NOTE AND COMMENT.

The same arguments that are used in Ontario in favor of supplying the public schools with free text books are used in the State of New York and Rhode Island. The objection that they would be a vehicle for the conveyance of infectous diseases from family to family has been shown to be unfounded by the experience of those states where the system has been adopted.

The defeat of Dr. Landry, the Conservative Candidate for Yarmouth County for the Nova Scotia Assembly will tend to discourage those who seek to raise the race issue in politics. Dr. Landry's sole claim to be elected seems to have been that he was a French Acadian. His opponent, Hatfield, got almost three votes to his one. As one third of the voters in Yarmouth are French the result seems to show that a great many

Who knows how grandly it had rung!

The Telegraph says that the speakers at Mr. Laurier's meeting here on Monday evening at the Institute will be Messrs.
Laurier, Davies and Gillmor. Mr. Ellis, it would appear from this, is not to be allowed to air his eloquence. Why the member for St. John city should not be permitted to speak at a meeting of his own party in his constituency the Telegraph may perhaps be able to explain. Is this to be taken as a sign that Mr. Ellis is not again to be the nominee of

an opportunity of showing their colors. Some good Conservatives have been indulging the idea that these persons had abandoned the Liberal party, but on Monday evening they will be found on the platform with Mr. Laurier, and it is just possible that they may be called upon to speak, although Messrs. Weldon and Ellis have prior claims.

It is becoming pretty apparent that the Indian troubles in the Northwest are due in a large measure to the fact that the United States government has rarely kept faith with them except when it appeared for its interest to do so, and the frauds practiced upon them by its resident agents. The Boston Herald says:

further attempt to undermine our loyal-ty to the Crown.

But just as the abrogation of the treaty of 1854 was followed by the union of all the provinces, and the creation of a nation, so will this attempt to coerce Canada into annexation be answered by a manly spirit of resentment, and lead to renewed efforts to extend our trade with other countries, and thus render ourselves independent of our Southern neighbors.

neighbors.

The fact is not generally appreciated that the United States are as dependent upon Canada as we are upon them. Take the question of the fisheries. An international arbitration, appointed under the Washington Treaty of 1871, after hearing all the sworn testimony that could be adduced, awarded Canada \$5,500,000, which was paid by the United States as the value of our fisheries over theirs for twelve years, or nearly \$500,000 theirs for twelve years,or nearly \$500,000 a year. Even in this Act we are now considering, where increased taxation
