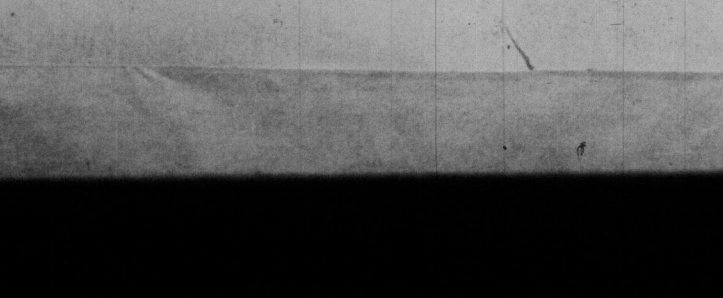

Tokio, Nov. 8.—Reports from the Shaku River state that both armies are still strengthening their positions along the river and are otherwise busily preparing for another great battle. The accounts are constantly in touch and frequent outpost skirmishes occur, but there is no likelihood of a general engagement for the present. Reinforcements of Russian troops, guns and supplies are constantly arriving at the front.

For Peterborough's Mayor. Peterborough, Nov. 8.—Ald. M. A. Morrison will be a candidate for the mayoralty. Mayor Rogers, who has filled the office for two years, is retiring.

Italian Corporal Did It. Vienna, Nov. 8.—A corporal in an Italian regiment of conscripts, on duty during the disturbances last week at Cronsteden, to-day confessed that he had bayoneted and killed the German artist, Prezzey. The corporal said that, fearing discovery, he hid the body. This development is expected to greatly increase the difficulty of the Austrians in effecting a peaceful settlement of the affair.

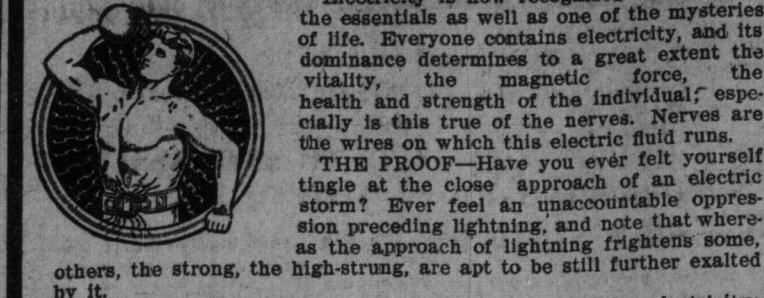

Approves Colonial Treaty. Paris, Nov. 8.—In the chamber of deputies to-day the debate on the Anglo-French arbitration treaty was continued. The principal speaker was Eugene Etienne, deputy from Oran, Algeria, leader of the Colonial party. He expressed his hearty approval of the treaty. The debate will be continued on Thursday.

She rises She stoops to Conquer when she uses Pearline and stoops to a painful struggle with dirt when she uses old fashioned methods and cheap Washing Powders

The women who are the most particular about their housework are the ones who are the most enthusiastic about Pearline

THE BODY IS AN ELECTRIC STORAGE SYSTEM

Electricity is now recognized to be one of the essentials as well as one of the mysteries of life. Everyone contains electricity, and its dominance determines to a great extent the vitality, the magnetic force, the health and strength of the individual; especially is this true of the nervous system. The wires on which this electric fluid runs, are the nerves. Have you ever felt yourself tingle at the close approach of an electric storm? Ever feel an unaccountable oppression preceding lightning, and note that where as the approach of lightning frightens some, others, the strong, the high-strung, are apt to be still further excited by it.

THE REASON—They are already charged with electricity; lightning to them has no terrors. It's the weak who are sighing for electric force, whose magnetism is all but palsied; they droop as does a parched flower before the coming of rain. Lucky for them if the lightning playing in the air could yield to them some of its vitalizing force, tho this cannot be. A more gentle way is needed.

IF YOU SUFFER—if you lack energy, vitality, power—if your system has become sluggish through the nerves any Nervous Disorder, Rheumatism or Complaints peculiar to either sex; if your appetite is poor, your nerves shaky, if you have pains in the back, or head, or kidneys; if you get dizzy spells or faint; if you sleep badly, or lose weight, or feel nervous, or if you are generally run down, Dr. Macdonald's Electric Belt will gently and surely supply the electricity to lead you to health.

Free Trial for Ninety Days

Not a penny down, simply drop me a postal with your name, and I will forward you, at once, one of my latest Improved High Grade Electric Belts Free. You can use it three months, then pay me if cured, and the price will be only half what others ask for their inferior belts. If not cured, you return the Belt to me at my expense and Your Word Will Decide. I am willing to trust entirely, knowing that I have the best and most perfect Belt ever invented, and nine men in ten always pay when cured.

