

ST. GEORGE'S SOCIETY,

REPORT OF THE CHARITABLE COMMITTEE FOR 1855.

The claims upon the Society during the year now ending have been less numerous than usual, after relieving all applicants either by gift or loan there will remain a surplus of funds, available for any future extraordinary emergency.

In one or two instances where loans have been made, the whole amount lent, (with an addition as a contribution) has been most honorably repaid.

The Committee were deprived, early in the summer, of the valuable services of their Secretary Dr. Cole, whose attention and kindness to any requiring medical aid entitles him to the best thanks of the Society. Since his departure the duties of Secretary have been most efficiently performed by Mr. Veasey.

The Committee must again urge upon the Society the absolute necessity of some hospital provision being made for the infirm and sick.

HENRY W. WELCH,

Chairman.
