They have most likely fallen before this time t and, if the truth were known in London regarding the character of the country to he traversed by the line, it would be diffi-

regarding the character of the country to be traversed by the line, it would be diffi-cult for the country to screw another dol-lar out of English investors. As a help towards making it known, we purpose giving a few facts gathered from Mr. Livingston, who has traversed the whole length of the line so far as explored. From Red River westward to Helena city in Montana, a distance of 790 miles, the land is a treeless waste, where scarcely stunted shrubs enough can be found to kindle a is that the natives look upon the animal as shrubs enough can be found to kindle a fire, and mostly barren of vegetation of any kind, abounding in morasses, quick-sand, and those most desolate of desola-tion with the the desolate of desola-tion of the the vord. That of Monreat, we believe, has rather more skating area, but ral. That an animal should suckle its their admiration and curiosity.—Ysa Can-tin, in Land and Water.

nny kind, abounding in morasses, quick-sand, and these most desolate of desola-tions, called "bad land." These latter extend for one hundred miles; and appear to be vast hollows, as if the beds of former dead scas, where the land is utterly parch-ed, destitute of the slightest trace of vege-tation, and then only in the tiniest pools of not more than two or three inches in depth, bedded in acrid saline matter. The descent into these bad lands is something trying to more than forty-five degrees, requiring the wheels of vehicles to be all four braced; and even then it is dangerous. The getting and even then it is dangerous. The getting their admiration and curiosity.-Ysa Can-trunt, in Land and Water. Ysa Can-trunt, in Land and Water. Greatness of London. The population of London, according to the last census. is 3,883,692. This vast multitude is more than the combined po-pulation of New York, Philadelphia, Brooklyn, St. Louis, Chicago, Baltimore, Cincionati, Boston, New Orleans, San francisco, Buffalo, and Rochester. To lodge these people 777,000 dwellings are required, and the people consume annually about 4,480,000 barrels of flour, 42,000 wickian school, with a regiment of intelliand the reflectors need renewing. Shipping Disaster.

reason why I should be taunted by any healthy gentleman with sitting down and refusing to answer." And in closing his remarks he again made reference to Woodworth's attack. made reference to Woodworth's attack, congratulating "the member for King's debut."

upon his manliness and good taste, and It is not to be inferred from these exhoping he was satisfied with the triumph tracts from the Government Press that he had achieved in forcing a sick man to they monopolize all the sharp things that speak." Woodworth felt that the sympa- are uttered through this source. The thy of the House was with Garvie, and that Reporter is brimfull of hits, -some humorsomething in defence was expected from ous, others savage enough, at the Govern him. He accordingly spoke again and ment. Here is a fair specimen of its light and easy style :-caused another scene .--

Good. Mr. Kirk, honest man, moved I did not say I wished the hon. member the reply to the Governor's speech, and in doing so he manfully recanted all the dis-loyalty which he had ever expressed be-fore. That's right, Mr. Kirk, make a clean breast of it. Your leaders tried to to speak, although I acknowledge I was very anxious to hear him speak. But what I did say was this, that the Governwhat I did say was this, that the Govern-ment was dumb, and had shewn that they did not intend to be dumb from the fact that they had dragged from his sick bed the hon. Com'r of Mines. That was true, as everybody was aware, who had watched the hon. William Annand, who has lob-byed around this house from post to pillar with an effrontery that does not become a more of this experience. make fools of you and other decent menmake tools of you and other decent men-tried to make "rebels" of you, as you say; but they failed. Good for them ! Say it again, Kirk-the following sentence, we mean : "I yield to none in my attach-ment to the British throne and British institutions." We want to hear some other "suspects" making a similar pro-fession of political faith.

Worrying the Importers.

The remarks of the hon. gentleman were here interrupted by cries of order. Hon. Prov. Secretary said it was unpar-liamentary to refer in such terms to a gen-tleman who had a seat in the other end of

The Montreal merchants have been shockthe building. Mr. Woodworth said that the hon. Prov. ed by receiving information from England Secretary had cheered with a mob in the galleries at his back when the hon. Com. of Mines referred in much more violent language to Dr. Tupper. that the Collector of Customs of Montreal has been seeking to obtain in England " samples of various goods for the use of

The Speaker, we are told, "called the appraiser connected with the Customs Woodworth to order, and instructed him at that port, such as hosiery and haberdashery, cloth of all kinds, tweeds, cottons, in the well established rule, known to silks, satins, velvets, silk ribbons, linens. nearly every school-boy who has read anyhats and caps and dress goods, together thing of parliamentary proceedings, that with their respective values in your mar ket." The latter, to secure the samples a member of one branch of a Legislature cannot reflect on a member of another and prices, he caused a circular to be adbranch, because each branch is perfectly dressed to a number of the leading dry independent of the other." The probagoods houses, who in turn communicated bility is that Mr. Woodworth, like the the Collector's or Appraiser's movements