I WILL TRUST YOU

This modern Belt is the only one that generates a powerful therapeutic current of electricity without soaking the battery in vinegar as all other belts do, and it is guaranteed never to burn. It is a certain and positive cure in all cases of Rheumatism, Varicose veins, Weak Back, Nervousness, Kidney, Liver and Stomach Troubles and weakness brought on by abuse and excess.

I WILL GIVE FREE

To each person writing me one copy of my beautiful Illustrated Medical Book, which should be read by all men and women. Drop me a postal and I will send it to you FREE in sealed wrapper. If you are weak in any way, delay no longer, but write to-day for my splendid book and Belt free. Write today.

DR. C. J. MACDONALD, 8 BLEURY ST., MONTREAL, - QUE.

WILD ST. CATHERINES GALLOP.

Runaway That Nearly Brought Death to Man and His Mother.

St. Catharines, Nov. 8.—(Special.)—Mugh E. MacSloy of the Canada Hair-cloth Co. and his mother narrowly escaped death at the hands of a runaway horse. The horse was taking his noon, Mr. MacSloy was taking his noon, who is over 80 years of age, for a drive in their top buggy. The horse went too close and the whistle striking against the horse's hind legs, caused the spirited animal to run into Queen and down Queen street at a breakneck rate. Mr. MacSloy held the lines with something like a death grip, but the horse went the bit between his teeth and galloped along at a terrific pace. Other carriages on the street scattered before the mad animal. At the corner, Queen street ending, the horse had turned, and the buggy, as it swept around the corner, stood upright as by a miracle. The horse turned down York street, and again there was nearly an upset. Somebody who had seen the runaway telephoned to a livery stable and a man started out after the runaway, being on the floor and on a dead gallop. Mr. MacSloy had, however, managed to pull up his horse after galloping down York street for about a mile, and he was holding the reins when the rescuers got there. Mr. MacSloy was considerably cooler than he was when he started, and he was calm as the horse was only trotting. She did not seem to be in any hurry to jump out, even tho it would have been certain death to her had the buggy struck anything.

PETERBORO HOPEFUL.

Peterborough, Nov. 8.—(Special.)—The report of the royal commission, appointed by the government to investigate the question of the electric smelting of iron ore, has a greater significance for Peterborough. A great probability is that, here, a new industry will be established in Peterborough. Mayor Thorneby, in communication with interested parties.

Chance Causes Disappointment. London, Nov. 8.—The Canadian Pacific and the Dominion Steamship Companies have agreed to a joint venture between Bristol and Canada only a sufficient number of steamers to give one or two sailings a week. The Western Daily Press, commenting, says it is a serious change to reduce the service to one or two sailings a week. The arrival to one giving a steamer once in three weeks only. It is to be hoped the word has not been said on the subject.

Called to Thornbury. Thornbury, Nov. 8.—This afternoon the members of the Presbyterian Church here extended a hearty and unanimous call to Rev. Kenneth W. Barton, B.A., of Toronto to become their pastor.

TOOK A SEVERE COLD.

It Settled In The Kidneys.

Pain In The Back The Result.

Catching cold and having it settle in the back is often the cause of Backache—the primary cause of kidney trouble. When the back aches it is a warning that the kidneys are liable to become affected. Heed the warning; check the Backache, and dispose of any chance of further trouble.

If you don't, serious complications are very apt to ensue. Mrs. E. Williams, Hamilton, Ont., caught cold, and it settled in her kidneys. She used

DOAN'S KIDNEY PILLS, and is thankful for the immediate relief they gave her. She writes us as follows: "It is with pleasure that I add my testimony in favor of Doan's Kidney Pills. Some time ago I took a severe cold, and pain in my kidneys. The soreness and pain in the small of my back bothered me greatly. After suffering for some months, and finding numerous remedies fail, I procured a box of Doan's Kidney Pills, and received immediate relief from my sufferings.

Doan's Kidney Pills may be procured at all dealers, or will be sent direct by mail on receipt of price.

Two Doan Kidney Pills Co., Toronto, Ont.

MAY BE ATHLETIC STADIUM ON THE GARRISON COMMONS

Discussed by Exhibition Board—Definite Plans re Grounds Arrangements to Be Prepared.

Among the correspondence read by Manager Orr at a meeting of the Exhibition Board held yesterday was a letter which abundantly showed the wide influence exerted by the exhibition. It is from Thomas B. Margette of Fownders, Wynyard, Tasmania, and said: "Will you be good enough to put me in touch with some exhibitor who placed portable saw milling machinery in your show? I have an American (Fritz) 17-h.p. steam engine and am in want of a portable saw milling plant to work with the engine. I saw just what I now want when last in Toronto, and if some manufacturer would oblige me with catalog it would probably lead to business." A letter was read from the Toronto Lithographic Co. protesting that there was not enough room allotted in the process building to make a decent exhibition of the lithographic art.

