

MEXICAN PEACE NEGOTIATIONS CONFERENCE WILL SOON BE OPENED

Rebel Leaders Declare Federals Have Violated Terms of Armistice

El Paso, Texas, May 3.—With Judge Francisco Carbajal, the government commissioner, already on the ground and Miguel Ahumada, who is to act in an advisory capacity, expected to reach here before night, peace negotiations are expected to be soon in progress.

The first move will be the extension of the armistice which expires at noon to-day. Dispatches from Mexico City last night asked for an extension of five days, but no official word has been received from General Madero, who yesterday offered a three-day extension.

The rebels claim, however, to have witnessed the arrival of 100 disguised soldiers at El Paso and to have followed them until they crossed the bridge leading into Juarez.

The insurgents declared were in conference during the morning, and their peace proposals. Looking large in their hands is the question of the resignation of President Diaz and how it should be handled.

One thing is said to be attained, Judge Carbajal is believed to have been instructed to deal with the grave question in as diplomatic a manner as possible.

Mail advices to the Herald from Torreon state that the rebels lost Le Erdo, near Torreon, because of disaffection in their own ranks.

BOY DISAPPEARS. Seattle, Wash., May 3.—Willie MacDonald, the 14-year-old son of Mr. and Mrs. W. J. MacDonald, who recently lived in Vancouver, B. C., and moved to this city, has disappeared and no light can be thrown on his whereabouts.

Count MacDonald started to attend the Church of the Sacred Heart of Jesus last Sunday and since then nothing has been seen or heard of him. It is feared that the boy has been drowned or met with foul play.

The father, W. J. MacDonald, is the proprietor of a messenger boy service in Vancouver and is said to be in that city at present awaiting an opportunity to dispose of his business and join his family here. In Vancouver the boy was always playing about the water or on the baseball diamond. That one of these two attractions led him away to some accident is the theory that the agonized mother can form.

JERUSALEM IS SCENE OF RIOTS INHABITANTS INCENSED BY ARCHAEOLOGISTS

Sacred Relics Alleged to Have Been Removed From Mosque

Jerusalem, Palestine, May 3.—The inhabitants have been aroused to the point of rioting by the operations of a party of English archaeologists who are accused of having excavated beneath the inviolate mosque of Omar and removed relics reputed to include the Ark of the Covenant, the cross and other sacred vessels which belonged to the tribes of Israel.

Assey Bey, the Turkish governor, was mobbed on the streets for supposed complicity in the profanation and hooted as a pig. The mosque has been closed and is closely guarded by a detachment of the gendarmerie, who will make an investigation.

The expedition worked for two years on a large scale, beginning at the village of Silwan, which lies at the southern end of Jerusalem, on the southern slope of the Mount of Olives, overlooking the valley of Kedron and the Pool of Silwan. The explorers are credited with having excavated a passage from the Pool of Silwan toward the place where once stood Solomon's temple, built in 1012 B. C., and the ruins of the city of David.

It was reported that English and Americans formed a syndicate which the Duchess of Marlborough (who was Colonel Vandenberg's wife) was a member on the strength of the discovery of the location of the relics by Scandinavian investigators.
