Mr. Allen presented the report of the committee on municipalities recom mending the bill to authorize the Chatham school board to issue debentures.

The attorney general presented the report of the committee on law practice and procedure, recommending with amendments the bill to fix the fees to be paid by municipatities in criminal investigations.

Hon. Mr. Dunn introduced a bill to authorize the municipality of St. John to issue debentures for jall improvements, and also a bill to establish th line between St. John city and the parish of Simonds at Drury Cove; Hon. Mr. Tweedie a bill to authorize the town of Chatham to issue deben tures for water and sewerage pur poses.

On motion of Mr. Allen, the order for the third reading of the bill incorporating the Aberdeen Co. was re scinded for the purpose of referring i again to the committee of the whole. Dr. Ruddick introduced a bill to authorize St. John county to issue de-bentures for the Isolation Hospital, and Mr. Robertson's bill relating to the maintenance of the St. John Salvage Corps, and to vest the appointment of recorder of St. John in the

confederation, a fact which demon-strated that it should be the aim of the government to devise some means of keeping our people at home. In dealing with the agricultural policy of the meanment the agricultural policy of the government, the provincial secretary spoke as if the development that. had taken place in the farming industry was due solely to the present ad-ministration, and that but one feeling existed among the farmers in regard to the government, and that was of the utmost loyalty. They were represented as burning with zeal to vote for the government at the next election. Yet in 1900, Carleton county, the

garden of the province, elected an opponent candidate, and in the last by said that the present government had election in Kings county another ima legacy handed down to it by a preportant farming section, the government, with all of its influway subsidies, which are responsib for the net debt, but irrespe ence only succeeded in carrying the county by a majority of but 130, which was a greatly reduced one from a former election. Many of the farming districts voted against the governcome down with a financial statem ent candidates. So it is incorrect to say that all agriculturalists approve of the policy of the government. He October, 1900, was \$2,851,086.28, comquoted an extract from a letter he had

received from one of the most intelligent, most energetic and representa tive farmers in New Brunswick, in which it was stated among other things that the agricultural statistics which are furnished the government are often made up by school secretaries, who, knowing very little of the farming in-

terests of the province, often furnish information which is not accurate but on the contrary misleading. The letter pointed out that lecturers on agriculture, often selected as a reward for party services, could speak more intelligently of political deals and spruce logs than they could of farming, dairying and that sort of thing. Are the men whom the government are paying for this service worth the cost? Do we produce a better article of cheese.

or is it as good as it was some years last year was \$18.573, which is in exago? Leaving agriculture, the provincial secretary turned his attention to the lumbering interests of the province and charged the opposition with not lication of a hand book of New Bruns being disposed to treat the lumbermen fairly. The provincial secretary knows of the book in a book-binding estabthat neither on the hustings nor on the loors of this house has the opposition

for the province. Of the sum received on the Eastern Extension claim, \$2,500 was paid for actual expenses, so the balance amounted to some \$2,700, or about \$700 a year. That certainly is not an excessive reward for success in a case of such magnitude. The leader of the opposition spoke of my receiving \$425 for services in the bridge investigation. These services were performed in the year 1900 and were of an unusual character. T charged just the same as Dr. Stockton-\$50 a day. The member for Carleton blames us for increasing the bonded indebtedness, and also for not building a free bridge at Hartland. These are very inconsistent positions. The Hartland bridge is only fourteen miles from Woodstock, where we had expended \$150,000 on a bridge. The Hartland men came down and asked us to pledge the credit of the province for sufficient bonds to build a bridge. We did so, and they agreed to make it a toll bridge. The tolls charged on the bridge are very small and the people are well content to pay them. Yet, after all the cry against extravagance, we are able to show a surplus of nearly \$50,000. The leade purpose of illustrating the awful extravagance of the government, read figures showing the difference in the cost of the executive government in 1895 and 1901. He said the cost had increased, without taking into account

picked out 1895 for his comparison because it was the last of the seven years except the year 1898. If he had called attention to the year 1897 he would find that that year the cost was \$31,278, while last year it was \$300 less. Why did he not say that we deserve credit for the reduction from 1897 to this year? He picks out the lowest year for his comparison, which is unfair. Mr. Pugsley went on to reply to

statements made by Mr. Hazen in his Kingston speech, but had not finished his speech when the house decided to adjourn at 10.30 o'clock.

The house met at 3 o'clock. Hon. Mr. Labillois, in reply to enquiry by Mr. Hazen, said the cost of repairing Perry's Point bridge, Kings Co., during the last fiscal year was \$700. In addition to that \$128.20 was paid to the caretaker for opening and closing the draw. The work was not put up at public tender, as in the opinion of the department, owing to the character of the work, it was not considered feasible to do so. The work was done under supervision of John W. Chaloner, supervisor, and was carried on days' work.

Hon. Mr. Labillois, in reply to Mr. Hazen, said the cost of building piers on the Kennebeccasis river during the last fiscal year for the steamer Adino Paddock was as follows : Pier at Titus anding, \$292.29; Rothesay, \$309.06; Moss Glenn, \$238.50; Chifton, \$308.29; Long Island, \$135.50; McCormack's, \$258.42; total, \$1,542.06. The Spring months are a trying time to most people. At no other time of the year do health and strength seem so hard to gain and to hold. You do not feel that you are really sick, but you feel about as bad as you could if you were seriously ill. That feeling ought to be got rid of-and it can be. What you need is a tonic to enrich the blood and free it from the impurities which have lodged in your system during the winter, and which are responsible for your present condition.

Dr. Williams' Pink Pills For Pale People

is the only reliable, never-failing tonic medicine. These pills make new, rich blood, strengthen the nerves, and bring health and renewed vitality to every organ in the body. They are an ideal Spring medicine, and the best thing in the world for all diseases having their origin in impoverished or impure blood.

Mr. Joseph Porier, M.P.P., Grand Anse, N. B., says :--"Both my wife and daughter have greatly benefitted by the use of Dr. Williams' Pink Pills. In my daughter's case she was in very poor health, pale, thin and apparently bloodless, but through the use of the pills she has regained strength and is again able to enjoy life. I think Dr. Williams' Pink Pills the best of medicines when the blood is in a poor condition."

There are no pills "just the same as," or "just as good as" Dr. Williams' Pink Pills, and for this reason you must get the genuine with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper on every box.