The board took up the report prepared by a special committee calling for \$200,000 to be spent on new buildings, improvements and rearrangement of the grounds. To this report the committee added that no specific appropriation was asked for new entrance gates and the consolidation of the refreshment privileges, these things were none the less necessary. It would be difficult to say just where the main entrance will eventually be permanently located.

Mr. McGee was taking his noon, who is over 80 years of age, for a drive in their top buggy. The horse went too close and the whistle striking against the horse's hind legs, caused the spirited animal to run into Queen and down Queen street at a breakneck rate. Mr. MacSloy held the lines with something like a death grip, but the horse went the bit between his teeth and galloped along at a terrific pace. Other carriages on the street scattered before the mad animal. At the corner, Queen street ending, the horse had turned, and the buggy, as it swept around the corner, stood upright as by a miracle. The horse turned down York street, and again there was nearly an upset. Somebody who had seen the runaway telephoned to a livery stable and a man started out after the runaway, being on the floor and on a dead gallop. Mr. MacSloy had, however, managed to pull up his horse after galloping down York street for about a mile, and he was holding the reins when the rescuers got there. Mr. MacSloy was considerably cooler than he was when he started, and he was calm as the horse was only trotting. She did not seem to be in any hurry to jump out, even tho it would have been certain death to her had the buggy struck anything.

Director R. Y. Ellis expressed the opinion that before any new buildings were erected a specific and definite plan of the grounds should be adopted. Commissioner Chambers said he had been instructed to prepare such a plan. Mr. McNaught and Vice-president George thought a plan should be prepared so as to be ready directly the grounds could be procured. Ultimately it was decided to request Mr. Chambers to prepare a plan for submission to the board as speedily as possible. The new administration building is almost completed.

What She Wanted to See. "Mornin', madam! What you 'ombs, brushes, hairpins, or tuffet" asked the peddler, putting his hat on the floor and opening his pack.

"I don't care for no novels, shapies, lanvies, eye-salve, or coriandlers," said the woman. "I want to see a bottle of 'winkles' for the complexion."

"Not a bit, sir, and I know you haven't heard of a bottle of 'winkles' for the complexion," said the peddler. "You want to see a bottle of 'winkles' for the complexion."

"None of the people I call on would appreciate my wares, and now, you say you have no use for the celebrated 'winkles' for the complexion. You want to see a bottle of 'winkles' for the complexion."

"All right, madam," replied the peddler, "if I see any chap who's got 'em to sell I'll send him round. Mornin', madam. And he picked up his hat, put it on his head, and walked away, leaving the woman staring after him. "Good-bye, I'll be back," he called, "I'll be back."

Killin'-Keough Recital. The banquet hall at the King Edward Hotel was the scene of a most successful evening with a large and fashionable audience attended the recital of Mrs. Alice Killin'-Keough and assisting artists. Unfortunately Mrs. Killin'-Keough was suffering from a severe cold and was unable to take her solo numbers on the program. A quartet, "Evening and Morning," by Mrs. Killin'-Keough, Miss Grace Lillian Carter, Maurice Vandewater and Oliver Durand was substituted for the duo number, and Master Selts, pianist, and Mr. Vandewater contributed substitute selections for the solo numbers. Other artists were: Emerson F. Morley, violinist; James Potter Keough, bass, and Mrs. A. Staples, accompanist. Among those present were five of the principals of the Savage Grand Opera Co.

Disillusioned. A well-known lady, owner of a commodious house in the vicinity of a certain fashionable golf links, notified to the local agent a desire to let her property furnished during the summer months, and the premises were forthwith advertised, visited, approved and taken. Before withdrawing, the lady learned that the would-be tenant was afflicted with Sunday golf, and she consequently declined to allow them to enter into possession. Shortly afterwards, to her intense consternation, she discovered that the women they after obtained was none other than that of her revered pastor, to whose fervent desires against a desertion of the Sabbath by the playing of games she had listened, for months past, with sympathetic rapture.

Cause for Congratulation. Two giant spectres, Bronchitis and Pneumonia, in the shape of a doctor, were met by a man who was looking for a cure. "What's the matter, old fellow?" asked the Bronchitis specter. "You are looking fine," replied the Pneumonia specter. "I've just been looking over the list of the weather prophets and they predict a mild winter."

"I, on the other hand, have just been glancing over the white's fashions. The women's fur coats are so delightful to say, made with V necks and no collars, and the jackets ending at the waist will be popular as ever."

THE IMPERIAL COAL CO.

POLITICAL NOTES. W. F. Nickle and J. H. Metcalfe are at the Conservative nomination in Kingston for the local house.

East Simcoe Conservatives will hold a convention at Orillia on Tuesday next to nominate a candidate for the legislature.

South Wellington Liberals will nominate on Nov. 16 at Guelph.

