LEARN VETERINARY DENIISTRY

—On Thursday Thomas Plimley left Victoria for England, where he will purchase 12 automobiles and a large tally-ho for the new Plimley Automobile Company, which will shortly be in operation here.

Good music has been settle and refreshments will be served during the evening. Anyone not an Odd Fellow can secure invitations from the following committee: W. Wriglesworth, R. Short, P. M. Linklater and J. H. McConnell.

Mrs. S. J. Holden, of Hannah St. W., Hamilton, says: "My little girl had a remainder of the pain and removed the discoloration. The foot was soon all right again. It is a wonderful balm."

RUNNING SORE HEALED.

Mrs. S. J. Holden, of Hannah St. W., Hamilton, says: "My little girl had a removed the pain and removed the discoloration. The foot was soon all right again. It is a wonderful balm."

—Advices have reached the local agent, T. E. Blackwood, that the train service on the Northern Pacific Rail-downpour of rain, 119,772,000 gallons service on the Northern Pacific Railway Company, both passenger and freight, is now moving on time. It is expected that delayed freights will shortly be delivered.

SUFFERING WOMEN

FIND HEALTH AND STRENGTH IN grand total, 208,051,200 gallons. THE USE OF DR. WILLIAMS'

PINK PILLS.

Every growing girl and every woman nearing middle life suffers from allments peculiar to her sex. At these times the health and happiness of every girl and woman depend upon the richness and regularity of her blood. Look at the young girl whose blood is weak and watery. Her face is pale, her-lips and gums bloodless. Her head aches and her back aches. She has no energy, no life, a poor appetite and no desire for exercise. She complains that even to walk upstairs leaves her even to walk upstairs leaves her breathless. And the woman in middle breathless. And the woman in middle life—she is nervous, irritable and depressed—liable to sudden attacks of pain and distress that only a woman knows of. She turns from food; horrible dizziness, hot and cold flashes, make her life miserable. But Dr. Williams' Pink Pills banish all this misery, because they fill the veins with rich, strong, healthy blood which gives tone and strength to every delicate organ. strong, healthy blood which gives tone and strength to every delicate organ. The case of Mrs. Geo. Danby, of Tilbury, Ont., is one of the many that proves that no medicine can compare with Dr. Williams' Pink Pills in curing the ills of woman-kind. Mrs. Danby says: "I think Dr. Williams' Pink Pills are a blessing to suffering women. For a long time I was a great police assistance.

—Two men wearing masks entered the Quarter way house, a few miles out of Nanaimo, on the Comox road, Tuesday night and drawing revolvers one man covered the owner, J. Perry, his son William and Mr. Siddell, while the other proceeded to search their pockets. The pawing of Siddell's horses

EVERY FARMER

AND MARKET GARDENER

Should Read These Letters

From the President of the Richmond Farmers' Institute, Eburne, B. C., 24th January, 1907. The Brackman-Ker Milling Co., Ltd.,

Vancouver, B. C.

In accordance with a request of your representative, I hereby send you a statement of the results of my two years' trial of Sutton's Seeds.

In the season of 1905 I sowed Sutton's Mangel Seed alongside of other seeds purchased from a reputable firm in Vancouver, each having the same chance in every way, such as soil and cultivation, but the plants from Sutter's Seeds or the same chance in every way, such as soil and cultivation, but the plants from Sutton's Seeds seemed to get the start of the other plants from the first and kept so throughout the season, showing greater vitality, and the results of the yield from Sutton's Seeds were fully one-third more tons per acre than from the other seeds sown. With these results before me, it is needless to say that in the season of 1906 I grew only Sutton's Seeds. I sowed Sutton's Prizewinner Yellow Globe, Yellow Intermediate, and Sugar Mangel, and from a field under five acres we harvested about 205 tons, or a little over 40 tons per acre, a yield which I consider very satisfactory, and in this lot we had no large, overgrown mangels, but all were of uniform size and solid, therefore, I think, of better feeding and keeping qualities than the large, overgrown rough varieties. So with my experiences with Sutton's and other seeds, I have no hesitation in recommending Sutton's Seeds to my brother farmers. The price may seem high compared with other firm's seeds, but the increased results fully

warrant paying the extra price.

For myself, I intend sowing nothing but Sutton's Seeds, even if other seeds were offered me free of cost. Yours faithfully.

WM. E. BUCKINGHAM.

Lavington Ranch, White Valley,

Vernon, B. C., November 26th, 1906.

The Brackman-Ker Milling Co., Ltd.,

The vegetable and root seeds which I got from you in the Spring of 1906 have given me every satisfaction and I have had far greater crops than in former seasons. From five acres of Prizewinner Yellow Globe Mangels I got 210 tons (weighed) of roots of first quality. I also obtained first prize for roots at Vernon Fair, and, after visiting the New Westminster Fair, I regretted very much that I did not send these roots to that fair, as, in the opinion of several parties who visited our fair here, our roots were better than anything shown in New Westminster. The little extra cost of the seed should not be considered for one minute by anybody, as the germinating power of these seeds is away ahead of any other seeds being sold in this country. I gave about a half pound of mangel seed to a neighbor of mine, who planted them beside some mangel seed obtained from a well known Eastern firm, the variety was the same and the seed received the same treatment, etc. The row of Sutton's Seeds just gave almost double the amount of roots, and roots of finer quality. I hope you will forward

me your Catalogue for this season as soon as possible.

JAMES T. BARDOLPH.
