Sympathy With Protestants of Dominion in Resisting Decree—Dr. Hincks Says People Must Have Uniform Marriage Law

(Canadian Press) London, Nov. 20.—Great enthusiasm attended the opening of the campaign to protest against the No Tolerance decree by the World's Evangelical Alliance which convened last evening. The vast central hall at Westminster was packed to its capacity. The chair was occupied by Right Hon. Lord Kinnaird, supported by Doctor Hincks, of Toronto; Dr. Montgomery, Presbyterian minister in Ireland; Rev. Charles O'Connor, of Christ Church Cathedral, Dublin; Rev. W. H. Phipps, Sir Robert Perks, Sir Robert Anderson and Rev. Fuller Gough.

Doctor Hincks moved a resolution expressing the sympathy of the meeting with the Protestants in the dominion in their determination to resist the decree, and to prevent its legal enforcement. He said that the Canadian Protestants were absolutely unanimous against the decree. After the citation of several instances of hardship declared arising out of the operation of the marriage laws in Quebec, Ontario and Manitoba, Doctor Hincks went on to say that Canada at the present moment was passing through a crisis of unifying opinions and creeds, just as Britain had already passed through her critical period of the unification of races and creeds.

COMMENT ON THE HOCHELAGA VOTE

Montreal, Nov. 20.—Interesting press comment, more particularly with reference to the bearing of yesterday's election in Hochelaga district on the Nationalist position, was forthcoming today. Le Canada regards the return of Hon. Louis Coderre by a majority of 2200 as an indication that "The Nationalists are completely powerless to influence the direction of the political affairs of this country. It is the crushing of Nationalists in an electoral division where they pretended that they support the majority to the Conservative candidate on September 21st, 1911." The Herald says: "Neither Mr. Coderre nor the government was sharply challenged for any direct issue raised. In fact the action of many Liberals in voting for the government candidate robbed the majority of such significance as it might have possessed, had there been a contest between the parties."

"The fact," he says, "that more serious developments have not occurred, is due to the pacific intervention of the Bulgarian minister to France, Dr. Stancioff, who is now attached to the staff of Crown Prince Boris. When the Greeks entered the city three columns of Bulgarians had approached within striking distance. On November 5, the Bulgarians began a battle with the Turks at Aivali and pursued the enemy to within two miles of Saloniki. An envoy sent to demand the surrender of the place found the Greeks in possession. The Greeks refused to allow the Bulgarians to enter the town, with the result that they are making house to house visitations, it is said, and using the opportunities to steal anything removable. It is said that a quarrel occurred between the Greek and Bulgarian soldiers respecting the occupation of certain barracks in Saloniki, and led to a free fight, that knives were used and several men on both sides were killed four hours after the entrance of King George, the Bulgarians and Serbians were permitted within the walls.