Independent candidates are springing up all over the Province of Quebec in view of the determination of Conservatives not to take the field. James Cochrane has been nominated in St. Lawrence division in Montreal. The regular convention will be held on Wednesday, when opposition to Mr. Cochrane will be put up.

Six French-Canadians were arraigned in the recorder's court in Montreal charged with perjury in the St. Antoine election. The cases were entered until the 10th. Five other cases of perjury are pending from the Malvern election.

Official figures give Hon. H. B. Emerson a majority of 1046 in Westmorland.

Rudolphe Forget, Conservative member-elect for Charlevoix, will give the government an independent support.

In South Bruce the majority of Mackenzie, Liberal, was 144.

Sault Ste. Marie, Ont., Nov. 8.—On account of the difficulty in getting judges to sit in the county court at Sault Ste. Marie, the date for the trial, now fixed for the 10th inst., has been postponed to the 15th inst. The trial will likely be taken up again in the first part of December.

Editor World: The defeat of our leader in Halifax is a regrettable feature of the election. As Conservatives we all know Mr. Borden gave his whole time to enacting the policy of the party through a party as a representative. We have several constituencies in Ontario giving very large majorities. One I will mention in particular is the adjoining constituency of Leeds—represented by George Taylor, and I would suggest that the Conservatives of Leeds ask Mr. Taylor to introduce for Mr. Borden. He was elected by 700 majority and has been in parliament some 25 years, and as a loyal Conservative, should make the first move to bring this about. I have mentioned this to a number of the Leeds Conservatives and they say they would be glad to support him. I am sure Mr. Taylor should do this at once. Another member I might mention, perhaps who would give way to Mr. Borden, would be Mr. Kidd of Carleton. Mr. Kidd is a perfect man, and I think it is up to him to get a two-hart by introducing a resolution stating he is willing to retire in his favor. I do not know if he will do so, but I would like to see him do so.

Editor World: Can Sir Wilfrid Laurier resign one of his seats in a number of out-holding an election in the city where he has a large constituency? The man in whose favor he resigns will be elected in regular form.—Ed. World.

Frank H. Taylor, a well-known merchant of Niagara Falls, and a Liberal, has made an affidavit that he voted at two polling subdivisions in the election of Thursday last, and that when he voted the second time he believed he had a lawful right to do so.

Ald. Sweete of St. Catharines has declined to be the Liberal candidate in Lincoln in the approaching contest.

Peterborough, Nov. 8.—(Special.)—Hon. R. Stratton has severely criticized Rev. Dr.

TO HEALTH NEW LIFE.

Dr. McLaughlin Gives His Reason for the Popularity of His Electric Belt.

Now that it is generally conceded that "Electricity is the Basis of Life," you should give some credit to the theory of my teachings.

For the past two years I have been telling the readers of this paper that pains could not exist where electricity was applied. I can cite you thousands of cases of men who have regained the vigor of youth, who have attained the highest standard of physical vitality from wearing Dr. McLaughlin's Electric Belt.

My treatment is a success in any case where strength is lacking, whether in the nerves, stomach, heart, kidneys, liver or any other part. My appliance gives a soothing, constant electric glow which is taken by the body just as a sponge takes up water. It cures rheumatism in any guise, as well as every other form of pain.

I am an enthusiast, you say! Why should I not be? I have the gratitude of thousands of people who have been cured by my Electric Belts after the failure of the best physicians. I am enthusiastic because I know that I offer suffering humanity the surest cure for the least expenditure of money that is known to-day.

I have gained my success by learning how to treat my patients and then curing them. I know how, others do not. I charge nothing for my knowledge, knowing that it helps my business to do all I can for every patient. My patients are my friends. They are building a success.

Having spent twenty-two years in study and experiment, have found my appliance most efficacious in removing defects of the body as they appeared in actual use, and of supplying features, such as a regulating device, non-burnable electrodes, reversible battery, and of increasing the power of my appliance until it is five times as strong as that of any other electric body appliance on the market. My appliance is conceded to be the only one of the kind which is constructed upon truly scientific lines. Compared with all other so-called electric belts are the inventions of the blacksmith's hammer.

It is not upon that point, however, that my success has been founded. My immense business is due to my knowledge and the way I treat my patients. Weakness, Nervousness and Constipation Cured.

Dear Sir: I must say with regard to your Belt that it has cured my constipation, and with it my other troubles. I can also say that I am much more active than before. Thanking you for the help received, I remain, yours truly, E. Broadbent, Beresford, Man.

If you can't call, write for my beautiful descriptive FREE BOOK, book showing how my Belt is used. It explains how my Belt cures weakness in men and women and gives prices. Send for it to-day. Address—

DR. M. A. MOLAUGHLIN, 125 Yung St., Toronto. Office Hours: 9 a.m. to 6 p.m. Wednesday and Saturday 9 a.m. to 12 p.m.
